

12,000,000 EFFECTIVE FROM BAD FOOL WHAT'LL WE DO?

New York, Sept. 9.—That an enormous proportion of the school children of New York suffer from malnutrition, enlarged glands and defective breathing, is demonstrated by the report of the committee on physical welfare, under whose direction doctors examined 1,400 boys and girls attending the public schools.

The results of the committee's investigations in New York are applicable to all large cities, especially Chicago, which ranks next to New York in school attendance.

1,400 EXAMINED. The 1,400 children examined here were those reported by board of health doctors as suffering from physical defects. A feature of the examination was that a large percentage of the defective children were of the well to do class, whose parents might easily have afforded preventive medical treatment.

12,000,000 DEFECTIVE. These figures apply to the children throughout the United States, on the ground that all defects found here can be found elsewhere and it thus is estimated that there are 12,000,000 school children in the country who have physical ailments.

SCANDINAVIANS ON THE ALERT Putting Through Great Project in the Organization of Socialist Branches

SMALLPOX IN W. U. OFFICE Health Officer Discovers That Whole Family Is Doing Strike Breaking

(Mail Correspondence.) Pittsburg, Pa., Sept. 8.—In addition to the strike, the Western Union Telegraph Company came near having to contend with the smallpox among its strikebreakers in this city.

The city physician visited the office and vaccinated every one to eight, including the superintendent, the superintendent's wife, five children, two young women stenographers and all the strikebreakers.

It was discovered that Lysie Morris of Allegheny, a lineman of the company, was confined in the hospital with the smallpox, and it was known to those on strike that he had visited the operating room in Pittsburg.

The city health department was notified by the strikers and no time was lost in taking steps to prevent the spread of the disease. For a time it looked as though the operating room and the Western Union office would be closed entirely.

This made it known for the first time that Superintendent Saylor and his entire family are making their home in the Western Union office.

Mrs. Saylor is an operator and since the inception of the telegraph strike she has been working at the key and assisting her husband in carrying on the business of the local office. Those of the children who are old enough have been pressed into service in various capacities.

That the Socialist movement is growing in Maryland is proved by great activity throughout the state. Candidates of all offices in Allegheny county have been nominated.

The convention was called to order by Ira Culp of Cumberland, who was permanent chairman, with R. W. Deffenbaugh of Cumberland as secretary. The usual committee on credentials and resolutions were dispensed with. The platform and principles of the Socialist party prepared by the secretary were adopted by the convention.

The following were nominated for the house of delegates: Oswald Weber of Cumberland, David Tennant, Lonsomning, James T. Lovington, Barton, Win. A. Lucas, Carick, James C. Long, Allegheny Mines. County treasurer—Thomas Fatkin of Vale Summit.

Clerk of the Court—D. F. Roland of Frostburg. Judges of Orphans' Court—Patrick O'Connor of Mt. Savage; Thomas Grindle, Lonsomning; Sampson Ross, Barton.

Sheriff—L. W. Soyester, Cumberland. County Commissioners—N. R. Emberson, Cumberland; Alex. Munro, Lonsomning; Addison Smith, Mt. Savage. Road Directors—The streets of Allegheny Mines, W. A. Chappell of Barton.

No nominations were made for county surveyor and state's attorney. It was left to the different locals of the party to elect a county central committee, which will meet in Frostburg September 20. The convention was well attended, delegates from all sections of the county being present. A Socialist picnic was held at the same place, the attendance being estimated at from 600 to 800.

The Chicago Daily Socialist is now equipped to do linotype composition in English and German. Character of a very important nature.

the causes are not always easily determined. It is not with any purpose of creating an alarm over the physical condition of school children that the report is made. The object is to pave the way for the presentation of a plan that the committee has in mind to improve conditions in a rational way.

COMMISSION'S PLAN. The ideas are embodied in the report in the following language: First—A thorough physical examination of all children of all schools.

Second—Notification to all parents, followed when necessary by a second notice and visits to inform and persuade parents to take proper action. Third—The enforcement of the existing laws and securing proper authority, where this is now lacking, to compel parents who refuse to take necessary steps.

Fourth—Periodic re-examination of school children during school life. Fifth—Physical examination of children when applying for work certificates.

