nated government failed to give) the right of free speech and free

dom of assembly abolished; their responsible leaders thrown into

jail; their petitions and delegations

ignored—the people of Kenya had the same choice which once faced

the people of Ireland: remain the

#### WHY THEY FIGHT

To defy the armed might of a great imperialist power is a desperate act—but the Kikuyu are a desperate people. They are not fighting because of some "reversion to barbarism" as the British press ignorantly reports—but be-cause rich (mainly titled) people from England have invaded their country and driven them off the most fertile lands into barren and over-crowded reserves where impoverishment has reduced the majority to the lowest possible level of life.

Those who try to find a new start in the cities go only to swell the 10,000 homeless, jobless Afri-can street dwellers of Nairobi or Mombassa. These are some of the reasons why this brave people defy all the planes, guns, and police dogs of British Imperialism.

And don't think for one moment that the Mau Mau has failed. It hasn't. With their blood and their lives, these bitter opponents of the white settlers have at least com-pelled world-wide recognition of the social problems that exist in

Those problems have existed for long time. Jomo Kenyatta spoke about them in London as long ago as 1930! But only now, only after Mau Mau spears and knives have been wielded against British troops have people in this country of the privations brought to them by the whisky-swilling aristocrats who have invaded their land.

#### WHAT THEY FIGHT

But the young Kikuyu have paid dearly for their courage. For sheer brutality the public school boys who lead Britain's armed forces in Kenya would take some beating. Here are just a few of the pleasantries they have devised (presumably on the playing fields of Eton and Harrow) for use

Editorial

against the "terrorists." against the "terrorists." Score-boards for killings and bonus pay-ments for the number of dead bodies brought in; police dogs (loaned by Malan!) for tracking down the Mau Mau; suspects roasted alive and others smothered with petrol and set on fire; the the breasts of Kikuyu women the breasts of Kikuyu women scalded with boiling water until the skin peeled away; cold-blooded shootings, and beatings to the point of death.

# TORY SAVAGES

And still the slaughter goes on —and will go on until we get a civilised Government in Britain which will recognise the right of the Kikuyu (and all other Africans) to lift their faces up to the sun and smell the scent of free-

The Tories are the savage barbarians—not the Mau Mau. Faced with this great movement for social and national liberation in all Africa the barbaric Tories have no policy except ... to shoot, and to keep on shooting, until (it is hoped) all the malcontents are

With such a policy the whole of British West, East and Cen-

tral Africa will soon dissolve into one bloody lump of misery.

#### LABOUR'S DUTY

But there is an alternative. The people of Britain can arrange an honourable withdrawal from

That must be Labour's policy. That must be the alternative. Let the Parliamentary Opposition declare that on being returned to power it will ask the peoples of Kenya (and all British Africa) to elect Constituent Assemblies which must fix a date for the complete ending of the colonial overlord-ship and the establishment of self-government. After that date the only white people in Africa will be there at the request of the Africans themselves in the capacity of advisers, technicians, doctors,

There is, unfortunately, not the slightest reason to believe that our leaders will on their own initiative adopt such a bold policy. Up to now they have tacitly supported all this blood and terror in Kenya. They are, it seems, as attached to the preservation of the white man's "law and order" as Oliver Lyttel-ton himself. But somehow, the rank and file of the Labour Movement—which gains nothing at all from these bloody colonial conficts—must compel our leaders to adopt more progressive policies. It must be done—or the Labour Movement is finished.

As a start, let all sections of the Movement demand that the war be ended! Stop the kill-ings, stop the slaughter!

And it can be ended within three months — if we force the British Government to release the leaders of the Kenya African Union at present in prison.

## AN APPEAL

On page four you can read a letter to Mr. Lyttelton from Mr. Koinange, one of the leaders of the K.A.U., who offers the services of the imprisoned leaders to stop the imprisoned leaders to stop the war—provided only that the British Government will give the following elementary assurances: an amnesty for all prisoners, the restoration of freedom of speech and assembly, the re-opening of the Kikuyu schools, a minimum wage to keep the people above the present starvation level, and a firm ference with only one item on the agenda—for or against German Re-armanent—is the only

eave alone answered.

