## Post Office Releases Two Issues Of Militant

AN EDITORIAL -

The Post Office, which has been withholding from the mails all recent issues of "The Militant," has permitted the Nov. 28 and Dec. 5 issues to be dispatched and delivered.

Unquestionably this action is partially a result of the protests registered by numerous labor and liberal journals and organizations in the six-week period since the Post Office began to interfere with the mailing privileges of "The Militant."

together, but also wants a witch-hunt started against all labor o ganizations and papers critical of the administration and opposed to reactionary Stalinist policies.

All others which have commented on the case thus far - the American Civil Liberties Union, "The Nation," the "Reading Labor Advocate," "The Call," "Labor Action," the "New Leader" - have condemned the Post Office's arbitrary action.

But it would be a great mistake to now relax pressure on the But it would be a great mistake to now relax pressure on the postal authorities or to cease demands that they quit interfering No-Strike Pledge with the delivery of this paper. For the decision to permit two individual issues to be delivered is no guarantee that future issues will not be withheld or destroyed.

Furthermore, while the postal authorities may appear to be making some concessions to demands for freedom of the press, their failure to permit the delivery of the paper until two weeks after the issues were first deposited in the Post Office, serves to completely cancel the practical effects of their decision.

A weekly paper detained in the Post Office for two weeks has lost 95% of its effectiveness and usefulness by the time it is finally delivered to subscribers and purchasers. Holding up a paper for two weeks is the next thing to destroying it.

The Post Office action in letting the Nov. 28 and Dec. 5 issues go through the mails is an admission that not even after poring over the paper for two weeks could its agents find any pretext for barring it. And yet "The Militant" is being punished by this two week delay for some "crime" which even the Post Office admits has not been committed.

Is this bureaucratic and thus far completely unexplained procedure to continue? Does the Post Office intend, while perhaps re- a spirited debate on recommaining within the letter of its technical powers, to destroy the mendations that labor reconsieffectiveness of a newspaper even though nothing can be charged der the "no-strike pledge" made against that paper but that it consistently defends the interests of the working class?

As long as the possibility remains that the Post Office may embark on such a course, every defender of freedom of the press must continue to raise his voice in protest. "The Militant" has become a test case for World War II. Not until its rights are ed a growing discontent in the fully restored can the charge be denied that the attack on "The Militant" is a first step toward the suppression of all criticism from the left.

#### Discussion Shows **Growing Discontent** In Labor's Ranks

NEWARK, N. J., Dec. 14.— The highlight of the fifth annual convention of the New Jersey State CIO, which concluded its sessions last night, was a year ago by the top leaders of the union movement.

Although at the end these proposals were voted down by the convention, the discussion revealranks of labor.

The outbreak came on a resolution brought in by the resolutions committee calling on the CIO to reconsider the no-strike pledge unless employers ceased taking advantage of it and unless steps were taken by the War Labor American workers have made has been turned into profit by their employers who are using these sacrifices to break the unions."

The secretary of the resolutions committee emphasized that this was a compromise measure that a resolution introduced by The price of beef has been shooting up, regardless of price Brewster Local 365 of the United Auto Workers had advocated outright withdrawal of the nostrike pledge.

### Roosevelt Put Over The Deal With Otto. Says Drew Pearson

President Roosevelt is responsible for the recent decision authorizing the reactionary pretender to the Austrian throne, Archduke Otto of Habsburg, to organize an Austrian battalion of the U.S. Army, according to a flat assertion made on Dec. 8 by Drew Pearson, Washington columnist.

Pearson declares that Cordell Hull, head of the State Department which was consulted by the War Department before Secretary Stimson publicly authorized Otto to go ahead with recruiting for the Austrian legion, had not approved of the idea, partially because he "has a shrewd faculty for feeling the pulse of American public opin-

"However, the man who really put it across was FDR himself. He overruled Hull and decreed that Otto should have his chance to recruit an Austrian legion."