Sixth—Enforcement of health, tenement house and child labor laws. Seventh—The establishment, in connection with boards of education, of departments of school hygiene, whose duties shall be to see that school buildings are so constructed and so conducted that they cannot of themselves produce or aggravate physical defects and that the school curriculum should be so devised and executed so as neither to produce nor aggravate them.

These figures apply to the children throughout the United States, on the ground that all defects found here can be found elsewhere and it thus is estimated that there are 12,000,000 school children in the country who have physical ailments.

JAP WAR ON IN VANCOUVER

(By United Press Associations.) Vancouver, B. C., Sept. 9.—The trial this afternoon of the score of men arrested as a result of the anti-Japanese riots Sunday may result in a renewal of the trouble, as the citizens are stirred to a high pitch.

K. Ishii, Japanese special envoy, who arrived in Vancouver during the fiercest part of the rioting, has demanded an apology from Mayor Belline to the Japanese government.

Both may grant the apology, but he declares that he has no intention of allowing the city to pay for the \$75,000 damage done to Japanese property. The Japs fought sturdily during the rioting and faced the rioters practically without aid from the police.

The Chinese in the district fled and not one of them was injured. All on the list of injured are Japs.

GREAT SLUMP IN COTTON

Washington, Sept. 9.—The census bureau announced today that the total number of bales of cotton from the crop of this year gained to Sept. 1 was 19,416, as compared with 47,551 to the same date last year.

ONE WAY TO MAKE STRIKE BREAKERS

DRIVERS MEET AT ROCHESTER

The second annual convention of the United Teamsters of America was opened yesterday at Rochester, N. Y., by President N. W. Evans.

About 150 delegates are in attendance and the organization reports general growth in membership. Chicago teamsters are candidates for five of the fifteen national offices to be voted upon at the convention.

They are: John Sherman, local 702, for general president; Alfred Spencer, local 705, for third vice president; Frank H. Ray, local 703, for sixth vice president; and A. J. Reed, local 722, and Ernest Wischofer, local 716, for national trustees.

Aside from Spencer none of the above have any opposition and their election is assured. Spencer has an opponent in George H. Mastin of Rochester, N. Y.

TRIAL OF WIRE MEN PUT OFF

S. S. Ullrich and R. L. Nichols, two members of the Commercial Telegraphers' union, charged with intimidating a strike breaker, appeared in Judge Houston's court in the criminal court building this morning and their cases were set for next Thursday morning.

CHICKEN THIEF TRAP KILLS 9-YEAR-OLD BOY

Kansas City, Mo., Sept. 10.—A shotgun trap set for chicken thieves killed Marshall Tuttle, age 9 years, at Shibley station Monday. A man named Karnes, a merchant, set the trap. The boy had been in the trap, but opened the door to take a look and the gun went off, killing him. There is some strong sentiment against Karnes over the affair.

GLOBE MINER TO APPEAR

Announcement has been received at the Chicago Daily Socialist office that the Globe Miner of Globe, Ariz., will be published as a Sunday morning paper for about six weeks, beginning Aug. 25, or until linotype machines are installed. The paper has as its slogan, "The paper without a muzzle," and its editors promise to live up to the motto.

ANNNOYS RICH; BOY CLUBBED

Policeman Guarding Millionaire Row, Beats Child Because He Shouts in Street

(By United Press Associations.) New York, Sept. 10.—That overzealous police officers should be obliged to prevent "annoyance" to the millionaire occupants of the mansions lining Fifth avenue, opposite Central park, was responsible for the fatal injury of 15 year old Max Samuels at a policeman's hands, is the statement of persons who declare they witnessed an assault on the boy.

Samuels was picked up with a fractured skull beside the park wall, near Seventy-eighth street. Mortimer Hecht and Peter Bryan said he had been playing with companions in the park and occasionally running into the street shouting.

Policeman No. 4025, the spectators declare, cautioned him to keep still, so that the "millionaires" would not be disturbed. Finally, it is asserted, the officer charged the boy.

Policeman No. 4025 is Patrick McGovern, who has a park post. He denies the assault. The boy is at the Presbyterian hospital.

LABORER DIES OF INJURIES

George D. Morris of 312 Orleans street died at the city hospital this morning of injuries he received at the hands of holdup men. His death is the latest development in Chicago's crime wave.

