black mail!

Frito-lay has proven that they are refusing to Bargain in good faith. Frito-lay has sent a letter to employees stating that if we do not return to work by August 23 they will take back all offers made and open the doors of the plant for all who want to work. This is nothing but treacherous, illegal BLACKMAIL. If we let ourselves and our union be threatened in this manner and give up all we have fought for so far, we have lost--not only in this strike, but in any future negotiations in the years to come. We cannot give in to Fritolays strike breaking and union-busting scare tactics. At the union meeting, EXPOSE THIS BLACK-MAIL, and let's struggle for new tactics to be organized so we can WIN this strike.
