

NOW, ON THE SQUARE, WOULDN'T IT BE BETTER—

POOR REFUSI SICK MAN A Central Station Officers and Board of Health Turn Him Away

An unidentified man, suffering from pleurisy, rheumatism and rupture, was probably saved from being clubbed and sent to the bridewell to die last night by Charles L. Schwake, a union switchman. The police were given a chance to do their worst, but when they found that the man was only sick and not worthy of a hearing they refused to have anything to do with him and told Schwake to take him to the board of health, where assistance was also refused.

Found Near City Hall Late yesterday afternoon Schwake found the man in a helpless condition at La Salle and Washington streets, close to the city hall. Schwake took the man to the central station, thinking attendants there would take the man in charge and turn him over to the proper authorities. The police said it was not their affair and advised Schwake to take him to the board of health. A man contacted with the board of health asked Schwake if he knew the man. "No," said Schwake, "but that is no reason why he should die in the streets."

Walk to County Hospital "It's the county's business," said the board of health official. "Why does he not walk out to the county hospital?" Schwake took the man to a Madison street car, paid his fare and sent him toward the county hospital. The man was plainly in great distress and needed immediate attention.

LOUISVILLE PRESSMEN'S THIRD WEEK OF STRIKE DEADLOCK

Louisville, Ky., March 24.—The present week marks the third in the strike of the pressmen and assistants in the typothetae shops in Louisville, and it finds the union men in good condition and the employers in a shape of almost utter demoralization. With nothing but young, inexperienced boys and girls to man the presses, frequent breakdowns occur and comparatively little work is accomplished.

Two former police captains, Jim Kinnearney and Samuel Owens, who now conduct a private detective agency and act as deputy constables, have been denied the use of patrol wagons when they arrest pickets. Kinnearney and Owens are employed by the Employers' Association at about \$100 a day to protect employers from the striking pressmen. Kinnearney and his force have made themselves very efficient during the pressmen's strike, in taking a fatherly care, at so much per, over the pickets, and attempting to keep pickets off the streets where struck shops are located.

'WORK FOR ALL' IS EVANS' PLAN

Work for all the men and boys now out of employment and fresh vegetables for every poor family in Chicago.

There are some of the results promised by the health department if Chicagoans will turn their vacant land into gardens and allow those now looking for work to become gardeners. According to a special bulletin issued by the health department, if the owners of vacant lots throughout the city would turn over their property for gardening purposes thousands of persons could become self-supporting, the city beautified and residents of the poorer districts enabled to obtain fresh vegetables cheap.

There is an abundance of land within the city limits to make the plan successful, says the bulletin, "and it only needs the co-operation of the land owners, which should be easy to secure. "Many in poor health will grow healthy and strong, due to working in fresh air and sunshine. Men addicted to drink and who abuse their families will become sober and industrious, and thousands of other beneficial results will be noted."

ELECTRIC LIGHT ORDINANCE PASSED BY VOTE OF 50 TO 16

By a vote of 50 to 16 the Commonwealth-Edison electric light ordinance was passed by the city council early this morning, after a session lasting all evening. It was 12:10 a. m. before the final roll call was had, the objectors fighting every inch of the way. All the "gray wolves" in the council voted for the measure. The principal features of the measure as adopted are these: An agreement whereby the company is to pay to the city 3 per cent compensation of the gross receipts of the Edison company during the rest of its existence. Now it pays nothing and the gain to the city between now and July 31, 1912, when the Edison franchise expires, is estimated at \$1,100,000. After that the Commonwealth-Edison will pay compensation on all of its business. The 3 per cent is paid also by the Commonwealth out of the corporation now and hereafter.

Make Bond Sale Easy A recognition by the city of the ability of the recent consolidation of the Commonwealth and Edison companies. This the company wanted in order to make easier the sale of its bonds. The fixing of maximum rates for electricity for the period up to July 31, 1912. They are to remain undisturbed during that time and afterward the city can fix new ones. The rates named above have a shade under 1 cent a kilowatt hour less than the present rates.

MAINE SHOWS PARTY GROWTH

Renewed Socialist Activity in New England; Expect Big Vote

(Special to the Daily Socialist.) Lewiston, Me., March 24.—The state of Maine is alive to the fact that socialism is to be a factor at the coming election and reports from various localities throughout the district tend to show that it is gaining with wonderful rapidity. Speeches are being made throughout the state and propaganda literature is being widely distributed.

National Organizer George H. Goebel has closed a ten days' tour in Maine towns and cities. He reports that the state is enthused with Socialism and predicts that the party will poll a much larger vote this year than it ever has heretofore. Large audiences greeted him wherever he spoke.

"Locals throughout the state are increasing rapidly," said Goebel, "and the prospects for polling a big vote are promising."

Nominated for Governor By a recent referendum Curtis A. Perry of Portland was nominated as the candidate for governor and Willis E. Peasey was re-elected state secretary.

The state convention will be held here April 20. Delegates are expected from cities and towns throughout the state.

CHILDREN STARVING; CUTS THROAT AND WILL DIE

Kearny, N. J., March 24.—Out of work and dependent because he had not been able to get food for his children in two days, Thomas Whipple cut his throat and will die.

- YEAS. Coughlin, Sits, Reinberg, Kenna, Kruger, Blase, Perry of Portland, Sherman, Kuz, Stewart, Forman, Condon, Golombewski, Burke, Brewster, Bradley, Young, Bowler, McCluskey, Snow, Stewart, O'Connell, Bennett, Fisher, Doherty, Taylor, Egan, Hux, Dougherty, Hurst, Jacob, Nelas, Scully, Krumbeltz, Kahn, Forberg, Maypole, Whilliston, Race—16. Gullerton, Dunn.
- NAYS. Condit, Finn, Harding, Fultee, Jositt, McCoid, Hey, six children, Despa, Herlihy, Conery—16.