DEATH FOR MANY; BOSSES CARELESS

(By United Press Associations.) San Antonio, Tex., Sept. 9.—Two hundred men are believed to be doomed in the Las Esperanzas mine, in Mexico, where they are cut off by flames which followed an explosion yesterday, and their only hope is that aid will reach them soon.

Parties who worked all day Sunday and all night made but little headway against the flames.

The explosion was caused by fire damp and is believed to have killed twenty-seven miners. At least 120 were injured. Many who were rescued have but slight hope of recovery.

The miners here are furious at the management, as this is the second explosion, and precautions have been taken to guard the property against possible attacks.

The rescue parties are working furiously.

JUDGE GROSSCUP IS MUCH IN THE PUBLIC LIMELIGHT

Criticised for His Attitude in Chicago's Transportation Affairs; Many Damage Suits Expected Against Him at Mattoon

Are the coils of popular judgment tightening about Judge Peter S. Grosscup of the United States circuit court of the United States, sitting with two judges of the United States court of appeals, has condemned and rescinded Judge Grosscup's elaborate scheme for giving value to a lot of worthless Union Traction stocks, and plainly indicated that the stockholders, the real owners of the property, were alone to be considered in the receivership proceedings.

While the rebuke and the reprimand administered to Grosscup will remain vivid for many years in the records of American jurisprudence, they are not the most interesting features of present traction difficulties.

No fewer than seventy-five will be instituted. Judge Peter S. Grosscup of the United States circuit court at Chicago, who is one of the largest stockholders in the company, will be sued personally in each case. G. B. Armentrout, the eldest victim of the wreck, died last night.

This was the week that just two days prior to the decision of Justice Brewer induced the Central Illinois Traction Company as a result of the receivership to sue for the return of sixteen persons, and nearly sixty injured. One suit has been filed and thirty petitions are ready to file Monday.

The Chicago Tribune says in part editorially: The federal court of appeals has confirmed an opinion long since expressed by the Tribune that it was not Judge Grosscup's function to re-finance the bankrupt Union Traction property. It was the duty of the court and of the receivers to wind up the affairs of the hydroelectric corporation and to pay their creditors whatever was realized from the sale of the junk. If they had done this the creditors would no longer be litigants and the purchase of the receivers' sale would have been in a position to accept the franchise passed by the council.

The court saw fit to exercise extraordinary power in the interest of the holders of Union Traction, north and west side securities, rather than of the public.

GROSSCUP STILL IN CHARGE. Commenting on the decision of the court Saturday the Chicago Examiner says: Judge Grosscup, it is true, gives notice that he is still in charge of the Union Traction Company, its assets and its interests, and that he will not permit interference with them. Even Judge Grosscup, however, cannot bring to life a lapsed franchise and present it to a bankrupt corporation. The supreme court of the United States, in reversing his ninety-nine-year-old decision, has quite uprooted that proposition. Judge Grosscup will not undertake to stop the city from disposing of its own property to the highest bidder. His knuckling under during Saturday's rapping.

But even if Judge Grosscup had the power and the inclination to interfere he could not make things worse than they are. When Chicago renounced municipal ownership she invited the woes that have come upon her. It is now a case of "SKILL UNAVAILING." The Chicago Journal says: The skill and cunning of Judge Grosscup displayed in promoting his own great company in West Virginia and his traction company in Mattoon were unavailing when he

UNKNOWN MAN SEEKING TROUBLE

Some unknown man of daring mold is piling up a huge bunch of trouble for himself. Why?

He is trying to induce people to loan him money by offering them 5 per cent instead of the 2 per cent they are now getting from savings banks. He advertises that his concern borrows money from the banks for 6 per cent; therefore there is no reason why people should not loan him their money on exactly the same security he gives banks. He promises 2 per cent more than the banks give and frankly states that he will save 1 per cent himself.

A least this is the history of the man who is piling up trouble. Just this: The banks will not allow any man to invade their sacred prerogatives by paying more money on loans than they do. The attempt to start a 4 per cent bank was frustrated and completely knocked "skyward," so to speak, by the apical newspapers. The identity of the man is not known, neither is it known whether he has a rating, but the offer to do all this attracts attention and arouses a grim suspicion, as aforesaid, that he is making himself a candidate for the gravest kind of a knockdown and drag out.

