Law Admitting Them Must Go Through Without His Signature.

Washington, Aug. 9 .- It was persist ently reported here today that Presi dent Taft's signature would not appea on the resolution admitting Arizona and New Mexico to statehood, as it passed the senate last night."

Become Law Without Him

Taft, it was said, was opposed to the plan for resubmitting to the voters of Arizona the plan for recall of the judges and that while he probably would not

who that while he probably would how veto the measure it would have to become a law without his signature.

The senate passed the bill 53 to 18, defeating the Nelson amendment, which eliminated the recall of judges, by 43

nsys, 26 ayes.

The resolution is almost identical with that passed by the house. It admits New Mexico to statehood after the peo-ple shall have voted on a change de-signed to make the constitution more easily amenable. It admits Arizona after the people shall have again voted on the recall of the judges.

House Will Agree

The indications today were that the house would agree to the minor changes made by the senate and send the resolution to the White House at once.

THE WEATHER RAILROADS FEAR INDUSTRIAL IDEA OF SHOP UNIONS

Want to Deal With Unions Separately; 8-Hour-Day One Issue.

Railroad system federations, organ zed on the industrial plan in the shops of the western railroads, are giving officials of several of the railroads much concern. As a result they have caused to be published in the news-papers news articles stating that the efforts of these federations to improve onditions and in some cases to de mand increases for their members will be strenuously opposed.

Is Industrial Move

These federations of railroad work ers are the result of plans first laid ou by radical members of such unions secured four buyers, who will do all purchasing for the organization. The bollermakers, blacksmiths and carcity will be divided jute districts and men. They have proved a success each buyer will purchase goods for a certain district.

The peddlers intend to sell everything of great value to the workers because of the concerted effort against troubles; that is now sold by the grocers and will carry on a relentless war against to effect and the grocers and Butchers' Association.

As a result of the elimination of the commission merchant the peddlers will and individual unions. Under the arrangement all contracts expire at the rangement all contracts expire at the

same time.

Mechanical employes, representing federations from several parts of the Rock Island system, have been treating with the officials in Chicago for some time. The railroad seems willing enough to pay some of the advances demanded, but refuses to recognize the federations, somewhat the same as they refused to recognize the individual unions years sero.

The sight bour day, discontinuance of alleged blackmall systems of record, questions of overtime and apprentices, reduction of force, bonus systems and similar problems are now being considered by Joint committees of the various unions.

While many of the principal western coads have not yet received demands from the shopmen, it was learned that settlements have been made during re-cent months by the Alton, dilesouri Pa-

cific, and Southern roads.

In the case of the Alton the new contracts were made with the individual organizations as before, although negotiations were conducted with a general committee in order to secure uniformity.

PERKINS IS GETTING INTO TROUBLE BEFORE PROBE

By United Press.
Washington, Aug. 9.—When George
W. Perkins, former Morgan henchman,
resumed the stand before the Stanley
ste(I committee today he was confronted with the alternative of making plain his connection with big campaign con-tributions or answering for "contuma-cious conduct and contempt" before the clous conduct and contempt" before the bar of the house. Perkins was vice president of the New

York Life insurance company during its political activity and handled its funds. Chairman Stanley wanted to know if he also handled campaign funds for the steel trust.

The corrected notice reads as fol-

Here's good news for the man who vainly tries to plaster a few scanty locks over "that baid spat." For the woman whose hair to feel the plaster a few scanty to properly pin up her false hair.

Good news for both men and women whose hair. Good news for both men and women whose hair. Good news for both men and women whose hair their comb every morning. For men and women growing gray before their time.

Good news for all, with theirs, burning Good news for all, with their own beyond all forms of hair and asial trouble.

The Cresio Laborateries, 220 8th Ave., Binghammon, N. Y., have secured the exclusive American rights for Crystolla, the famous English hair freatment.

Crystolla is a household word in Europe, where it is acclaimed "the most marvelous growth." It has won few menants and Brussels.

Better yet, it has won the warmest words of praise from those who have been fortunate enough to test its remarkable qualities.

Crystolls has been tried out in American from every state unhealtatingly hall it as the true hair grower.

Here is a statement of just a few of these who have tried—who have been convinced—and who will swear to the virtues of this marvelous preparation.

Mr. Kelly of Memphis, bald for 55 years.

Mr. Kelly of Memphis worked with hair nearly an inch long, friends simply associated with a thick growth of hair of natural color. No more itching, no more dandruff."

Mr. Morse of Boston declares: "I lear my half eighteen years ago. Have used less than one treatment. My head is now entired and color. Whis paper aside until you have mailed the Free Coupon to the Cresio Laboratories, 210 given by the full grown will covered with thick new half. The gray-ness is also disappearing."

Mr. Mourer of Cleveland declares: "Crystolis is the only thing which actually grows hair."

Mrz. Morris of Philadelphia writes after only three weeks' use: "I can see new hair in pleaty and it is now a half inch long." Lewis Neff says: "New hair began to grow in ten Jays after beginning the treat-ment."

