PLAN TO BREAK DETECTIVE RULE

Private detective agencies, especially the Pinkertons, fell under the ban of the Chicago Federation of Labor yesterday. Some of the strikers wanted the legislature directed at its session in October to pass a law putting the Pinkertons out of business by January.

Others argued that the legislature would take up any new business at the next session, and that in any case the matter was more properly within the province of the National Federation of Labor. As a compromise the resolutions were referred to the committee on legislation.

Law Recommended.

This was the sort of law recommended by the committee that drafted the resolutions:

"Be it enacted that on and after Jan. 1, 1938, the police powers of every description shall be exercised only by the public employees of the state and the public employees of every municipality within the state and every single violation of this law shall be punished by a fine of \$5,000 and imprisonment for not less than one year.

The resolutions were the work of a committee of local 4 of the Autors' National Protective Union.

Will Ask Big Saloon.

Provision was made in subsequent paragraphs for a bill to all labor organizations in Illinois to each send two delegates to a conference to be held the first week in October, to devise ways and means of impressing upon the state legislature the necessity of repealing all laws the tendency of which is to grant police powers of any kind to a private agency.

Anton Johannsen, business agent of the woodworkers, said:

"Never mind the state legislature. Around your own people we recently installed several machines for making beams.

"They have asked for union men to run these machines," said he, "and they will take from these poor blind people the means of making a livelihood. If the institution proposes to double its output by labor saving machinery, I am in favor of the work being done by 'seeing' help."

The meeting inspired this sentiment. The hand products of the blind workers have always been regarded as union made.

By GEORGE D. ROSE.

Chairman Brokers' Committee.

There has been little difficulty in signing contracts with boards of trade and stock exchange firms. They recognize the union principle and work for the benefit of the organizations are strictly business. They have their minimum wage scale, which to the public is known as commissions, and any infringement of this scale or any other improper rule or plan for the connection with "bull" firms is punished in the severest possible manner.

In rare instances a firm or individual has refused to contract with the union, but they are few and far between, and powerful influences and persuasion is being brought to bear upon them by those who have already recognized the union.

At noon today out of 300 broker operators there are less than fifteen not working under union contracts in Chicago. These conditions prevail everywhere. The broker firms of the whole country are "unionized." The rare exceptions will be treated by the union as "bucket shops" are treated by the boards of trade and stock exchanges.

BENEFITS FOR IDLE WORKERS

The Commercial Telegraphers' union is rapidly coming into a good working system for conducting the present strike against the telegraph companies.

At the public meeting yesterday Chairman Likier said that plans for financing the strike would be announced at the next meeting, and if any were now in need of assistance to make their wants known to E. W. Springer, who is handling that part of the strike.

So far there have been no calls for financial assistance. It seems that all the strikers care for just now is a good rest and encouraging speeches.

WOMAN KILLS SUITOR AT HUSBAND'S COMMAND

The police are seeking Mrs. Boggio Anselmo of 141 Gault place, charged with slaying her suitor, Felipe Ferro, at the command of her husband, who had written her and their children.

The husband discovered the liaison between his wife and Ferro and, acting under his orders, the woman enticed Ferro to her home. On his way to the house early this morning the woman yielded him and shot him and then escaped with her husband.

The police have been unable to locate the parties accused of the crime, owing to their inability to unravel the facts among Italians in the neighborhood, who cannot speak English.

CO'S HOPE FOR A STAMPEDE

Having failed to secure strike breakers, it now seems to be the intention of the Western Union Telegraph company to get its employees back to work without treating with the union.

The company, strikers say, has announced to the press that it will cause a stampede of the strikers back to work this week. From the inside comes information that the company has prepared a pledge, which each employee who struck is to sign on returning to work.

The pledge is to the effect that on going to work the person who struck will not harass, molest nor embarrass any of the people who did not strike. It is not understood by what this stampede is not understood by the strikers; for it is their intention to remain away from the telegraph companies until every demand is granted and every operator, checker and messenger brought back to work for a high salary.

Some believe that salaries like \$300 a month will be held out as an inducement to strikers to come back. A man now out on strike claims to have information that one woman is being paid \$25 for working the Barclay department.

