

Did Soviets cooperate with Chile coup?

To all those who went to hear Hayden and Fonda and Ralph Nader, you have got to hear this man! If you think that the evils of capitalism can be exorcised peacefully, without smashing the power of our rulers who have murdered millions world-wide (and who are preparing to murder millions more in World War III), then you have to come hear Jorge Palacios speak. In Chile, in September 1973, our rulers unleashed a coup d'etat that drowned the Chilean people's attempts to change society in blood. 30,000 were slaughtered! And this was 3000 miles away! Just think how much more their wealth and power mean to them here.

For all those who think that the U.S. is not an imperialist country, whose tentacles crush the lifeblood out of people all over the world, then you have got to hear this man! Was the CIA-sponsored coup just some misguided act? Why then has it happened time and again—in Chile, in Guatemala, in the Dominican Republic, in Indonesia, in Cambodia, and so on and so on?

WHO IS JORGE PALACIOS, this man who has been on the

By The Revolutionary Communist Youth Brigade

Chilean fascists' hit list since 1973, and who the U.S. government tried to prevent from coming to this country to make this tour? Jorge Palacios is a revolutionary leader of the Chilean people, a founder and leader of the Revolutionary Communist Party in Chile, an organization that is actively organizing the resistance movement to help lead the Chilean people in overthrowing the fascist junta. Jorge Palacios is the author of a new book, *Chile: An Attempt At 'Historic Compromise'* (The Real Story of the Allende Years), which, for the first time, exposes how what happened in Chile was not inevitable—that the Chilean people were set for an ambush (the U.S.-sponsored coup) by the pro-Soviet forces (the Communist Party of Chile, in particular). You don't believe it? Then, at least, have the courage to challenge or defend your convictions!

Already, news of this program has driven some political groups

into a frenzy—the Communist Party, U.S.A. and the Spartacist League, in particular. The former has torn down posters for the event, and, in other parts of the country, has attempted to organize a boycott of Palacios' speech. The latter is planning to bring its whole midwest cadre to disrupt the program with their "jack-in-the box" (dominate the question and answer session) tactics. Why does the mere mention of Jorge Palacios drive these people into a rage? Because, he rips the so-called "socialist" or "progressive" mask off the Soviet Union and its flunkies around the world and shows how they set the Chilean people up for an ambush and, beyond that, are a force for reaction all around the world. Well, we have a message from Jorge—bring out your best people because he's no stranger to controversy.

For all those who think that the whole left should unite (since they're all pursuing the same "goals"), consider the following: In September 1973, the U.S.

ruling class unleashed the fascist military takeover in Chile which overthrew the government of Salvador Allende and murdered 30,000 Chileans. Only a few months earlier the CP had joined with the right in passing a gun control law that allowed the armed forces to disarm the people before they attacked them, and, in addition, right before the coup, the CP commanded its members to turn in whatever guns they might have left.

While the revisionist CP is begging the generals to let them play the game of "democracy"—and the revisionist CPUSA holds phony "solidarity" programs telling Americans to write their Congressmen—the Revolutionary Communist Party of Chile is preparing the Chilean people for the armed overthrow of the fascist junta and to win real liberation. Come hear a Chilean Revolutionary Communist! Come hear Jorge Palacios on Monday, October 29 at 8 p.m. in the Michigan Union Ballroom.