And then the boys expect to take home lots of literature on the Panama exposition.

Commenting on this sensational state-

ment, the Coal and Creek Operators, a trade journal, says that "less than one-half the existing number of miners could furnish all the coal that can be disposed of and be active only four-lifths of the time."

Officials of the Colorado miners have announced that the next demand to a socialism. it is argued, is an ideal "Socialism it is argued, is an ideal or socialism." One label has been sent in

ters' label. One label has been sent in printed on light brown paper, oblong in shape, with the words "W. H. F. A. of N. A. Union Made." This label does not bear the union label of the Allied Prioting Trades or any other label, and if an organization at all issues it that organization is of no standing in the labor movement. It will be well for every one purchasing hats to be extremely careful in their scrutiny of the label which the hat bears. The United Mine Workers' Journal settimates that "all the miners could be steadily employed by working only four hours a day," and hopes that the scheme will be given serious consideration in the near future.

Abolishing the Bread Line

It Cannot Be Done By Establishing Charitable Employment Bureaus.

An employment bureau, established under the auspices of a Masonic lodge by Dr. James B. McFatrich, is declared by its founder to mean the disappearance of the bread line.

The sympathy which Dr. McFatrich feels for the "down and outs" is of course commendable, but we must point out to him the very simple truth that WHEN HE SECURES A JOB FOR ONE PERSON HE KEEPS SOMEONE ELSE FROM GETTING THAT POSITION.

At best he is only substituting one person for another. He keeps one out and puts another in. The one he puts in may be in the greatest immediate need, but if the same experience happens very often to the one kept out, he, too, will soon be an applicant for Dr. McFatrich's aid.

The new employment bureau will relieve the misery with which directly confronted, but will only transfer it to others.

THERE ARE NOT ENOUGH JOBS TO GO AROUND.

That is why it is hard for a workingman out of employment to find

The individuals who apply to the bureau will appreciate the assistance in finding jobs, but when Dr. McFatrich has placed ten thousand or any other large number of men in positions, THERE WILL STILL BE JUST AS MANY MEN OUT OF EMPLOYMENT SO FAR AS THE EFFECT OF THE BUREAU'S WORK IS CON-CERNED. It will not have decreased the number of unemployed

There is another side to such bureaus that can even work harm to the workingman as a whole. The man who is hard up, who is wearing seedy clothes and whose shoes are worn out will accept any salary offered him. There is a tendency to underrate the value man who is down and out, to offer him a crumb instead of what he is worth.

The capitalists who kindly employ men at the request of Dr. McFatrich will pay them less than they would pay men less anxious to secure the positions. That is human nature under present day conditions. Hence the bureau will tend to reduce the average wages of the working people.

The free employment bureau will not reduce the length of the bread line. It may change its membership more frequently, and that will make more and more people willing to work for lower and lower

As long as capital is in private hands there will not be enough jobs to go around. The only hope is for the workers to secure col-lective control of the capital and give themselves positions.

Officer! He's in Again!

The Inter Ocean is nearly always entertaining. It now com-plains of Taft's use of the phrase "plain people," and says: How many are there who gather at Newport in summer

and Palm Beach in winter and try hard to make themselves believe that they are different from the rest of us?

Not enough to mention—a few hundred at most.

And what are a few hundred in this mighty nation of 100,000,000 souls?

There were more of such persons even in the sparse colonies of 1776 than there are now.

Of course some of us get more for our labors than do others. That always has been so and always will be, so long as men differ in brain sand especially in industry.

But the habit of speaking of "the plain people" in America as if they were a great class, opposed by another great class of "ornamental people," is just a bit of Socialistic cant—a Socialistic lie framed for the purpose of creating a condition of "class hatred" and "class struggle.

It is not what they try to make themselves believe, George. It is the fact that they have our coin that makes us riled. They have put us, yes nearly 100,000,000 of us, to work in various industries, and they take the profit off our labor. That's the kick.

And they ARE only a few in number. That makes us all the crankier about it. To think that this great army of workingmen should be subject to those very few! The words do not make the condition, George. They only describe it. We Socialists prefer to use terms more descriptive of the economic relationship. We say "two thing class" and "cardialist class". We say "two thing class" and "cardialist class". We say "two thing class" and "cardialist class." "working class" and "capitalist class." We try to use the right names, but Bill Taft is not sound on his economics and he uses only names that fit the surface appearances.

An inspectorship of some kind was vacant. Mayor Seidel sent the name of an appointee to the city council. Republican and Demsomething about the appointee. The Socialist aldermen led them on. After they had put themselves fully on record as wanting very much to know who this appointee was, the Socialists arose and said: "You don't need to wait. We will tell you now who this man is. He was on strike a couple of years ago and he rendered such good service to his fellow workingmen that he has been blacklisted ever since.