TOUGH SUGHT IRONWOOD FIGHT

Bosses Tried to Break Up Labor Parade; Flags of the Marchers Sold

(Mail Correspondence.) Ironwood, Mich., Sept. 5.—The Labor Day parade and parade, arranged under the auspices of the Finnish Socialist branch, was an event of unusual success in spite of the fact that every attempt had been made to stop it.

The police stole the red flags that had been intended to be carried, and on the line of march fire apparatus was driven through the ranks, and at two railroad crossings engines stood on the tracks to blockade the march further. It was a mean piece of business, but the picnic was a success, \$50 being netted in the collections.

The theft of the flags may be made the basis of further developments, for Marshal Ruben asked a lawyer present to take note of the fact of the theft. The flags were rolled up under a bench and in the mixing up of the toughs and enemies of Socialists their departure was not noted for a few minutes.

The fact that the disturbers were unable to break up the meeting angered them beyond measure and one result is shown in the attitude of a mine-owner, who has since discharged some Socialists and given orders that no more are to be hired for his plant.

MONSTER SEAL CATCH ON PRIBILOF ISLAND

Washington, D. C., Sept. 10.—Acting Secretary Murray of the department of commerce and labor received a telegram from Agent Lembecky, in charge of the fur seal fisheries on the Pribilof Islands, announcing that 14,944 sealskins were taken and shipped this summer. The limit of the catch of seals is 15,500 each year.

Agent Lembecky is now in San Francisco, en route to Washington. He will remain here probably the greater part of the autumn and winter. His report of conditions on the Pribilof Islands, which is expected to be interesting, has not yet been submitted to the department.

WORLD'S RECORD MAY BE SHATTERED ANEW

(By United Press Associations.) Syracuse, N. Y., Sept. 10.—Major Delmar's famous Roman steps for friends, which he is going to take on his way to the world's record held by Lou Dillon here Wednesday. He is in grand shape and the track has been especially prepared.

JAPS FIGHT THE WHITES

Vancouver, B. C., Sept. 10.—The race war here is unlike most race wars. For years Americans have abused the Chinese and negroes and the colored races simply because they did not fight back.

Here is a new situation. The Americans attack the Japs and, inspired by the example of the little fellows, the Chinese join the Japs in a determined fight.

It makes things look decidedly different when the hated races meet their enemies with six-shooters and determination to sell their lives at as high a price as possible.

Students of the situation here predict that the attacks on Japanese soon will become unfeeling. It is fun to fight a foreign race when the hated race simply lets them do their own back.

It seems now that the race war with the Japs as the victims soon will end. Vancouver awaits in fear and trembling the outcome of the anti-oriental crisis precipitated Saturday last when a white mob wrecked fifty or more Japanese and Chinese stores.

The Asiatics are going about the city today armed with revolvers, prepared to resist with force any further demonstrations against them.

Oriental employees in the mills have stopped work and taken refuge by cable quarter occupied by their countrymen, where they are preparing to assist in opposing any further attacks that may be made.

It seems surely will follow if the white population makes a movement against the foreign quarter. Should rioting be renewed it is quite likely that the militia will be called out. The Asiatics are going about the city with the slightest overt act will precipitate a disastrous movement.

GEORGE B. SHAW IS LOST IN WOODS

(United Press Associations Cable.) London, Sept. 9.—George Bernard Shaw is missing and as he disappeared in the hills near Rhinogarth, great concern is felt for his safety.

A searching party hunted for him all night without finding a trace of the noted author and playwright and the quest was resumed today.

The world of Shaw's disappearance comes from Harzod, Wales. Shaw started for a ramble, leaving a note on the famous Roman steps for his friends, telling them where he would meet. He failed to keep the engagement and the search for him was then organized.

HEROIC POLE COMING TO ADDRESS WORKERS HERE

Ignacy Daszynski of Austria-Galicia, late delegate to the international congress at Stuttgart, will arrive in New York City about Sept. 12 and remain in this country for two months. Daszynski is available for Polish or German meetings.

He served for years in the Austrian parliament and was credited with bringing the political career of the Polish prince, Baudin, to a close. During this contact, the government officials believed they had raised national prejudice to the point of violence.

Daszynski was carried bodily from the chamber in Vienna to be the prey of a mob. The scheme was frustrated by \$500,000 German Socialists taking him up at the gate and bearing him in triumph through the city, proclaiming Pole a true representative of the international working class.