Numerous Objections While numerous amendments were offered by objectors to the ordinance, only one was adopted over the objection of Alderman Snow, who had charge of the measure. It was adopted to please the adherents from the cutting wards and provided that the council could order the company to extend its lines into new territory where there was a reasonable prospect of return on the investment. All other amendments were laid upon the table as fast as they were offered, but not without sometimes prolonged debate.

HAVE FUN WITH A WISE EDITOR

Socialists Challenge Man Who Wanted Them Disfranchised

(Special to the Daily Socialist.) Fort Collins, Colo., March 24.—The editor of the Daily Courier, having given due attention to the prevalent hysteria, announced in his editorial columns the following: "How would it do to disfranchise all the anarchists and Socialists in this country? They are aliens and they are enemies of our form of government and shouldn't be allowed to vote."

There was more to the effect that Socialists are preaching sedition and so should be deprived of the ballot. Thinking that a man like the editor would be amusing on a public platform, where he might have a freer scope for the elucidation of such ideas, unfettered by the restrictions of newspaper space, the Fort Collins Socialists, by way of preparing a reaction in his mind, first denounced him, then challenged him to a debate.

Offer Him Inducement They offered to pay the expenses of the hall and buy 1,000 copies of the Courier at 5 cents each if the Courier would print the debate as fully as the available space would allow.

This offer was made in the same spirit in which P. T. Baruum would have snapped up some choice exhibit, and the local Socialists did not expect to lose money.

The Socialists represented to the editor that the Socialists merely had a same program which would alleviate present intolerable conditions and destroy anarchy by taking away the factors by which anarchists of the violent sort are produced.

Too Busy to Debate.

The editor who had asserted that Socialists and anarchists should be deprived of the ballot thus described his position under the conditions for protesting against which he had denounced the Socialists: "The challenge is respectfully declined, notwithstanding the very liberal offer of the gentlemen named, for the reason that the editor has neither the time nor the inclination to discuss visionary and impractical theories with anyone. Our time and attention is wholly taken up with the practical affairs of life, such as providing means for keeping the stomach from craving in and the back covered. This leaves us no time to chase rainbows or talk politics on the street corners."

The state of mind which was shown by this refusal has made the local Socialists more than sorry that the debate did not take place.

THE WEATHER

Office of Chief Weather Bureau, Washington, D. C., March 24.—Illinois and Indiana—Fair Tuesday, colder in north portions; Wednesday fair. Ohio—Partly cloudy Tuesday and Wednesday; colder Wednesday. Wisconsin, upper and lower Michigan—Fair and colder Tuesday; Wednesday fair; fresh west winds. Minnesota—Snow or rain and cooler Tuesday; Wednesday partly cloudy. North Dakota—Snow Tuesday; Wednesday partly cloudy; cooler Tuesday. South Dakota—Occasional rain and colder Tuesday; Wednesday partly cloudy. Nebraska—Fair in east, rain and colder in west portion Tuesday; Wednesday partly cloudy.

Take No Medicine Have you got that tired, sluggish feeling that comes with spring? Get out and do a little exercise, breathing for the Daily Socialist. It will act better than any drug store tonic.

WILL LIFT VEIL ON THE AVERBUCH TRAGEDY AT INQUEST TODAY

Revelations to Be Made by the Witnesses May Prove Embarrassing to Police

(Special to the Daily Socialist.) Prairie du Chien, Wis., March 24.—Charles Slama, a Socialist, 33 years old, met death in the Mississippi river while attempting to land a load of poles a few miles from this city. The river was covered with ice and it is generally supposed that Slama slipped into the river while tugging the boat and struck his head on the rocks. He was drowned in only three feet of water.

SUSPENDED UNION OFFICIAL PLEDGES SUPPORT TO HEARST An item in Hearst's Chicago American last Friday to the effect that E. A. Phillips, "president of the Pork Butchers' union," at the stock yards, had pledged the support of that union to Joseph V. Calahan, candidate for alderman on the Independence League ticket, was considerably stretched as to the truth.

Smith, a vice president of the Amalgamated Meat Cutters and Butcher Workmen of North America, says that Phillips is no longer a member of that union, having been suspended some time ago for the non-payment of dues.

OLSEN NOT IN 'PAROLE' FIGHT Municipal Chief Justice Harry Olson has given the lie to the story printed by the Chicago Examiner which gave the impression that he had entered into the quarrel going on between Judges Gemmill and Cleland, relative to the latter's parole system which Judge Cleland put into practice while Judge at the Maxwell street station.

NO SUCH LAW EXISTS

Judge Olson said that no adult probation law exists under the law of Illinois other than that law which gives the right to parole prisoners on good behavior while serving a sentence. To prevent each judge in the municipal courts from having a private system of his own, Judge Olson said, he would enforce his authority.

A judge may continue a case for thirty days and then recontinue it, or he may vacate a judgment, under the law, but adult probation as such is not recognized in Illinois," said Olson. "It has, however, as fixed a place in criminal law as surgery has in medicine, and I have tried to get adult probation laws passed, but this time of affairs, coupled with other actions of those having it in hand, has caused certain labor leaders to express themselves as though they had ideas of a carefully laid plan to place the bill out of reach."

Labor men were led to believe that there were greased ways for some quick action as regards committee work, for it was supposed that the bill would, as a matter of course, go to the committee headed by Congressman Hepburn of Iowa, who introduced the measure.

