"32.—"The day will come when thousands of elected Socialists will meet together and that more Socialists will be elected till a full Socialist victory is wen," says Mayor Seidel.

The first congress of elected Socialist sofficials over held in the United States opened here today. Standing before the intertwined fags of the United States and the red fing of international Socialism, Edmund Melms, president of the Milwaukee dity council, made the opening speech. He expressed the hope that the congress would be of use to the Socialists in all cities.

Frank J. Weber, member of the state lagislature and business agent of Milwaukee federated trades council, in-

plegislature and bysiness agent of Mil-waukee federated trades conucil, in-troduced Mayor Seidel. Weber declared that Seidel has borne the brunt of the attacks of big business. Mayor Seidel declared that government is a machine. He asserted that the Socialists are go-ing ahead till they have the courts and Jegislature to use them in their inter-cets.

He said that the factories, and other industrial institutions are not run for the workers. The children of the work ers do not yet have the opportunity
that society owes them. He said that
the capitalists oppose the fulfillment of
plans for the benefit of the workers.
A referendum on the acquisition of

a park is not needed. He said when the people are to be given something the referendum is not necessary.

It is believed Governor Johnson will sign the extradition papers and send Hosick back to answer to the charge of felony, provided it can be shown that the detectives acted illegally in remov-ing the man from the state.

Assistant District Attorney Ford, who was himself charged with kidnaping, will probably conduct the case for Ho-sick. He will set up the plea that if was any criminal action in the case it was committed by Police Judge Collins of Indianapolis, who assigned McNamars into Hosick's custody. To Draw Up Primer for Use in Socialist Sunday Schools.

A Socialist primer to be used in teach ing the children of Socialist Sunday schools will be drawn up by school teachers of Chicago as a result of the action taken Friday by the woman's national committee, consisting of May Wood-Simons, Mrs Otto Branstetter Lena Morrow Lewis, May Strickland Caroline Lowe, Carrie Allen, Octavia Floaten and Anna M. Maily, and which opened its first session Friday at the national office.

Work Reviewed

The work of the past year was re viewed and plans for making the work among women more effective were pro mulgated.

Resolutions were passed requesting state secretaries and state excutive committees to acquire a woman's cor respondent in every state and that women be given representation on the state executive committees. The wo man's correspondent to be chosen when ever possible from the city in which the state secretary resides.

It was urged that no more state women's committees be elected after the expiration of the terms of those at present existing. The woman's state correspondent will greatly simplify the work and more can be accomplished.

Elect Committees

The following committees were elected: By-laws, Strickland, Allen and Branstetter; woman's day program, Simons and Maily; Napolitano case Lewis and O'Hare. The committee left for Milwaukee.

Escaped Peonage

Nathan Miller, inveigled to Chicago inder promises of plenty of work, and who was not told that there was a strike on, tried to escape after learing throughout the state for the protec of the true conditions in the coppermiths' trade in the city, and went to the union.

Upon his arrival in Chicago he was taken to the Inter Ocean Hotel at State and Van Buren streets by one of the strike guards. The guard called for him in the morning to take him to work and brought him home at night.

Threatened by Guard

When Miller attempted to leave the hotel he was stopped by a guard named James Cummings, who took his suit-case away from him, saying. "You make any attempt to take your trunk or baggage and I'll knock your head or baggage and I'll knock your head off and throw you downstairs. You'd better watch out, anyhow." The latter remark filed others who wanted to rebel with fear.

The oaggage was then turned over to the hotel clerk, named S. Field, with

instructions not to give it to Miller.

Washington, Aug. 12.—Protesting against the deportation of Theodore Malkoff, the political refugee, to Rus sia, Victor L. of the Russian-American Line, August 19. An appeal from this decision has been taken to the Commissioner General of Immigration.

Recites Potemkin Story

"At the hearing Malkoff testified that in 1905 he was a sailor in the famous steamship 'Potenkin;' that the mutiny was precipitated by the act of the captain, who shot a sailor complaining to him over the quality of the food; to him over the quanty of the food; that thereupon the remaining sailors got together in an exciting and protesting group. They were ordered to disperse, but ignored the order.

"Fire was opened upon them by the officers of the ship and 'loyal' sailors. They returned the fire, and in the frame they killed the captain. The "Po-

cas they killed the captain. The "Po-temkin" then hoisted the red flag and joined the forces of the revolutionary

"Malkoff admitted that he had taken part in the shooting. Several witnesses appeared before the board, testifying that Russia was in a state of civil war in 1905, and that the 'Potemkin' episode was an incident of that war.

They also undertook to take care of Malkoft until such time as he would get employment. Malkoff is an ablebodled young man, and a machinist by trade. His deportation was ordered on the ground that he was an 'undesirable alien' and a mutineer.

SEIDEL- GREETS

BY JOHN C. CARROLL

Milwaukee, Wis., Aug. 12.—The rich ax dedgers, who almost a year ago es-caped detection when the courts en-loined the Socialist administration from employing the firm of Workman & Higgs to ferret out property which was escaping taxation, are now under investigation.

Experts Are Retained

The tax experts have been retained by City Attorney Daniel Hoan, who is using part of his "contingent" funds for the purpose.