In return for peace, the Kikuyu ask only for a return to the status quo ante. God nows the terms are modest enough! Yet Lyttelton has spurned this offer and the killings go on, the beatings go on, and the people weep in despair. What a cold-blooded barbarian is this "educated" Colonial Secretary!

With all the sincerity at our command we appeal to the Labour Movement on behalf of the mar-tyred people of Kenya: make Jim briffiths and other Labour leaders fight against this bloody war! Make them demand the release of the prisoners! Make them fight for a peaceful settlement of the Kikuyu's absolutely justified grievances.

Give the African some confidence that there is someone in Britain that he can trust: demonstrate that this island is not peopled entirely by sadistic cap-tains of infantry and psalm-singng hypocrites who promise freedom but only give...bullets.

# Germany: Recall the Party Conference! Y the narrow majority of nine votes, last Tues Y the narrow majority of conference. # The Week at Westminster

#### DEFENCE IS OUR MOST EXPENSIVE PENSIONER

NYTHING that misleads or deludes the mind, or an unsound argument may be termed a fallacy. Are we again being deluded by the Statement on Defence issued to Members this week? It is not so long ago that an erudite body like the Royal Institute of International Affairs produced a Report on Defence in the Cold War.

In four pages they wrote off the Atom Bomb, said nothing of the Hydrogen Bomb or the Cobalt Bomb and then concluded that there are serious military and political reasons for discouraging excessive reliance on the atomic bomb as a principal means of defending Western Europe of any other areas vital to the free world.

If the thought and fear of the atomic bomb does not pass (and the Report thought it would pass sooner than many think) then far more elaborate methods of Civil Defence than yet contemplated must be taken.

The Study was still for plenty of the conventional weapons and troops together with more and more piston engined planes. favoured the integration of West German troops into the forces of Western Freedom and favoured the assumption that you can have rearmament without tears if we get aid from dear old be-hed and bewildered Uncle . There it is, as laid down witched by the pundits three years ago. Some of us dared to say it was all baloney and could not be done.

Now comes the new White The Atomic Bomb is to be the main deterrent. It is argued that there would be relatively short periods of atomic attacks ingreat destruction and This would be followed Il phrase) by "broken-(beautiful phrase) by "broken-backed" warfare. In this period of "broken-backed" warfare we are told that "the opposing sides would seek to recover strength carrying on the struggle in the meantime as best they might." Here in black and white is the admission that the Generals would know what to do after a few days of Hydrogen and atomic

Civil Defence is considered as secondary. No wonder! Did you see what that old fashioned Hydrogen Bomb did to the bottom of the Pacific Ocean a year or two ago? As for that island. Where is it now? Not on the map! We know all this but we are going to keep the troops and they are to do their two years' service. Now the question should be asked where are these troops to be used? At the moment they are out in Malaya, Suez, Kenya and Guiana.

It is conveniently forgotten that the trouble in Indo-China, Malaya Kenya started without the machinations of Stalin or any of his ilk, yet the White Paper seems condemn us all to a perpeuity of the Cold War. If this is so what hopes have we of answering the problems that Beveridge raised about Social Security! No won-der the Economist said: "In Britain as in America and the rest of the free world, the defence programme has therefore become expensive pensioner, and is likely to remain one for some time to come."

The other day Lord Alexander told the Constitutional Club that Britain must make a steady build up of military strength so that we could spring swiftly to arms at any time in the next twenty years. Of

# by Harold Davies, M.P.

Algernon Sidney was executed on December 7, 1683. He enlisted against the king at the opening of the Civil War and he was wounded at Marston Moor. When the Stuarts returned he was condemned to the block.

