MINNEAPOLIS UNIONS AND SOCIETY OF EQUITY CONTEMPLATE AN IMPORTANT MOVE

(Mail Correspondence.) Minneapolis, Minn., Sept. 29.—A special committee of the Trades and Labor Federation, appointed to confer with the officers of the American Society of Equity in relation to the establishment of a local production exchange, reported, recommending that the assembly appoint a permanent committee to act in conjunction with the officers of the society in establishing an exchange this fall.

The committee further recommended that the farmers be invited to send fraternal delegates to the assembly. Discussion following the report of the committee revealed the fact that many of the delegates realize the importance of the step that is contemplated in the co-operative move with the farmers' society, and while a permanent committee was appointed for the purpose of taking up the matter of the establishment of an exchange, the committee will again confer with the officers of the society before any definite steps are taken.

Frank Clark, a striking telegrapher, formerly employed by the Western Union Telegraph Company, believes that he lost his position as floor manager at the time the separating stores because the telegraph company requested the store to discharge him.

Clark says this took place in the evening of a day that he was in the store O. W. Montague, a bookkeeper for the Western Union.

Clark and Montague are both members of the National Union, a fraternal insurance organization. Clark is seeking admission to it, and an agreement to "not wrong or defraud any member of this order."

The National Union is composed of telegraphers and other employees like 500 telegraph employees in Chicago are members of it. Telegraphers say that a thorough investigation will be made of Montague's actions and if he has been found to have done any work he will forfeit his membership.

Although Clark would not give the name of the store at which he was employed, it is positively known that it was Siegel, Cooper & Co.

ORGANIZATION MEETING. The organization meeting of Sunday was well attended. The report of the committee, presented at this meeting, dealing with the matter of legal requirements for the campaign of next year, was accepted and the Central Committee is asked to concur in these recommendations, which recommendations will afterward be printed for free distribution.

After a long and thorough discussion, the following motions were carried, and recommended to the Cook County Central Committee for adoption:

1. That the City Primaries, dealing with the nomination of aldermanic candidates this coming Spring be held on Saturday, the second Saturday of the month.

2. That the Party Convention be held, before Ward conventions, and that the convention be open to all members in good standing of the Socialist Party, for the purpose of adopting a platform and resolutions covering the aldermanic election, 1908.

3. That the Cook County Central Committee immediately proceed to form a Campaign Committee.

4. That the on-coming Campaign Committee make all financial preparations for the coming campaign. The question of issuing pamphlets and literature was then taken up, and the following recommendation is submitted to the Cook County Central Committee: That a standard leaflet be printed, covering the following subject: A brief statement of the Socialist Party, its International, National, State and Municipal programs.

THIS IS THE WAY. Socialist locals everywhere should keep their eyes open for strikes. When their fellow workers are on strike then is the time to give them Socialist literature.

Wherever strikers have headquarters there should be Socialist papers.

Here is a good plan: Get the story of the strike, what the men want, old conditions, personal stories of the striking workers, names of the officers, and send them to this office.

Then order a bundle of papers to come every day, and see that they are sold or given away to the strikers. This will help the strikers and show them the way out of "The Jungle."

Copies of the Chicago Daily Socialist cost fifty cents a hundred. Smaller numbers at the same price.

Any local or individual Socialist who has tried this should write out his experience and mail it for publication.

ENVELOPE USERS KICK ON ROLLS.

Claim the Quality of Goods Now Furnished Is Not Up to Standard—Big Row. (Mail Correspondence.) Manchester, Va., Sept. 30.—Complaints to the postoffice department have been made during the past few months from all over the United States on the poor service of the concern now printing the stamped envelopes.

Four million stamped envelopes are used every day in the United States. For some time the Mercantile Envelope Agency, of Dayton, O., has been behind with the business. Complaints have been coming in to all the post-offices in the country about the service.

On the average of a half-dozen letters are received by Postmaster Royal Cabell every day from people wanting to know why their envelopes, orders for which were sent in and money paid for some time ago.

MANUFACTURE LATE. All Postmaster Cabell can say is that he turned down orders in due time, but that the new concern that is now printing the envelopes does not turn them out as it should.

Last year the contract for printing stamped envelopes was given to the Mercantile Envelope Agency. It seems that the machinery of this company was not adequate to turn out the work.

Another thing is that the products from two large paper mills was purchased by this envelope house. The government inspectors looked over the paper and decided that it was not good enough for the people and it was thrown out.

Every effort on the part of the envelope company is being made to supply the orders, but at this time it looks as though they are very slow in filling the orders.

CONVICT CARTER GETS FAT JOB

Alleged Conspirator Is Now Consulting Engineer of Big Railroad. (By United Press Association.) Savannah, Ga., Oct. 1.—Captain Oberlin M. Carter, who was sentenced to serve five years in the military prison at Leavenworth, Kan., on the charge of conspiring with Green and Gaylor to defraud the government of nearly \$5,000,000, has been appointed consulting engineer of the East Florida Coast Railway at a large salary.

He is now in Chicago, but soon will take active part in the extension of the line from Miami to Key West.

STRIKE, FEVER, REBELLION IN CUBA—MAGDOON NERVOUS

(By United Press Association.) Havana, Cuba, Oct. 1.—A crisis is expected momentarily between the provisional government and the revolutionary movement, and that the situation is the most serious since the present troubles arose is admitted.

Governor Magdoon has sent secret orders to the commanders of rural guards to capture, dead or alive every rebel and not to desert until every one of them has been disposed of. This followed the discovery of a plan of the chief conspirators to hold an election in the mountains, to name a president of the republic and under his banner accuse the whole island's to revolt against the present government.

The strike conditions appear to be growing worse and unless some sudden change takes place it is believed that Magdoon will seize the railroads and operate them with rural guards.

Reports are current that laborers employed in the shipping and dock work here will join the strikers.

In addition to other troubles facing the government, reports from Cienfuegos indicate that the yellow fever there is spreading and a troop of cavalry has been transferred to fear the soldiers would fall victims to the disease.

Captain Dougherty wired today that his troops of rurales had surrounded a band of twenty rebels near T. Go and expected to either capture them or drive them into the sea.
