" Unite and support the armed agrarian revolution of the Indian masses "

Today the Indian peasantry, under the leadership of the Communist Party of India (Marxist-Leninist), is waging an armed agrarian revolution in many parts of India. The reactionary and fascist Indira government, a faithful lackey of US imperialism and of Soviet social imperialism, is desperately and in vain trying to suppress the just struggles of the Indian peoples. Our heroic peasantry together with all progressive elements is steadily advancing along the path of revolution.

The exploitation of the Indian peoples is daily increasing. For example, price of food has increased by about 30% in the last six months. The comprador Indira government is fast selling out our country to US imperialists and Soviet social imperialists. Today, India has an external debt in excess of Rs. 7,610 crores ( about \$ 10 billion ). This debt is increasing at a rate of about \$ 600 million each year. Such exploitation and oppression cannot continue for long in the revolutionary situation of today. Discontent is smouldering among exploited people, the distinction between the oppressor and the oppressed is clear, and when the people of our vast land will burst out in anger, no reactionary government will be capable of suppressing our revolution. That is why the fall of the reactionary and lackey Indira government is inevitable.

The revolutionary people of India have proved through their struggles that, " THERE IS NO WAY OF LIBERATION OF THE INDIAN MASSES OTHER THAN ARMED AGRARIAN REVOLUTION ". The pace of our revolution is being quickened. The Indian people, led by CPI (M-L) and the correct revolutionary line of Comrade Charu Muzumdar, are wining many battles and will be victorious. The heroic peoples of Vietnam have shown the world that an united people can defeat the "mightest" imperialist power the world has known. Their struggles have also shown that a just cause enjoys abundant support from all democratic people of the world. Compatriots, friends, let us unite and support the armed agrarian revolution of the Indian people.

IPSG will hold a meeting on this topic.