He died not for treasonable acts as such but because he wrote and spoke out against absolutism. He wanted Governments for the people, and not the people for the governments. As he went to the block he said: "We live in an age that maketh truth pass for treason." Who is there now to preserve the people from the apotheosis of the useless, namely a short, sharp period of Atomic War? If Labour fails to meet the is left to challenge who then search for the truth?

#### THE BOYS OF THE OLD **BRIGADE!**

both the Boys of the Old Brigade and the Girls are not having such a rip roaring time if they happen to be on Old Age Pension.

I gathered this in the sedate at mosphere of the House of Lords as Lord Beveridge was telling their Lordships that pensioners and others receiving national insurance benefits were not having enough to live upon.

Last December there were nearly 1,250,000 people in receipt of the full National Insurance benefits who found them inadequate to live upon and therefore had to seek Public Assistance.

Beveridge added: "Inadequacy f benefit rates, including, of course, pension rates, for subsistence is the immediate problem which is facing hundreds of thousands of people in this country today, and many millions in prospect in the near future." Lord Beveridge objected to a means test as an admissable or tolerable form of treating poverty. The nub of the question was the cost of all

Beveridge indicated, problem for the people and the Government is to meet the growing cost of retirement pensions. He estimated that the deficit in 1977-78 will be something like

One solution Lord Beveridge put forward to lighten the burden on the taxpayer was to lengthen the working life of the Old Age Pensioner. This solution meets with little opposition during a period of boom but what a hue and cry there would be if we were bang in another slump like that of the "Thirties." The younger man would accuse the older of taking the bread out of his mouth!

This brings us to the point where Foreign Policy, Arms and Commitments catch up with the Those are the ones that we sing whole question of the amount of about in sentimental mood. But Social Security that we can offer.

# Danger! Railway Cutters Having been forced to grant a meagre 6 per cent wage increase, the are on the Job

Railway Management are preparing to unload the cost on adays when the management men- tion at a joint consultation meetcharges, and on to railwaymen will be well advised to watch their pockets. in the form of an "efficiency drive.

the problem is that of pouring the form of modernisation, intensifi-quart into the pint pot. How to cation of work and the dove-tail-

limits on the use of steel into the bargain, is really something. But it is being solved in the well known way, previously practised by the greatest slasher of them all, Josiah Stamp of pre-war fame. That is what is behind the agreement reached with the Unions over Xmas, for greater efficiency. Like all such essays in the past, it has always meant for the rank and file loss of some hard won rights and conditions.

In the early 30's, cuts in wages were forced and men were sacked. mains at the same strength as be-Those left were often reduced in fore. The organisation of train grade and sent all over the country to work as porters, lamp men etc jobs have been dovetailed thus elito pay for lodgings.

days have been worked. It is ings is by the way).

In fact, the rationalisation of the railways has been going on For the Transport Commission ever since nationalisation in the quart into the pint pot. How to cation of work and the dove-tailest out of revenue enough money for the much needed renewals of outmoded equipment, wages and, coal and iron ore traffic is handled of course, the yearly interest bill to the shareholders of £32 million.

Many other schemes are also on hand, includ-Many railwaymen can now tell of ing a scheme all ready to operate those days when they were put involving several shunting yards. back portering and had to sell the bike and articles of furniture to and cutting down on such items as make ends meet. Since 1948 in the name of efficiency the callersup and van attendants have been that Mr. Allen always includes 

to the general public in the tions efficiency you can bet they ing with the men's representatives, form of an increase in freight are out to filch something, and presumably to get them to sign on

The union leaders seem to have put our heads on the efficiency block and the management are very obligingly coming along to chop them off, all in the name of a better railway system.

Railwaymen want better wages, better welfare, better working conditions and a decent pension and sick pay scheme, and only having got these can we talk about efficiency.