#### First Outstanding Intellectual

With this speech Pearl Buck becomes the first outstanding American intellectual to admit publicly that she no longer believes that the war is a war for democracy. Since the Darlan deal in North Africa many of the pro-war intellectuals have become silent or are wailing about the possible danger of a reactionary peace. Pearl Buck is the first of them to say publicly that the war is "no longer" being fought for the progressive aims which she and the rest of the intellectuals previously read into it.

The extent to which Pearl Buck has changed her views is indicated by what she was saying and doing only a few months ago.

On February 28, 1942 she sent a "Letter to Colored Americans" to the editors of all Negro papers and magazines, in which she urged the Negroes, despite the continuance of discrimination against them, to give wholehearted support to the war. "Faulty as our democracy is, the United States must be the leader in this war for the right of peoples to be free—there is no other leader to whom we can look," she then told the Negro people. By the "United States" she meant, the Red Army react under the of course, the government.

On picking up the official press, the first question to which every defender of the Soviet Union seeks an answer is: Just how did the Soviet masses and above all terrible series of defeats? The ally to beat back the enemy. Pravda supplies invaluable supplementary information.

The columns of Pravda contain ample evidence of the unflagging morale and indomitable will to darity between the rank and file of the Red Army and its officers, especially the lower ranking ones.

Red soldiers and Red officers are seeking and finding comradeship in their joint struggle on the most to destroy through blood purges, on the one hand, and through the artificial fostering

The official Moscow press of a privileged military hierarchy,

On Sept. 4, Pravda carried a leading editorial fulminating against officers who fraternize with the soldiers. This editorial bears the title: "Militant Friendship at the Front." The keynote follows:

#### WHAT "PRAVDA" DISLIKES

"Genuine concern on the part of a friend-commander for the warrior cannot be substituted by a show of friendly politeness. There is nothing more pernicious at the front than the spirit of 'let's be pals'. A brave warrior has no need of it. A commander is a chieftain. He is always a chieftain. He is a chieftain even in friendship,"

The ruling clique confronts a grave danger in the event that this comradeship between officers and soldiers extends and deepens. Officers who have genuine mass support in the ranks represent a force that can play a role independent of the Kremlin. This must be forestalled by Stalin at all costs. That is why Pravda categorically declares that

ARMIES AND INSURANCE

Victor Gordon Lennox, the London correspondent for the Chicago Daily News, reveals that British ruling class circles openly recognize the necessity for maintaining a large army in peace time to prevent revolutions in the colonies. They realize further that the British economy cannot support a large army of occupation and oppression, and at the same time provide unemployment insurance for the workers. It can't be done, that is, without cut-

### When Did The War "Change"?

Up to this point Pearl Buck speaks very ogently and convincingly. Where she is least plausible, however, is in attempting to justify her past record as a pro-war propagandist. To do so she claims that the war "began as a war for freedom," but has since changed. "When did the character of this war change?" she asks, and then attempts to answer her own question as

"Somewhere in this year the step might have been taken which could have averted this Fate of the changed character of the war. Until that moment this war was being fought as a war for

She gets no further than this in her futile attempt to find a date when the war changed. Instead she goes on to say that the war could have continued to be a war for freedom, had there been "a man great enough to have declared that this war was a war for the freedom of all peoples." However, there was no such man:

"We had no man great enough to declare at the necessary moment the true meaning of this war. Let us reckon with this fact-our leaders strike was called after the boss are men of local minds. They have not been able had attempted to undermine the to think in terms of the world. . . . This war has union shop by the employment of been limited in its true aims. It has become a a scab. The engineers struck for military struggle. It has ceased to be a fight for

By a "great man," she obviously means a leader pletely, largely as a result of the in a key post—Churchill, Roosevelt, etc. WHY treachery shown by the Stalinists these men were unable to say what Pearl Buck hoped they would say-and which she told the Negro and colonial peoples they were going to say—she is unable to explain except on the basis that they have "local minds." Pearl Buck's explanation is nonsense. She has

realized which way the war is going, but has failed to realize that it was going that way from the very beginning—from the time, indeed, that the war was being planned in the cabinets of the various governments. She fails to understand that imperialist governments can only fight imperialist

wars. She fails to understand that she and her fellow-writers and scientists have merely been putting fig-leaves on the ugly truth.