Hepburn Has No Say

The bill, through Speaker Cannon's decision, will now be in the hands of Chairman Jenkins instead of Chairman Hepburn and with an entirely different body of men as a committee. Hepburn indulged on the bill when he introduced it. He wishes, he said, that it should be sent to his committee. Expressing his belief that all proposed amendments to the Sherman law and amendments to the Sherman law should be considered by the committee which considered the law itself, Speaker Cannon disregarded Congressman Hepburn's wishes and expectations and sent the bill to the committee on judiciary.

Jenkins to Take Time

Congressman Jenkins and his committee will do no doubt wish to know what the bill is all about and will then proceed to allow what hearings they see fit. Organized labor will be represented at the hearings and there will be a determined effort made by it to have the clause affecting it broadened so as to absorb labor unions entirely from the operation of the Sherman law and permit them to carry on boycotts.

COLE'S LEAGUE ATTACKS AID. JOSEPH BADENOCH The Municipal Voters' League, having stirred up the troubled aldermanic waters in the Sixth and Twenty-fifth wards, yesterday, issuing a special bulletin against Alderman Joseph Badenoch, who is an independent candidate against the regular Republican nominee, Homer E. Tinsman. In the other two wards the league is against the Republican organization but in the Thirty-second it is with it. The Vail people having "tossed" Badenoch to the satisfaction of the M. V. L., which says he has "shown diminishing usefulness" to such an extent as to make it necessary to condemn him. "The most serious count against Alderman Badenoch," the bulletin says, "is that he has been identified with the hopelessly incompetent majority of the gas, oil and electric light committee. As a member of this committee he has failed utterly to safeguard public interests. The defenders of Badenoch say he must be honest because he has not accumulated wealth during his career of ten years in the council."

OVERWORKED; SITS AND WEEPS

A crowd gathered about 14-year-old Anna Trice last night at Madison and Dearborn streets when they saw her sitting on the sidewalk, crying. None of them tried to assist her until Serg. T. F. Mahoney and Dr. Ray H. Cox, ambulance physician at the Chicago avenue station, appeared. They carried her to a drug store, and she was later taken to her home at 2435 Whipple street by the police. Dr. Cox found that she was suffering from a sudden illness caused by overwork. She is employed in a State street store.

SHOOTS RIVAL IN JOB RUSH

(Special to the Daily Socialist.) Cleveland, Ohio, March 24.—Charles Wryciek, 20 years of age, 6901 Chalmers avenue, south end, was probably fatally shot by Vinko Duranee at the gates of the Cuyahoga plant of the American Steel and Wire Company, near the Independence road, just outside of the city limits. Both men were part of a crowd of a hundred or more waiting at the gate for employment. Wryciek managed by crowding and pushing to get ahead of Duranee and a fight followed, in which a shot was fired. Wryciek fell to the ground, the bullet having entered his back. This was followed by a pitched battle, in which fists, clubs and bricks were used. Four men were arrested, and among them was Duranee. He was identified by several as the man who had fired the shot. He explained that he had been out of work for months and that his family was destitute. He held a good position in the line and was crowded out by Wryciek, a younger man. He was charged with shooting to kill.

INJUNCTION IS NOW PERMANENT

Washington, D. C., March 24.—The American Federation of Labor and President Gompers and others of that organization were permanently enjoined from conspiring, agreeing or combining to restrain, obstruct or destroy the business of the Bank Store and Range company in a decision rendered by Chief Justice Clabaugh of the Supreme court of the District of Columbia, making permanent the temporary injunction of Justice Gould against the federation in this case.

MOTHER JONES IN TEXAS; GREETED BY LARGE CROWDS

(Special to the Daily Socialist.) Dallas, Tex., March 24.—Mother Jones is in Texas. According to reports there are very few Texans who don't know it. On this trip she has spoken in over a score of school houses and at as many public halls, where large audiences greeted her at every town. At Whittier the city officials said they would pay her entire expenses if she would speak in the town. They declared that they would rent a hall that could not be filled and see that all of her expenses to and from there were paid, so anxious were they to have her speak to the citizens of that town.

STREET WORKERS OF OAKLAND ASK CLOTHES AND NECESSITIES

Oakland, Cal., March 24.—The unemployed of Oakland, who have been working one day a week at \$2.50 a day, which they paid to a committee in charge of a specially provided "boarding" house for a week's board and lodging, have made a united demand for clothes and other necessities as well. The city has granted their demands. The men have been doing work for the city in the parks and on street improvements. Extra work has been provided for them, which will allow them clothing and shoes.

DEMOCRATIC SOLON ALMOST MAKES A SOCIALIST ADDRESS

(Mail Correspondence.) Toledo, Ohio, March 23.—Had a stranger unknown to General I. R. Sherwood, Democratic representative in congress from this district, been present at the Central Labor Union mass meeting Sunday afternoon, he would have taken it for granted that General Sherwood was making a Socialist speech. But General Sherwood was only attacking the Associated Press and the present system as it now exists under a Republican administration. The only fault the Socialists found with his speech was that it came from a Democrat during a Republican administration.

Largest Hall Filled

The meeting was held to protest against the recent Supreme Court decisions. The largest hall in the city was packed and everybody seemed bent on expressing their feelings against the rulings of the courts. The following were the speakers: Thomas Runney, business agent of the Central Labor Union; James P. Egan, president of the Central Labor Union; Edward Calkin, ex-business agent of the molders' union; Frank Hillenkamp, representing this district in the legislature at Columbus, and General I. R. Sherwood. President Egan estimated that there were 100,000 men out of work in Ohio.