Rank and file railwaymen are of course in favour of an efficient transport system but they are not in favour of hanging a noose around their necks to get it. If the management's efficiency drive is going to mean misery and privation then railwaymen want none us start with a rank and file conference to show the management where the cuts are needed. unions should demand and organise such a conference and present their own proposals to Sir Brian Robertson and his N.C.O.s.

Such a conference would undoubtedly produce a different plan to that now being put into operation and there would be more than a few managerial office chairs vacant if rank and file railwaymen had their way.

The unions should demand that the £32 million shareholders' interest be diverted for vitally doubtful if any of these measures

This is at present labelled "top needed expenditure to bring railcontributed to the better running secret," but the scheme is due to way work and working conditions
of British Railways. So that nowbe presented all ready for operaup to modern practice.

# Can America Avoid Slump?

AN U.S. CAPITALISM restore the economic cocksure on this score, but now that they are up against the test, the forecasters are starting to hedge their bets.

Even in the past, in predictions intended not for the public but for the trade, economists were very doubtful that any serious block could be placed in the way of a decline in the economy by government intervention. For instance, on December 29, 1951, the New York Times reported a consensus of opinion among the country's leading economists that "If a peace settlement or its economic equivalent were achieved, this country's economy would be in for a drastic readjustment leading to a serious slump. This would test counter-depression techniques, and in the opinion of most economists, find them want-

According to the propaganda which we have been reading, both parties, Republican and Democratic alike, have adopted the creed of "controlled capitalism". They are ready to force the capitalists to surrender some of their privileges in order to preserve pros-This tale of two parties that went to college during the last depression and have now emerged all smartened up and ready to deal with any emergency is about to get its first serious tryout. And, as a sign of how well they are going to do, we have already seen the spectacle of greed and irresponsibility that was produced by Eisenhower's proposal, mild and inoffensive as it was, to share out war orders to the unemband; how much more frightening ployment areas. Hardly had the words left his lips when the domi-nant sections of both parties raised a terrible outcry. The administra-tion leaped on its bicycle and be-gan back-pedalling so fast that in two days it was out of sight.

Another favourite notion of the propagandists of capitalism that is about to be tested is the scheme for vast public works to meet the threat of depression. The workers will raise a great demand for such public works from the outset of any slump. Facile newspaper propagandists of the Sylvia Porter have been writing for years that the government can just as easily spend great sums on public works as on war programmes. Yet we may be sure that at the first mention of any welfare spending, the Big Business class will gird itself for battle. And since this class controls directly just about every department of government concerned in this matter, public works will not prove too easily obtained. Business Week gave a clear explanation of the capitalist viewpoint in this matter three years ago, when the recession of 1949 stirred up discussion about

"There's a tremendous social and economic difference tween welfare pump priming lord's signature on it. and military pump priming. It makes the government's role in the economy-its importance to business-greater than ever. Military spending doesn't really alter the structure of the economy. It goes through the regular channels. As far as a business man is concerned, a munitions order from the government is much like an order from a private customer. But the kind of welfare and public works spending that Truman plans does

boom by government intervention? Up to yesterday, An American socialist writer answers the question which all the world is asking. The article is reprinted from the "American Socialist." Socialist.

February 12, 1949).

Professor Albert G. Hart of Columbia University, at the recent forecasting sessions of the connexitation of the capitalists economists' professional associafeeling among economists when he said: "A serious recession... will come some time in the next few years, whether or not we have one in 1954." And then he added: 'No one worries about that because it is normal." He might cause it is normal." have added that capitalists have always considered an army of un-employed to be "normal". But employed to be "normal even aside from the millions and their families, there are plenty of people who are worried about "a serious recession." Europe worries, thinking back to the devastat-effects which the minor slump of 1949 had on foreign trade. U.S. capitalists worry, thinking about drops in profits from the record highs where they have stayed for a number of years, and about the increase in business failures.