The Pearl Bucks of 1918 thought they had found such a "great man" in Woodrow Wilson and his glittering 14 points. Instead they got the Versailles Treaty which laid the basis for the next war. Why did that happen? Because Wilson was not "great enough"? Every child used to know, in the armistice between the two wars, that the imperialist victors wrote an imperialist peace as the inevitable result of an imperialist war.

#### What The Masses Need Today

What the masses need is not a "great man" but an understanding of the connection between capitalism and war and the necessity of putting an end to capitalism through the establishment of socialism.

Pearl Buck does not understand this and therefore cannot help the masses to avoid World War III which she fears is coming. "One can only hope at most now that there will be a breathing space between this war and the next," she says. "One cannot guarantee that there will be that space."

Pearl Buck does however, understand the urgent necessity of free speech and criticism of the government and the war. She warned her fellow-writers and scientists that they should not "In the first place, we must refuse to be

deceived by military victories. It is easy to be silenced when the noise of military trumpets fill the air. The clamor of hurrahs impels the unthinking to uncritical approval."

And she warned them of the danger of fascism in this country:

"This country, our own dear land, may become strange to all of us, as Germany became strange to those who have come to us as refugees. . . unless democracy wins against fascism here on our own soil as well as in Europe, until people are free in Asia as well as in France." She concluded with an appeal to the intellec-

tuals to stand up for democratic rights in this country regardless of any governmental threats:

"Now as never before in the history of the world we who believe in liberty of the mind and freedom of the body must speak, again and again, regardless of the danger to ourselves. If we do not make this war into a war for freedom, we shall lose freedom, without which life is worthless. If freedom must be lost, then let us lose it boldly, still speaking what we know to be true and not in the timidity of silence."

#### A Sign Of The Times

Pearl Buck's speech is a significant sign of the times. Neither she nor the intellectuals as a whole can play the role she thinks they canrallying the masses to transform this war into a war for freedom. That would mean to turn the war into its opposite, from a capitalist-conducted war into a revolutionary struggle of the workers and the colonial masses against capitalism. The intellectuals are not capable of that task. The leading role can only be taken by the working class and its vanguard, the revolutionary proletarian party.

Nevertheless Pearl Ruck's speech is significant because, as a sensitive intellectual she feels the stirring of the great masses of Asia, Europe and America against all their oppressors.

Almost invariably, in periods of reaction, the intellectuals go over in a body to the side of the ruling class; then, in the transition from reaction to revolutionary struggle, some of the intellectuals sense the change and record the fact. This is the profound meaning of Pearl Buck's

## Roosevelt's Appeal

On Dec. 8, three days after his executive decree establishing McNutt as manpower dictator, President Roosevelt issued an appeal to employers in civilian industries asking them to assure workers who leave their present jobs to go into war industries that their seniority rights will be protected.

Some people may believe that this is merely a subtle way of emphasizing to the employers that the administration does not intend to do anything to protect the seniority rights of workers who will be affected by the manpower ruling handed down by McNutt in the exercise of his authority to transfer workers to any jobs he feels necessary.

Others may see in Roosevelt's appeal a genuine desire to protect the seniority of workers because he wants to get their voluntary cooperation in increasing employment in the most strategic war in-

But whatever Roosevelt's motivation was, the

effect will be the same. The employers were no doubt gratified on reading the manpower executive decree to discover that it made no provisions for the protection of seniority. They realize that this will enable them to discriminate against the best union militants and to arbitrarily exclude them from the plants in the post-war period. These employers will see in Roosevelt's appeal only an additional proof that they have a free hand in regarding or disregarding seniority rights.

President Roosevelt has a tremendous amount of power. He does not hesitate to use this power in freezing wages, appointing manpower dictators, etc. Apparently it is only when it comes to measures such as protecting labor's rights that he foregoes the use of his powers and decides to depend on appeals to the better nature of the antilabor employers.