This inducement is not likely to cause much of a stampede, however, for it is an old, worn-out game. Few, if any, will go back to work for a high salary for a month or so, then find themselves working at a greatly reduced salary and in practical slavery for life.

It is more likely that there will be a stampede of strikers to the streets between the West, Sox and Washington, where, all striking telegraphers, checkers and messengers will be admitted free.

Dal Jones said, "Let the champion strikers of the world go and see the champion baseball players."

NEW YORK SEES END OF STRIKE

New York, Aug. 20.—"The strike will be over very soon. Many of our men believe it will end this week," said Secretary Merery of the local union today. "That's the sentiment today. Vice President Nally of the Postal has admitted his services is badly crippled. It's time for them to begin admitting that they cannot do the business, for the public will find out anyway."

Deputy President Thomas of the union said he has received a word from President Small regarding the report that Small is coming here to establish the national headquarters preparatory to conferences with the officials of the two companies. Officials of the union have the meeting today with representatives of the attorney general of the state in their effort to have the Western Union charter annulled on the ground that it is not doing a telegraph business but is using the mails and express companies.

"We have proof that another clerk from the operating department today bought \$60 worth of special delivery stamps," said McInerney.

VENEZUELA MAY WAR ON ENGLAND

(United Press Associations Cable.)

Caracas, Venezuela, Aug. 20.—"Reparatory measures will probably be required to be by the Venezuelan authorities as a result of the invasion of Venezuelan territory by a British force from British Guiana, headed by Capt. Collier, and the seizure of 4,000 pounds of balata (the gum of the bullet tree, used for insulating wires, etc.) at the point of guns.

President Castro is understood to have already made representations to the English diplomatic representatives here. Unless a diplomatic understanding is reached shortly it is feared Castro will send an expedition to recover the gum by force.

The pretext for the English invasion was that the gum seized had been collected in British territory.

SAM'L SHOULD OWN THE WIRE

(By United Press Associations.)

Genoa, Italy, Aug. 21.—Believing it a natural appurtenance to the postal system, Senator William Alden Smith indorses government ownership of telegraph lines in the United States. "Citizens should be given by the government choice of medium in communicating with each other," he says. "The telegraph may appropriately be installed as a part of the postal system, giving us the privilege of communicating by postal card, letter or wire at the minimum cost. I am generally opposed to the government entering the field of individual activity and legitimate enterprise, but in this instance the welfare of the country demands federal control of the telegraph business."

NEILL'S REPORT TO ROOSEVELT

Secretary Neill who left Chicago for Washington Saturday is expected to transmit to the president today his report of the strike situation in Chicago.

Naturally, an immense lot of interest is being taken by the strikers in what Neill will say, but until the wires have flashed the news—if they do reach Neill—they will be unable to say what the picturesque cabinet officer has to say about conditions in the great storm center of the strike.

OAKLAND RED FLAG INCIDENT EXPLAINED

(Mail Correspondence.)

Oakland, Cal., Aug. 19.—World, which has made a full investigation of the story that Mrs. C. Simmon had down a red flag from her window and been arrested, the incident creating a large amount of trouble, ascertained facts showing that the capitalist press had erred greatly in its statements and maliciously colored the incident.

The flag was unfurled to the breeze by Mrs. Simmon in celebration of the acquisition of Hayward. It was not torn down by the police, although one police officer made complaint to his chief. The officer incited a crowd of boys to throw a stone at the flag, and the flag was not removed until night, and then by Mrs. Simmon herself.

The police were consulted as to the right of Mrs. Simmon to fly a red flag. Mrs. Simmon said she was told the flag would be torn down, but she consulted the city attorney and was advised that there was no law prohibiting the displaying of any flag. So the incident cleared up, although the flag was not removed until night, and then by Mrs. Simmon herself.

PUTTING THEM BEHIND BARS

(Mail Correspondence.)