And the top planners of U.S. capitalism worry. They dread the disappearance of social stability, and the growth of labour-capital battles in this last stronghold of capitalism. They have been worried about the catching up of Soviet economy even when U.S. industry was booming to beat the

On February 17, 1950, shortly the Korean War,

# A Plot **Exposed!**

"Evidence pours in from nearly every European capital from Tokyo, Washington and South East Asia that the economic framework of the Communist world has the nonalarming tendency to melt in any atmosphere slightly less frigid than the 'cold war'. In face of this evidence, econo mists can only repeat earlier warnings that real relaxation international tension would find the West in a serious and perhaps fatal economic condition." (N 13, 1953). (New York Times, April

The real Soviet plot exposed! Russia won't go to posed! Russia won't go to war with U.S. capitalism, thus threatening the West with "a serious and perhaps fatal eco-nomic condition."

authoritative U.S. News and World Report printed the following significant words:

"Armament can always be pushed if private activity slows. War scares are easy to create. are nearly sure-fire producers of money for more and more arms. There are signs now that top officials are to start conditioning the public for greatly expanded armament programmes in the not-too-distant future."

Do these words, which foreshadowed so accurately the Korean War and the big armament buildup which liquidated the slump of 1949, apply today to the slump of It may well be that the General in the White House and his industrial-financier cabal of planners" will take the arms path and the war path as the only solution for them. They may soon find the international situation "growing tense" again, and give up all thought of stabilizing the arms budget at its present level. Even with the best will in the world, politicians can't resist capitalism's basic pressures for very long, and it can hardly be said that Eisenhower, Charles E. Wilson, Richard Nixon, etc. have the best will in the world. They are neither New Dealers nor paci fists, and even the New Dealers pacifists didn't do very well when they were in office and the heat was on. Thus the real "counter-depression" mechanism which the capitalists may try to put into operation is the same one they used in 1940 and again in 1950. That's the danger posed by the slump, and that's the danger which the labour movement must face squarely and oppose vigor-

# \* A Plea for the Comprehensive School \*

S ANYONE — parent, teacher or councillor—still left with complete faith in the intelligence tests, which determine, at the early age of 11. the future lives of our and that their skills often change children? Critics are every- in emphasis. Any sound system of arguments against the present out for such changes in the child system of selecting children for secondary education that it is difficult to know where to begin to state them.

One thing, however, ought to be made clear; nobody is being dis-honest. Psychologists who devise the tests try to make them as efficient as it is possible and the real difficulties are not under their con-Education committees are trying to be as fair as they can in making the present system work Nevertheless it must be affirmed here and now that no reliable method of testing has so far been

If injustice and dreadful mistakes are to be avoided we ought to abolish the entrance examination at 11 plus.

The use of intelligence varies throughout life in an entirely unpredictable way. It is safe to say that a boy or girl of 11 has already developed a fixed and unchanging quantity of noses, ears and arms, but it is not safe to say that children of 11 have developed the use of all their intelligence.

#### BORDERLINE CASES

Another factor is the extreme difficulty of defining "intelligence," and if you can't define that which you are testing, of what value is the result of your test?

It is true that at this age you primary can pick out the exceptionally bright child and, at the other end creased scores. of the scale, those who are obviously backward. But for the vast majority of children who are not in either category there is a judgement which seems-and ishighly arbitrary.

tenth of one per cent. separates the successful child from the unsuccessful. These are the children in the modern cessful. These are the children in the modern that heart-aching category called the "borderline cases." And every recognised, both by the pupils and educationalist. Knows just how by many of the teachers at the is realised that less than oneeducationalist knows just how wide that "borderline" is.

So we select at the age of 11 plus, although not a single expert examiner dare say that it is possible to select all children at this

Every teacher knows that child-ren change and that "late deve-lopers" who looked hopelessly backward at 11 years old grow into adults of remarkable capacity

where, and so many are the education ought to be on the look for the Stratford-on-Avon conand suit itself to them.