## The United Nations Make A Gesture

The leaders of the United Nations have finally discovered a country to which they can definitely promise the benefits of the Atlantic Charter. The lucky country is Albania.

This is big news, for although Roosevelt stated as recently as Oct. 27 that the Atlantic Charter applied to the entire world, Washington and London have since been in the process of whittling down the territories eligible for the "four

Churchill has frankly told the peoples living under the British Empire that the Charter does not apply to them. Roosevelt has exempted the colonial slaves of the French Empire when he promised the French capitalists that he would restore their overseas colonies after the war. And two weeks ago Queen Wilhelmina, speaking over the radio in London, announced plans for keeping the Dutch Empire intact in the form of a "commonwealth" with a strong centralized government.

But on Dec. 10, Secretary of State Hull boldly announced that the Charter does apply to Albania. After some pious praise of the resistance of the Albanians against the Italian armies of ocupation, Hull said that the United Nations "wish to see sovereign rights and self-government restored to

those who have been forcibly deprived of them." One might ask Mr. Hull to explain the difference, in this respect, between Albania and India; or

Albania and North Africa; or Burma, or Malaya. Why are the Albanians entitled to self-government, but not the Indians or the Burmese?

Surely the people of French Martinique, of Dutch Guiana, of British Ceylon have been "forcibly deprived" of the right of self-government. Why aren't they entitled to the restoration of some sovereign rights?

The answer to these questions, which of course will not be given by the "democratic" leaders, is that Albania is made the exception for the simple reason that she is so poor in resources and so lacking in strategic importance that few powers would bother to fight over her.

A victory for the United Nations would give them the riches of the earth to divide—Albania is not one of the riches. They can, therefore, well afford to make this gesture to the tail-end of Mussolini's empire.

#### **Follows Fascist Pattern** By HOWARD HOGAN The pattern of labor regimentation in fascist Italy and Germany on the one hand, and in "democratic" America on the other, is becoming more and more similar. In proof of this, we submit the following

## **Hollywood Must Conform to** The Govt's Foreign Policy

Government control over the nation's principal propaganda instruments is being extended to the motion pictures. This was revealed last week in the news that the movie version of Hemingway's novel, "For Whom the Bells Toll," is being edited by the State Department to fit its policy of friendliness and cooperation with General Franco and the Spanish According to The Hollywood Reporter and Variety,

movie trade papers, the U.S. State Department forced the picture makers to submit the Hemingway movie script to Spanish representatives after Franco had expressed "concern" over the fact that the movie referred to the two sides in the Civil War as "loyalists" and "fascists." Hemingway's story was anti-fascist but it now

appears that the entire political content will be altered so as not to offend the fascists. Director Sam Wood has been directed to shoot all "controversial" scenes two ways-one which follows the original/story and favors the Spanish workers, the other which would be acceptable to the Spanish fascists. The release of the picture now awaits the State Department's decision on final cuts and alterations, according to these trade

This news followed by a few months the announcement that Hollywood had purchased the movie rights to "Mission to Moscow," by Joseph Davies, ex-Ambassador to the USSR. There will of course be no revision of this script for it had the O.K. of the State Department before it was published in book form. In 1937-38 Davies, like everyone else, had regarded the Moscow Trials and the Stalinist slanders against the Trotskyists as frame-ups. He whitewashed the notorious Moscow Trials, along with Stalin's innumerable crimes against the international working

Not until 1941, after the Hitler-Stalin pact had ended and Stalin had led the Soviet Union into an alliance with the "democracies," did Davies decide that the Moscow Trials were not frameups. This sudden insight coincided strangely enough with the needs and policy of the State Department. The movies are now preparing that policy for mass consumption.

## DETROIT JOB FREEZING ORDER AIDS CORPORATION DRIVE AGAINST LABOR

(Continued from page 1) without a certificate of release, will be subjected to a veritable blacklist.

The order does not protect the seniority rights of a worker who may be forced against his will to leave his plant. It states that seniority rights of a worker who leaves one place of employment for another, retains the seniority accumulated at his original employment. But he does not continue to accumulate seniority, even though he is forced to leave his plant against his will.