Can't Touch Judiciary

"You sent your representatives to Columbus," he said, "to give you the initiative and referendum, and they handed you a lemon. You cannot touch the judiciary. As long as Walter Brown is president of the Associated Press, and as long as George B. Cox of Cincinnati control the Republican conventions and a like combination controls the Democratic party, there is a club over the judiciary."

No Chance for Fairness

"No man has a chance to stand in attack him to make Chief Shipley's famous assumption 'hold water,' may receive some slight jolts from the findings of the physicians and measurements of the body, if such were taken. The Shipley family as a whole will take the stand, as will Foley. These are the sole witnesses to what really took place, shortly after 9 o'clock, from the time when Lazarus, according to Chief Shipley's statement, stood in the doorway, and in one hand and letter in the other, and the time when the police carried the bullet-riddled body of Lazarus Averbuch to Bentley's morgue. They, with the chief, will be questioned as far as Coroner Hoffman may deem material.

Farmer May Testify

As to whether or not Rheinberg, the Iowa farmer, will take the stand and tell that Lazarus was to meet him that very afternoon and take the train for Chicago, and that he saw the hardships suffered in Russia and Austria, and to fight off the attacks of the tubercular bacilli, whose presence had been suspected by Rabbi Levy and confirmed by Dr. Theodore Sachs of the Chicago tuberculosis hospital, is not definitely known.

Did He Try to Use Them?

The point, however, as to whether Averbuch, if he had these weapons and if the chief's story should be true, did or did not make use of them till he was placed on the defensive, outweighing him at least 70 pounds, will be an interesting feature of the inquest, which is held in other respects replete with interest.

NORTH SHORE RESIDENTS TO HAVE 'L' EXTENSION IN MAY 1

Smiles have appeared during the last few days on the faces of north shore residents as they have seen the preparations for the extension of the Northwestern elevated hurried in a way that seemed to promise them fast service within the next two months.

All along the line of the old suburban spur of the Chicago, Milwaukee & St. Paul railroad workmen have been seen dumping gravel, plying sledge and lever, and in some localities enthusiastic residents have watched wreckers tearing down old structures and carpenters making preparations for new buildings.

Officials of the company have stated repeatedly in response to eager inquiry that the first train will run through to Evanston May 1. Some doubt has been expressed by engineers and other spectators that such a thing is possible, all hopes being concentrated on the installation of the service the latter part of that month.

NOW READY FOR THE CONVENTION

The Cook county secretary has sent the following communication to the national secretary of the Socialist party: "Local communication of March 2, inviting local Cook County of the Socialist party, to take charge of the arrangements for the coming National convention, was received and the executive committee formally accepted the tender. The central committee, which met March 15, ratified the acceptance and I am instructed to convey to the National Organization the appreciation for the honor so conferred. Local Cook County will leave nothing undone to make the proper arrangements for the event."

The hall has been secured. It is the same hall in which the convention of 1904 was held—namely, Brand's hall. A committee of eleven was elected to take complete charge of the arrangements, so that the delegates and comrades throughout the United States can rest assured that their stay in Chicago will be made as pleasant as possible and everything will be done in the power of local Cook County to make the convention a grand success.

"Yours for Socialism," "G. FRANKKEL," "County Secretary."

DEMOCRATIC SOLON ALMOST MAKES A SOCIALIST ADDRESS

The worker of today, he said, is nothing but a "producer of wealth and a stuper of bullets."

Representative Hillenkamp said in the early alignment of the legislature he was asked what his politics was. He said in multiple elections he was an Independent, but in the last presidential election he had voted for Eugene V. Debs.

Can't Touch Judiciary

"You sent your representatives to Columbus," he said, "to give you the initiative and referendum, and they handed you a lemon. You cannot touch the judiciary. As long as Walter Brown is president of the Associated Press, and as long as George B. DENIES PAPER USE OF MAILS

Roosevelt Stops the Anarchist Weekly "La Question Sociale"

Paterson, N. J., March 24.—Mayor Andrew McBride today received a letter from President Roosevelt showing the president was directly responsible for the temporary order issued by Postmaster General Von Meyer excluding the anarchist weekly, La Question Sociale, from the United States mails.

President Roosevelt's letter was in reply to a communication sent by Mayor McBride. He called the president's attention to the incendiary articles in La Question Sociale. In reply McBride received the following: "The White House, Washington, D. C., March 20, 1908.

"My Dear Mayor: By direction of the president I beg to acknowledge the receipt of your letter of the 19th inst. and the clippings, and to send to you for your information the enclosed copy of a communication he has written to the department of justice concerning the publication in question. Truly yours, WILLIAM LOEB, JR., To the Department of Justice:

"By my direction the postmaster general is to exclude La Question Sociale at Paterson, N. J., from the mails, and it is not to be admitted to the mails unless by order of the court, or unless you advise me it must be admitted. Please see if it is not possible to prosecute criminally under any section of the law that is available the men that are interested in sending out this anarchist and murderous publication. They are, of course, enemies of mankind and every effort should be made to hold them accountable for an offense far more infamous than that of any ordinary murderer.

"After you have concluded your investigation I wish a report from you to serve as the basis for recommendations by me for action by congress. Under section 3891 of the revised statutes levied, obscene and lascivious books and letters, publications for indecent and immoral use, or of indecent or immoral nature, and postal cards on which indecent and scurrilous epithets are written or printed, all are

excluded from the mails, provision being made for a fine and imprisonment of those guilty.