#### EFFECT OF COACHING

search made after investigations

Records are given of a number of interesting experiments con-cerning these examinations. Thus, 20 children who had failed at the Common Entrance examinations were given practice and a little coaching and then tested again. The result was that 12 of the 20 obtained scores which would have justified passing.

Of another experiment it is said "... of 54 children, whereas three only reached this level at the beginning of this experiment, no fewer than 22 had reached the level at the beginning of this experiment, no fewer than 22 had reached the education for all" achieved. ginning of this experiment, no fewer than 22 had reached the level at the end."

These facts are startling enough, but even more alarming is the statement that in tests made after the children had been 12 months at a secondary modern school and were allowed to take the exam. again, their scores showed a decline. "The decrease was significant for all ranges of ability, but appears to be greater for the brighter children."

On the other hand, children who remained another year in the primary school and took the examination again showed in-

#### PLACE FOR FAILURES

As the great majority of children will go to modern schools we cannot overlook the fact that this may mean that there is an actual How arbitrary can be seen when fall in the level of education is realised that less than one-throughout the country. Is this by many of the teachers, as the place where all the failures go.

The hopelessness extends to the parents—who are usually not in a position to judge their childrens scholastic ability and who, until they are shown that these tests are not reliable, may accept the ver-dict that their child is without any significant academic powers.

The N.F.E.R. also says: the primary schools, particularly in the top class, there are usually several bright children who set the pace for the others and incite them to rivalry. The modern school lacks this stimulus; the pacesetters have passed on to the grammar schools.

It is obvious, as the Norwood

But we realise that in order to bring this about, the first essential is the restoration of the status quo ante. The purpose of our appeal to the Government is to allow the Kenya African Union, which is still recognised by the Government as the legal and official political organisation of the Africans, to use its influence in helping to solve the present crisis between those Africans involved in acts of violence and the Government.

If the Government agrees in principle to our offer, we propose that the following conditions will

Mr. Koinange's letter was sent to the Colonial Secretary in April,

have to be agreed upon so as to the present unrest. strengthen our hands in tackling ence of representatives of all the the issue:

- Restoration of civil libertieslifting the ban on the African
  Press, the right to hold meetings
  (subject to police supervision),

  Delegate in the United Kingdom

  (Subject to Police Supervision),

  THE MENUA APPLICANT legitimate trade union and co-
- 3 Immediate increase of minimum wage scale which would enable Africans to obtain staple food.
- Return of the squatters and other Africans removed either from settled areas or their areas into the already over-crowded Kikuyu Reserves, and recognition of the principle of "equal pay for equal work."
- Re-opening of all Kikuyu In-dependent schools under their already existing relationship with the Government. Restoration of the property con-
- fiscated from Africans not proved guilty of a crime before a Court of Law. Guarantee of safety to all Afri-
- can men, women and youths; freedom from violence, freedom from house to house round up by the Police unless there is reasonable cause to believe the law has been broken by the people

These points are essential if the Africans are to be persuaded that attempts at negotiation are genuine and that they may attend gatherings without fear of arrest.

We, the leaders of the Kenya African Union, feel confident our good offices and gives us an assurance that the above demands will be implemented, we can help to restore peace and goodwill in Kenya within three months from the date we undertake our mission. We ask nothing for ourselves

that if the Government accepts

but an opportunity of serving our country and promoting the peace happiness and prosperity of all the inhabitants of Kenya. We feel confident that Her Majesty's Government can do no less than welcome and accept the offer of the leaders of the Kenya African Union, who alone, among the Africans, enjoy the prestige and respect of all African communities to act as ambassadors of peace and mediators between the Government and those involved in

This is no time for recrimination and affixing blame. The im-Amnesty to all political pri- mediate need is to stop the bloody soners and immediate trial for warfare and restore peace, if we all Africans alleged to be in-volved in offences of criminal peans—are to live together safely. Yours sincerely.

Mbivu Koinange

the abolition of interference in of THE KENYA AFRICAN