San Francisco, Cal., Aug. 18.—Last night's assault upon the Socialist meeting at Post and Filmore streets has been impudently for the past six weeks. The new mayor and the old chief of police have joined in a conspiracy to throttle the Socialist and the I. W. O. D. By the injunction laid by the speaker, the police cannot arrest speakers. Another method to abolish peaceable assembly by class-conscious workers must be tried.

They have it. The old ordinance prohibiting "peddling literature" is trotted out. Just the thing—if it will hold water in court.

Last night soon after Miller opened the party meeting McDevitt, of Oakland, who was waiting to take the platform had started to read literature, was placed under arrest after selling a copy of Darrow's "Open Shop." Dinan's khaki Keesing No. 24 handled the job.

Labor Men in It.

The San Francisco police commission is composed of two prominent labor union leaders and one other member. This commission controls Chief Dinan and Dinan controls the man on the platform. So, evidently these union labor leaders don't want the "Open Shop," by Darrow, sold in San Francisco. The Socialist will put it up to Commissioner Haggerty. His hand will be exposed and the waiting to take the platform will be put in his face.

As soon as McDevitt was arrested he said to the cops: "All right, I'll announce the fact of my arrest to the crowd." The policeman had planned to rush the speaker across the street to the engine house without attracting attention, and so he replied: "No, you don't!" "Oh, yes," said the Socialist, "I shall, I always do." He has shouted to the crowd that his arrest was for selling Socialist literature. Meanwhile No. 290, with a flu-jitru man-handling process was doing his best to put McDevitt's arm out of joint, in order to suppress the flow of language.

Took Women Too.

When Mayor Miller delayed the patrol wagon, summoned to the engine house, drew up and the policeman had escorted the speaker to a seat, a woman sympathizer—not a member of the party—said to McDevitt, "I think you're all right." He improved the opportunity to address a few words to the hundreds of people who had gathered and who were cheering lustily. He concluded his brief appeal from the interior of the patrol with a call for three cheers for Socialism. These were given with so overwhelming a volume of voice that his No. 290 lost his head, and in his cowardly panic seized the woman and shouted "I arrest you for being a Socialist." He secured the release of the prisoners and they are now out on bond.

PARTY BUYS BIG LOT SUB CARDS

The national committee of the Socialist Party has decided by referendum to buy \$1,000 worth of subscription cards of the Chicago Daily Socialist in the next six months.

This does not mean that \$1,000 is to be taken from the national funds at once.

The plan is to buy about \$100 worth of subscription cards, have the national organizers sell them, and return the money to the treasury. When this is done ten times the \$1,000 worth of cards will have been bought and the national organization will have as much money as it started with.

The purpose of this, as explained by those voting for the plan, is to give the Chicago Daily Socialist, a good start, and then it can help start other Socialist dailies.

The opinion of members of the national committee is that the working class must have a national press reaching every worker before the class struggle is ended and a just industrial system will prevail.

FIRE ON TUG LOAD OF POWDER

(By United Press Associations.)

New York, Aug. 20.—With fire raging in the hold of the government tug Pawnee, loaded with ammunition, lying at her dock in the New York navy yard, the total destruction of the enormous ordnance building was threatened for two hours yesterday.

The Pawnee was brought down the Hudson and tied up at the dock within five feet of the ordnance building. Fire was discovered two hours later after all the marines and sailors had left her. Marines rushed aboard and, braving the threatened explosion, hurled hundreds of pounds of the explosives overboard. A fire boat was summoned and the hold was completely flooded before the blaze was extinguished.

EXCURSION FOR VALIANT YOUTHS

Check boys and messengers who struck in yeoman fashion for the support of the telegraphers will be given an excursion to St. Joe Mich., tomorrow. The excursion will be given under the direction of the executive committee of the strikers, and the young people will be given every opportunity to enjoy themselves, and feel glad that they are among the living. The details of this excursion will be arranged later in the day.

AMERICAN T. & T. MEN RESTIVE

Negotiations with the American Telegraph and Telephone company are not progressing satisfactorily, say union officials, and the employees of this company are becoming restive.

A conference between the operators of this company and heads of the union will likely be held late this afternoon. There are 300 expert telegraphers and electricians employed by the telephone company.