"The newspaper article in question advocates murder by dynamite. It specifically advocates the murder of enlisted men of the United States army, officers of the police force, and the burning of the houses of private citizens. Preaching of murder and arson certainly is as immoral as the circulation of obscene and lascivious literature, and if the practice is not already forbidden by law it should be forbidden.

"Guilty as Poison Sender "The immigration law now prohibits the entrance into the United States of any person who entertains or advocates the views expressed in this newspaper article. It is, of course, inexcusable to permit those already here to promulgate such views.

"Those who write, publish and circulate such articles stand on the level of those who use the mails to distribute poison for the purpose of murder, and convictions have been obtained when the mails have been used for the distribution of poisons. No law should require the postmaster general to become an accessory to murder by circulating literature of this kind. "THEODORE ROOSEVELT."

HE IS ALMOST A "SOCIALIST"

(Continued from Page One.)

The halls of congress and demand that labor secure its rights and expect to get a fair report through the daily press," said General Sherwood. "President Roosevelt ordered that commission to investigate and report to him personally. Think of it! The president of the United States ordering a commission to report to him personally.

He also took up Judge Taft's decision in the Bricklayers' case before the Superior Court of Cincinnati, in which the union was fined \$2,000, and the boycott declared illegal. Taft in this case decided that one man could refuse to patronize anyone, but if three men declared they would not buy from a certain individual or firm or refuse to handle unfair material, it was a conspiracy.

Taft Decision Now Law "The Ann Arbor case in 1883 was the first in 231 years in the history of jurisprudence," said Sherwood, "that denied a man the right to quit work. The Supreme Court has now made Judge Taft's decision the law of the land. And this is the man who will appoint our Supreme Court judges in the future—if you elect him.

"In 1883 Roosevelt said in the Review of Reviews that men who do not believe in government by injunction belong to the stone age." "Sound volumes of the Daily Socialist for the month of May to October, 1907, inclusive, are now on sale at this office at the price of \$5 per volume. We also have a few volumes left of the period from the first day of publication up to and including the month of April, 1907, at the same price. These two together constitute a complete file of the Daily from the first number published and are bound in attractive form.

Attack on Warren was one attack; the Exonerated Bill another. There were others made by stealth, of which no report can now be made. Enough to say that the postmaster at Girard has been superseded in office because he was reported as too friendly to the Appeal.

"The truth is that he treated the Appeal honestly and would not be a party to the machinations to just it from the mails, and it is now predicted that previous attempts which failed on his account will now be renewed.

"The trial which opens May 4 in Fort Scott will be the trial of the radical press of the United States. It is not the Appeal, but the whole revolutionary press that is to be suppressed, and if the attempt is successful and a paper escapes, it will be because it is of no sufficient consequence to menace the ruling class.

Socks to Gag Press. "It was the Socialist and labor press and an aroused working class which saved the Federation leaders, and the same forces should rally to the support of Warren. It is for fighting the same battles for the working class that he has been marked, and is now to be sentenced. It is a continuation of the same determination on the part of the mine owners and other capitalists to punish labor's champions, gag its press, crush its unions, silence its mutterings, and perpetuate its slavery.

"It is Warren's turn today—whose will it be tomorrow, and next day?"

EX-WAITER IS ACCUSED OF \$12,000,000 THEFT

Paris, March 24.—The arrest of Henri Rochette on the charge that he has stolen \$12,000,000 through the medium of various fraudulent enterprises has uncovered a strange tale of high finance. Rochette was at one time a waiter in a railway restaurant in an obscure town. He inherited \$1,000 from an aunt, and with this he apprenticed himself to a bank and learned all about the banking business.

"Then he entered the office of a promoter, and, five years later, he raised enough capital to start a mining bank, which rapidly became known throughout France as the Credit Minier. Within two years he employed 400 clerks, in Paris and had sixty-seven branches of his concern in the provinces. From that time Rochette became a sort of financial wizard. He floated company after company, dealing in coal, copper, silver and gold mines in South America, lands and railways. His other bank, La Banque Franco-Espagnole, employed 300 clerks. Besides this, he owned two newspapers, which he used to aid his stock deals.

TAFT, IN SPEECH, SAYS HE IS FOR STATES' RIGHTS

Trenton, N. J., March 24.—Yesterday was a field day for Trenton. Secretary of War Taft and Baron Takahira, Japanese Ambassador to the United States, spoke before the chamber of commerce. Takahira spoke only briefly. Taft was next introduced. He was given a rousing reception. Secretary Taft said the development of the country had made some federal matters relatively more important than state matters when compared with conditions of a hundred years ago, but said this did not mean a surrender of the states' rights.

'NEWSIES' TRIAL TO COME UP FOR HEARING MARCH 28

The cases of nine newsboys charged with rioting in the war between newsboys and conductors at Cottage Grove and Indiana avenue, pay 25 you enter cars will be decided by a jury in Municipal Judge Goodnow's court Thursday morning. The cases of the boys over 17 years old will be tried first, and if there is sufficient evidence in these cases the younger boys will be sent to the juvenile court for trial.

FREE PRESS IS AT STAKE; DEBS

Noted Socialist Writes Concerning Editor F. D. Warren's Case

(Special to the Daily Socialist.) Girard, Kan., March 24.—Eugene V. Debs, in reporting the developments of the case of the government against Fred D. Warren for the Appeal to Reason this week, says in part:

"The Appeal has been a curious turn in the federal prosecution instituted against Fred D. Warren, editor of the Appeal, since the indictment was first brought against him and he was placed under arrest a trifle less than a year ago.

"Since then he has been constantly under bail, has had two hearings and repeated consultations with his lawyers, but the case is as uncertain as ever to its final outcome. The only thing known for certain is that the law provides that Warren may be fined \$5,000 and sentenced to the penitentiary at hard labor for five years.

