April 11, 1969

Chairman Mao Tse-tung  
Vice-Chairman Lin Piao  
Premier Chou En-lai

Comrades:

The National Committee of the Progressive Labor Party congratulates you on holding the Ninth Party Congress. The election of Comrade Mao Tse-tung and Comrade Lin Piao mark a big victory for the forces of the Cultural Revolution.

The consolidation of the Great Cultural Revolution, embodied in the Congress marks another defeat for the revisionists and U.S. imperialism. The strengthening of the Dictatorship of the Proletariat in China is an advance for all revolutionary forces.

Holding your great Congress in the face of

Soviet bosses aggression and continued Soviet and U.S. encirclement of China is a display of supreme confidence in eventual victory. The great people of China are the certain guarantee for repelling any ideological and military assault against the People's Republic of China.

The victory of the revolutionary forces in China serves as another lesson that negotiations with the revisionists or the imperialists is bound to lead to defeat. Comrade Mao Tse-tung and the hundreds of millions of Chinese people show that the best defense against ideological and military encroachment is to fight back, and to fight to the end. They have shown that the path to winning is unrelenting efforts against imperialism, nationalism and revisionism.

Comradely,

The National Committee of the PLP.

## PLP SUPPORTS PEOPLE'S CHINA

Chairman Mao Tse-tung  
Vice-Chairman Lin Piao  
Premier Chou En-lai

The Progressive Labor Party (PLP) vigorously condemns Soviet aggression against China. U.S.-Soviet collusion is trying to encircle and smash Socialist China.

Soviet and U.S. bosses have received a lot of help from the revisionists in north Vietnam, Japan, and North Korea. Cuba, East Germany, Rumania, and the rest of the revisionist gang can hardly wait for the destruction of the Dictatorship of the Proletariat in China. All revisionists hate the Cultural Revolution which is aimed at strengthening the Dictatorship of the Proletariat in China. U.S. rulers and right-wingers hate Chairman Mao Tse-tung because the People's Republic of China is the bulwark of Marxism-Leninism and the main force for revolution in the world.

The Soviets' latest aggression in the northeast region of the People's Republic of China is directed at splitting and spreading thin the great Red Army. They hope to open China to invasion by the Indians, Indonesians, Japan-

ese and other capitalists in Asia. These forces will be joined by the U.S. Of course, the Soviet revisionists lead the way.

Negotiations in Vietnam, Soviet aggression in Czechoslovakia and other counter-revolutionary actions have encouraged the Soviet-U.S. rulers. However, it wasn't too many years ago that the Russian people rose up and smashed multi-imperialist invasion of the newborn Soviet Union. The heroic Chinese people will add a new leaf to history by defeating the U.S.-inspired Soviet attack on their country.

The fight against revisionism in the People's Republic of China, launched by Comrade Mao Tse-tung is vital to the Chinese people and all people. Under the influence of the Chinese masses the Soviet people will return to the spirit of 1917. The Russian people will eventually dump the right-wing bosses. They will recognize the imperialist nature of Soviet Union and its imperialist aggression against China. Imperialism and revisionism will be defeated.