"He has not been able to get a job because of his loyalty to the workers, and that is why we intend to give him this fallow workingmen that is why we intend to give him this to the workingmen that is why we intend to give him this fallow workingmen that is why we intend to give him this fallow workingmen that he has been able to get a job because of his loyalty to the ocratic aldermen said they wanted time to investigate and find out

The Republicans and Democrats did not dare to vote against that kind of an appointment (in Milwaukee), and it went through

The most humorous thing about the Journal's complaint is a long story to the effect that there is no use bringing such matters before the Federated Trades Council, because that body would not

indorse such a complaint. If the workers are satisfied then the Socialists are.

The Coming Railroad Strike

There is a prospect of a serious railroad strike for more wages, especially by the telegraphers. It is said the companies are in an agreement to refuse such demands.

At this juncture the annual report of the Frisco railroads, just issued, is very interesting. The operating expenses of the 6,502 miles of this system for one year were \$39,418,897. The revenue for the same period amounted to \$58,039,637, leaving a profit on the business of \$18,620,739.

It really looks to an unsophisticated person as though the railroads could afford to add something to the wages of their employes. Of course the unsophisticated person knows nothing about wa-tered stock and other financial tricks, but he is likely to insist that there'is enough profit on the business to pay those men more.

It was brought out before the senate committee that a "leading politician" had requested of the steel trust an appropriation for campaign expenses. George W. Perkins, former chairman of the trust's finance committee, could not remember the politician's name. Of course not. How could be remember one from among so many? e not. "From what can be learned in different parts of the country concerning the growth of Socialism and its present strength, it is hardly probable that a labor party will be formed in this country for many years, if at all. The Socialist party seems to have come forward as the champion of the workingmen, and while the Socialist labor party, the predecessor of the Socialist nature. ty, the predecessor of the Socialist party, was in open opposition to union la-bor during the years immediately pre-ceding its decline, the new party finds its greatest strength in trade union-

SOCIALIST SPEAKERS ARE PROTECTED IN NEW YORK

New York.—Street meetings have been held by the Socialists on a corner diagonally from a Roman Catholic church. The priest of the church has been preaching several anti-Socialist sermons lately and aroused his congregation against the Socialists.

On the usual night of the meeting the Socialists found a crowd of more than a thousand people gathered on the corner. Most of them were Poles who could not understand English and did not know what the speaker was saying.

They attacked the speaker, but the police had anticipated trouble and had about fifty present with a patrol wagon.

The police guarded the speakers meeting from further trouble and the meeting continued its usual length. The speakers were given police protection. The action of the New York police is quite different from that in other cit-The police guarded the speakers'

MARYLAND SOCIALISTS HOLD STATE CONVENTION

Baltimore, Md.—The Socialists of Maryland are now holding a state convention in this city. There are seventy delegates present, representing over one thousand members.

In one or two of the counties the Socialist party is already the second in point of votes east; the Socialists in Hagerst. In expect that that city will be the first town in the east to be Milwaukeeized.

waukeeized. In Baltimore the work is attended with difficulties, as the prejudices of the Bourbon South are felt, as well as the influence of the Vatican. The Socialists have established a paper, Public Ownership, that is a success, and they intend to have the old town hear from them at the next election.

The state secretary is A. B. Claxton, and the national committeeman and state organizer is Dr. J. Rosett, a veteran of twenty years.

GET BEHIND THE TICKET
AND VOTE 'ER STRAIGHT

Palo Alto, Cal.—The Daily Times, a Republican newspaper of this city, pub-lished a full column article on the elec-tion in San Francisco. The Times states, that big business is putting a man named Ralph into the field for the ex-press purpose of defeating the Social-ist candidate, McDevitt, at the pri-

martes.

This would leave the field open to McCarthy, the Labor party candidate, and Ralph, with the result that McCarthy would be elected. In ending the article the Times says:

"Socialists or not, the only way to get rid of McCarthy and his Paris of America, which he has made San Fran-cisco, is to get behind the Socialist tick-et, and, as the Socialists say, vote it straight."

SCRANTON SOCIALISTS

Scranton, Ps.—The Socialists of this city have put a full ticker in the field and are planning a vigorous campaign. The following ticket has been nom-

ENTHUSIASM GREAT IN ILLINOIS, BAYS MAXWELL "Interest in Socialism is greater, col-

lections and literature sales better and attendance at meetings are larger than ever before during my three years as organizer," says State Organizer of Il-linois F. T. Maxwell.

"A great many locals have been or-ganized. Farmers are taking a great interest in the movement, many of them traveling ten and tweive miles to at-tend Socialist meetings."

PARMERS' CO-OPERATIVE

ASSOCIATION IS FORMED

State Line, Miss.—A Socialist farmers' co-operative association has been formed which has acquired several hundred acres of land here.

Members of the Socialist party who desire to become farmers and do not care to be held up by land speculators are invited to join. A Socialist park has been opened where picnics, labor meetings and barbecues are held. For information regarding the association address F. F. Cark, State Line, Miss.