Darrow Gets Into Case.

"It has been concluded to resist the indictment as far as legal ability can successfully do so, and to this end Clarence S. Darrow, a well known and well-revered General Boyce, Judge Doster and L. H. Phillips, counsel for the defense.

"Whatever may be our opinion of our courts under capitalism, there is a vital principle involved in this case, and the outcome may have an important bearing upon the Socialist press and free speech in the United States. I have always believed this to be a case of great importance, although trivial incident what seems a very private incident.

"The whole case rests upon the offer of the reward for the fugitive Taylor and sending it through the mails, a matter which is a small way of the authorities of Kentucky had been doing on a large scale.

Taylor Didn't Object.

"Of course, no one who has followed the case supposes for an instant that the prosecution was inspired by a sense of outraged justice in behalf of Governor Taylor of Kentucky, the only person who could have been wronged in the receipt by the publication which provoked the indictment.

"Ever since the Haywood trial the Appeal has been under the ban. But for the Socialist press the conspiracy would have succeeded. The barred conspirators swore vengeance. Since then they have made repeated attempts to have the Appeal excluded from the mails.

"The attack on Warren was conceived in revenge. It is an attack on labor and the reason for it is plain enough. Moyer, Haywood and Pettibone escaped the gallows. That was a bitter pill for the kidnapers. The Appeal helped to administer it and Warren was made responsible for its policy.

Warren Displaced.

"The suit against Warren was one attack; the Exonerated Bill another. There were others made by stealth, of which no report can now be made. Enough to say that the postmaster at Girard has been superseded in office because he was reported as too friendly to the Appeal.

"The truth is that he treated the Appeal honestly and would not be a party to the machinations to just it from the mails, and it is now predicted that previous attempts which failed on his account will now be renewed.

"The trial which opens May 4 in Fort Scott will be the trial of the radical press of the United States. It is not the Appeal, but the whole revolutionary press that is to be suppressed, and if the attempt is successful and a paper escapes, it will be because it is of no sufficient consequence to menace the ruling class.

Socks to Gag Press.

"It was the Socialist and labor press and an aroused working class which saved the Federation leaders, and the same forces should rally to the support of Warren. It is for fighting the same battles for the working class that he has been marked, and is now to be sentenced. It is a continuation of the same determination on the part of the mine owners and other capitalists to punish labor's champions, gag its press, crush its unions, silence its mutterings, and perpetuate its slavery.

PROFESSORS ZUEBLIN AND ABBOT TO LEAVE U. OF C.

After spending fifteen years at recultivating its faculty with educators from the eastern states, the University of Chicago is about to lose two of the foremost members of its teaching staff to eastern institutions. Charles Zueblin, professor of sociology, lecturer, and according to some of his friends, "the most spectacular man on the faculty," is one of those who are planning to leave the university. Professor Zueblin's resignation is in the hands of the trustees, but has not yet been acted upon. He intends, it is said, to ally himself with an educational institution in Boston.

Frank Frost Abbott, professor of Latin, has resigned his chair to become professor in the same department at Princeton university. Professor Abbott will remain at the Chicago institution during the present school year, beginning his duties at Princeton in the fall.

100 MEN LAID OFF ON ROCK ISLAND AT HORTON, KAN.

(Special to the Daily Socialist.) Horton, Kan., March 24.—The big ax has fallen on the Rock Island employees here. The car repair force has been cut in half, and a small percentage of the employees in other departments have been laid off. This new order affects about 100 men.

SUICIDE LEAVES \$13.80 'ESTATE'

This strange will from a tramp who blew out his brains with a magazine revolver in the West hotel, 185 West Madison street, Sunday night was found yesterday and is in the hands of the coroner.

"I, Conrad Fett, being of sound mind and understanding and having arrived at a point where suicide seems imperative, do hereby make my last will and testament, consisting of \$13.80 in cash, my revolver and my clothing, together with a jackknife and such other trinkets as may be found in the pockets.

"To my father, John Fett, of Waterloo, Ill., I bequeath \$1; to my sister Beatrice, \$1, and to my sister Lillian May Fett I do give and bequeath the residue of my estate. I appoint the coroner of Cook county my executor, and request that he notify William Gatzert of 2618 South Eighteenth street, St. Louis, of my death."

By the terms of the will, Lillian May Fett is the chief beneficiary, her share of the estate being \$11.80 in money and including the revolver which her brother used to kill himself. It is worth considerable more than all the other articles included in the inventory.

SAYS RYAN AND OTHERS ARE PARTNERS OF LEOPOLD

"Thomas F. Ryan and other Americans are now dividing with King Leopold and French and British capitalists the natural products of the vast country," said General Boshart, in a recent lecture. "Some astonishing facts will be revealed when the mystery of the deal between Thomas F. Ryan and King Leopold is cleared up.

"At the disposal of Ryan and his associates is a great navigable river, with numerous auxiliaries, 3,500 miles in length. At one point that river is nearly twenty miles broad. Furthermore, the American and Belgian adventurers have at their disposal 40,000,000 of people, the most intelligent on African soil outside of Abyssinia.

RUSS FUGITIVES TO BE GIVEN INTO CEZAR'S HANDS

Miffeta Zenoskew, 19 years old, arrested on suspicion that he was a member of a band recently active in assassinating government officials in Russia, was committed to the Cook county jail yesterday to be held for extradition to Russia on a charge of participating in the murder of four women. The hearing was in the court of United States Commissioner Foote and the complainant was Baron Schlippenbach, Russian consul in Chicago.