BOSSES HAPPY That the order was considered a blow against labor by the employers was clearly shown by the statement of the Detroit Chamber of Commerce executive vicepresident, Harvey Campbell, who said: "I think it will prove to be the best thing, in the end, that could possibly have been done. Irresponsible workers brought

this upon themselves." The order was approved and signed by Victor Reuther, a CIO representative on the WMC advisory board. Previous to the order, UAW local union leaders

had roundly condemned the appointment of McNutt as manpow-

LABOR OPPOSITION

Paul St. Marie, president of Ford Local 600 of the UAW-CIO. declared: "The appointment of Mr. McNutt seems to be a slap in the face that labor does not deserve."

He further stated: "Before labor will submit to any dictatorship, labor will strike all across the nation."

Emil Mazey, an international representative of the UAW, also attacked Roosevelt's appointment of McNutt as manpower czar: "He has shown himself to be opposed to organized labor by his actions as Governor of Indiana when he used militia in the Terre

Haute strike." President Frank Davis, of Local 900, the Lincoln plant local of the UAW, stated: "I and my local are entirely out of sympathy with any kind of labor program administered by Paul V.

McNutt." Thus far, none of the top leaders of the UAW have made any statements on the new order affecting Detroit workers. But it is clear from the statements made previously by the local union leaders that the workers were well aware that czar Mc-Nutt would utilize his power to further curtail the rights of la-

AN ATTEMPT TO TERRORIZE WORKERS

The order is designed to further hamstring and undermine the militancy of the Detroit union movement, which has been in the

forefront of American labor. In recent weeks the militant members of the UAW in Detroit have attempted to force action on their increasing backlog of grievances' with the corporations, and to force the WLB to act on wage demands. Three strikes, in important plants, broke out. The WMC order is an attempt to terrorize the workers into accepting conditions as they are, and is backed by the threat of "work

forcing workers to remain at their jobs, will give the employers another advantage over the unions, and increase their arrogance and arbitrary attitude toward workers.

This situation has already reached the point where the patience of the workers is running out. Two locals of the UAW have demanded a special convention of the union to discuss and take action on this predicament.

#### THE UAW LEADERS

The UAW leaders have retreated in the face of this employer offensive. Beginning with the sacrifice of the strike weapon, they have given up overtime pay for week-ends and holidays, accepted the WLB rulings on wagefreezing, and now are jointly responsible with the employers and the government for a job freezing program.

The UAW Executive Board, meeting in Los Angeles this week, was forced to voice a protest against the bogging down of the WLB machinery, and the delay in settling grievances. They were also obliged to protest ernment to enforce the so-called "equal sacrifice" program, and the failure of the OPA to stop the spiral in the cost of living. This is an indication of the extent to which the rank and file have been pressing for action.

RESISTANCE WILL GROW

The job-freezing order is one step in the campaign to freeze the whole process of independent union action. There are already indications that the UAW membership will not tolerate the destruction of the effectiveness of their union or the reduction of the labor movement to a powerless appendage of the govern-

The first protests have been heard. In the coming period as the policy of the union leadership is further exposed, and as the standard of living of the workers suffers further blows as a result of rising prices, increased taxation, and the freezing of wages, the auto workers in Detroit can be expected to demand militant action to win back the conditions and rights of labor given away by their leaders.

The governments on neither side in the second world war dare allow the facts to be told-even when these facts are reported by journalists loyal to the interests of the ruling class. Both sides in the war tremble at the possibility of revolution in the colonies. Brown does not try to explain why the so-called democratic governments, which he supports, must withold the truth, just as the fascist governments do.

The author sees in the British autocratic suppression of the colonial people, and their suppression of the facts, merely the "stupidity" of the British agents. He waged an energetic struggle against the colonial military and civil administrators in an effort to report a few facts, such as the total lack of preparation by British representatives, their failure to try to mobilize the natives, their outdated and inept military outlook and methods, etc. But the British rulers suppress precisely these things, not because of stupidity, but because of their desire to preserve the crumbling British Empire.