HIGH COURT NOW ON STATE LAWS

Interstate Rates Meet Same Fate as Labor Measure

Washington, March 24.—Having finished organized labor for the present, the United States supreme court has begun on state rights. It has declared unconstitutional the Minnesota and North Carolina laws seeking to regulate interstate rates on freight and passenger traffic and also fined Attorney General Young of Minnesota \$100 for contempt of court in enforcing the laws against a federal injunction.

The jurisdiction of federal courts to inquire into the confederate nature of state rate laws was upheld. The Minnesota freight law passed last year was declared unconstitutional in that it imposed such large fines and such long imprisonments—\$5,000 and five years in prison—on railroads and officials that violated the law that the courts were practically closed to them through their fear of making a test case.

Sustains Agent's Discharge

In the North Carolina case, the action of Justice Pritchard of the United States circuit court in dismissing James Wood, an agent of the Southern Railway, from jail, where he had been sent for violating the state railroad rate law, was sustained.

The court said that Justice Pritchard, having assumed jurisdiction and questioning the legality of the law, had the right, and it was his duty to see that nothing interfered with the determination of the question in his court.

This was not all the supreme court did for the railroad. Illinois was also involved, but the Illinois case was one between the Chicago packers and the railroads, so a decision in favor of the packers would not have affected the interests of the public and wage workers to any great extent. It might, however, work disaster on the stock growers of the west.

Had Power to Ruin

In the Illinois case it was decided that the Chicago Live Stock exchange had nothing to say about the management of the trunk line railroads of the west, and that if railroads decided to give up their packing house production from the Missouri river to Chicago, even if it resulted in ruin to the Chicago packing houses, or to the shippers of live stock generally, the railroads had a limited power to do so.

'DEYS' ISSUE BOOK: EVIL OF 'DEMON RUM' EXPOSED

A little book of condensed material for temperance and prohibition lectures, sermons and orations innumerable was issued yesterday from the Lincoln Temperance press. It is the American Prohibition Year Book, and in 190 pages, under 840 topics, every evil of the "demon rum" is exposed mercilessly.

Statistics are used freely in treating of almost every topic, so that the prohibitionist need never be contented with glittering generalities in his arguments. The most important chapters in the book are those on "Consumption and Cost of Drink," "Economics," "Criminology," "Legislation," "Political Action," "Party Records" and "Courts and Decisions."

STRIKELAND SPEAKS IN GOSHEN COUNCIL CHAMBER

(Special to the Daily Socialist.) Goshen, Ind., March 24.—Frederick G. Strickland spoke to a large audience in the city council chamber here last week. Many were turned away. The room was filled an hour before he was scheduled to lecture. A new local, consisting of twelve members, was formed at the close of the address. An account appeared in a local paper here, which had heretofore refused to print anything relating to Socialism.

Representative Zook of this county and the principal of the schools attended and seemed to be very much interested in the meeting. They put several questions to Strickland, which were answered satisfactorily.

It will be easier for the Daily Socialist to make a Socialist of your neighbor now than in the best of the campaign.

FORMER TAMMANY BOSS SUES LONDON NEWSPAPER

Dublin, March 24.—Richard Croker has determined to put his foot down on the newspapers that have been criticizing him and his antecedents. He has begun an action against the Sporting Chronicle of London, which stated, among other things, that Croker had vainly attempted to enter Irish society and that he had endeavored unsuccessfully to live the life of an Irish gentleman.

Croker's Irish friends know that strong but ineffectual efforts have been made to induce him to live a "socialist" life, but he preferred the quietude of Glencairn, where he has a little world of his own.

The recklessness of some of the newspapers in their statements about Croker's family surprises the Irish folk, for they know he is directly connected with some of the finest stock in the south of Ireland, which he left, taking with him the best wishes of the southern aristocracy.

MAN ACCUSED OF SWINDLING CHICAGOAN OUT OF \$50,000

The leading spirit in the "Denver Millionaires' club" came to grief in Chicago yesterday. He was arrested by Sheriff Edward Kittleman at Rock Island, Ill., and taken to Rock Island to stand trial for being one of a gang of confidence men who probably would be millionaires before long if they were not interfered with.

The young man, Joseph R. Weill, is well known to the Chicago police. It is said an effort will be made to connect him and his gang with the plot to blow up the Rock Island News office with dynamite early yesterday morning.

A Chicago man who brought charges against Weill a month ago is Edward Goodman, connected with a roofing company with offices at room 419, 167 Dearborn street. Goodman charged that Weill and his "Denver Millionaires' club" fleeced him out of \$2,000 on a "fake" fight.

MAN DRESSED AS WOMAN NABBED WITH BURGLAR KIT

Cincinnati, O., March 24.—Joseph Stirling of 881 Rockdale avenue, Avondale, formerly employed as a gold pen grinder for the John Holland Pen company, who was caught by Lieutenant Conrad and Patrolman Thomas attired in woman's clothing and carrying a suitcase filled with tools, was charged with having burglar tools in his possession.

Stirling belongs to a highly respectable family in Avondale and his relatives made efforts to have prosecution in his case dropped. The police compelled Stirling to don the woman's clothing he wore and appear in Chief Millikin's office. There he confessed that he had started out with the intention of working a female "Raffles" stunt.

He had been out of work for some time and said he was desperate because he could not get anything to do. Then he started out to rob some place, but had not made any plans as to whose residence he intended to enter. The police believe that it was his first step in the direction of any wrongdoing, but they can not overlook the fact that his intentions were wrong, and for that reason a charge was placed against him.

TEN STUDENTS SPANK A LONDON GIRL SUFFRAGETTE

London, March 24.—The militant branch of the suffragettes has been making the most desperate efforts to hush up the outrageous assault recently made by a gang of medical students on Miss Christabel Pankhurst, one of the youngest, pluckiest and handsomest of the suffragettes.

Miss Pankhurst had been attending a meeting and was lured away from her companions after the speeches were over by a band of students who numbered about ten. Having got her, they locked her in a small room, they locked the door and having submitted her to various, not serious, but humiliating indignities, they each deliberately spanked her in turn and then let her go.

Miss Pankhurst was for sending for the police, but her friends dissuaded her, as they said it would harm rather than advance the cause. So the medical students have escaped all punishment and the suffragettes never even mention Liverpool.

NEW YORK IDLE DEMAND WORK

Plan a Monster Mass Meeting to Be Held in Union Square

(Special to the Daily Socialist.) New York, March 23.—The unemployed of New York will hold a gigantic mass meeting Saturday, March 28, in Union Square, where action will be taken toward demanding immediate relief from the city. The unemployed conference has completed the plans for the meeting and declares that it will be held without police interference.

Conditions are such in New York at the present time that something must be done immediately for the idle. It is the hope of the committee to induce the city to pledge appropriations to carry on the construction of public buildings by the unemployed.

Send Out Letters

Circular letters are being sent to all labor and progressive organizations asking that they report how many will participate in the demonstration. Thousands of handbills will advertise the meeting. These will be distributed along the Bowery, the broad lines, cheap lodging houses and other places. It is the hope of the conference that every unemployed person will participate in the demonstration.

Resolutions are planned demanding the mayor and the construction of aidmen to provide at once for the speedy erection of as many school buildings as necessary to give room for the children of the people who are in school only part time because of the lack of school buildings and supply work for the jobless.

Only for Jobless

The resolutions also demand that all this work be done by direct employment by the city, without the intervention of contractors, in order that all the money may be used for materials and labor and none for useless middlemen, and that all such work be done under union conditions as to wages and hours of labor.

FOUR DIE IN ONE HOME IN LESS THAN A MONTH

Pittsburg, March 24.—The fourth funeral procession from the residence of Mrs. Catherine Spahr within three weeks left the house today, when the body of John, her 1-year-old son, was laid to rest.

Jesse Spahr, the husband, died Feb. 14, leaving the widow to care for her father, James Hauey, who was ill, and her four children. The children were all sick except William, 17 years old. Following the death of her husband came the death of her father, Feb. 16. Last Friday Mildred, 2 years old, died from measles. Yesterday came the death of the baby from measles.

Jesse, Jr., 4 years old, is seriously ill from spinal meningitis, while Willis, the twin of John, is ill with pneumonia.

INVENTS CORN HUSKING MACHINE; 10 ACRES A DAY

(Special to the Daily Socialist.) Mankato, Minn., March 24.—A machine, drawn by three horses, that will husk standing corn at the rate of ten acres a day, has just been perfected and patented by G. L. Narowh, formerly of Wisconsin. The first machine has been constructed and was tested in a field of corn. It took the ears from the stalks and husked and conveyed them to a wagon. It is said to work in the tallest corn.

CAT, LOST IN CHICAGO, MAKES 1,000-MILE WALK

Boston, Mass., March 24.—Seven months ago Mrs. Alexander Packard was visiting friends in Chicago. With her was her prize-winning cat. One day they went auto riding and the cat was lost. Mrs. Packard returned home, and to-day the cat appeared, none the worse for its thousand-mile trip on foot.

Convention Series Prizes

The following special prizes are to be awarded hostlers for lists of names sent in on the Convention Series, May 11 to 21, inclusive. When ordered in clubs of ten, the Chicago Daily Socialist will be mailed to any address in the United States or Canada—outside Chicago—the entire ten days, embracing the National Convention of the Socialist Party, for 15 cents.

PRIZES WILL BE GIVEN FOR THE LARGEST LISTS RECEIVED ON OR BEFORE MAY 11, 1908

FIRST PRIZE—"The Library of Original Sources." Published by the University Research Extension, value \$50. "The ideas that have influenced civilization." Best English translations FROM ORIGINAL DOCUMENTS. Ten volumes.

For more than ten years a corps of 125 leading university specialists of the world have been searching through the great libraries, such as the Bodleian Library at Oxford, the Royal Library at Berlin, the Bibliothque de Paris, the Vatican at Rome and all the great monasteries and libraries of Europe and Asia, collecting, translating and arranging these sources in historical and chronological order for the use of the ordinary reader, the practical thinker, the truth seeker and the busy business man.

As an illustration of how subjects are treated, take "Socialism." In any of the great encyclopedias we would find perhaps two or three learned articles on this subject, dealing with it in a very scholarly and analytical way, but containing, of course, more or less prejudice, according to the writer's point of view, whosever he may be. However, in this work we find the idea of exposition almost entirely set aside, while instead, we begin with the earliest expression of the subject and give its evolution and history in the original documents and sources of information, bringing it right up to the present time.

SECOND PRIZE—\$25 worth of standard Socialist books.

THIRD AND FOURTH PRIZES—\$10 worth of Socialist books.

FIFTH PRIZE—\$4 worth of any Socialist books. Advertised by the Daily Socialist, including first and second volumes of Marx's "Capital."

These are in addition to the general prize of Arthur M. Lewis' "Evolution, Social and Organic," or "Ten Blind Leaders of the Blind," each of which retails for 50 cents. Either volume for one club of 20 at \$3 or two clubs of 10 at \$1.50 each.