As a result of the activity of the tax

experts it is believed that \$15,000,000 worth of property of wealthy residents will be placed on the tax books and the burdens of the workingman reduced so that \$10,000,000 of unjust assessments will be canceled.

If as possible.

The state laws provide that all property, real estate and personal property, stocks, bonds, money in the bank and valuable colleteral in the shape of notes and household goods as well, shall be taxed.

The property shall be valued at 100 per cent, according to the law. The assessment and been in the has 5t, however, of valuing the property at 60 per cent.

Bocialists See Trap

There was a new assessment made this year, the value of the property being rated at 100 per cent on its value on May 1, 1911. It had been the practice in the past to make the workingman pay the limit on his holdings so that when the assessable value of property was raised to 100 per cent, instead of 60 per cent of its real value, the change affected the workingmen, 27,000 of whom had voted for Seidel for mayor and later helped to sweep the Socialists into power in this county. The rich falled to make correct statements on their property and escaped on much of it.

The Socialists, however, saw the trap, and refused to fall into it. Detailed facts are being gathered on the tax situation and the Socialists expect to hold meetings all over the city to tell the real facts.

TILLETT TELLS GREAT STRIKE

Praises Solidarity of the Workers; The Liverpool Strike Still On.

By United Press.
London, Aug. 12.—Having won the most sweeping and complete victory in the history of industrial struggles is England, the London union leaders were highly jubilant today. Ben Til-latt, leader of the federation, today summed up the strike and its outcome for the United Press as follows:

BY BEN TILLETT

This is labor's greatest triumph of a century. Not only are one hundred thousand workers and their families benefited by the increase of wages, which embles them to meet the cruelwhich enables them to meet the cruelly high cost of living, but they receive material reductions in the hours of labor, giving them, for the first time in their lives, the opportunity of recreation and of getting to know their families. Heretofore they have toiled all of their waking hours.

But far more important than the material benefit has been the demonstration of the absolute power of the wags earner. The forces of capital are at last compelled to recognize that unites.

Our "coronation strike" has also been a mighty protest against the barbaric splender of the coronation spectacle, with the waste of millions of pounds, which properly expended would have mitigated the wretchedness of the poor.

Many of the re-ported fights were deliberately encour-aged by the city police, who wanted the troops sent here to take control. The orderly manner in which this strike has been conducted from the out-set until its happy termination has been set until its happy termination has been most remarkable, considering the vast number of strikers.

There has not been a single fatality and labor is proud of the result. By United Press.

Large quantities of fresh provisions are spoiling in the ships and there is no coal on the decis fer vessels desiring to clear. Conditions are such that if he settlement is reached all trade through the jert will have been suspended by Monday.

The bureau has issued an interesting and valuable report embodying its suggestions in this line. Union workmen who follow the policy of dealing only with those firms that employ union labor have patronized this company in steadily increasing numbers, and have found saled from extorcious truet in the world."

The first object of the association in the tuffit was to refer price and keep them relead, and this policy was carried out in impressive pashion. The "laft was to refer price and keep them relead, and this policy was carried out in impressive pashion. The "laft was to refer the first one of the same fair outdone by "the high cost of thying" and instances are known where four or five times the proper charge was made examine families, too grist-surfalem to know that they were being imposed upon and robbed. In many cases the family purse had been achausted by long liness and heavy doctors bills, and the burden of debt caused by the extertionate charges of the families struggled for months and years.

There are approximately 2,000 deaths in Chicago such month, and there are allo undertakens. This means an average of seven funerals to each firm each month. The smaller undertakers of the better type and business men decided to put an end to these conditions, to supply Chicago with a funeral service at cost, plus only such a charge as to make a far and reasonable return.

They formed the Western Casket and Undertaking company, and in order to be able to reduce expenses still surthe, and enable them to make still lower prices to the public they formed a chain of seventeen ustablishments throughout Chicago.

These are the principles on which the Western Casket and Undertaking company is founded.

From The Chicago II.

1. Giving the best possible ser-ice at the lowest possible pric thereby putting an end to exto-tion.

tion.

2. Employing union workmen only, paying them good wages and giving them fair hours and proper working and sanitary conditions.

3. Cutting out the "middlemen's profit by manufacturing and selling its own goods, thereby giving the public the benefit of the saving.

In other words, the Western Casket and Undertaking company, walls a corporation, is a corporation with a soul.

Through all its dealings with its workness and with the public it serves shines the purpose of its officers to conduct the undertaking business shong upright and heabrable lines, observing the college suits in overs transaction and the golden rule in every transaction and causing its clients to feel that the offi-cials and representatives of the com-pany sympathized with them in their loss and would do all in their power to make the loss less potenant.

The corporation form of the West-ern Casket and Undertaking company is merely a convenience.

The purposes and policies and per-sonalities of its officials are the real

company.

The company found a ready response. The public, finding at last that it could obtain far better service at prices far lower than the trust charged, gave steadily increasing patronage to the Western Casiset and Undertaking company. Pamilies of small means found that the day of the "cheap funeal" was over. They discovered that richly accompany.

that the day of the "cheap funeral" was over. They discovered that richly appointed, dignified funerals were within their reach for half or less than half, the prices she trust had charged for its cheapest and poorest service. They found also that their grief was treated with the same tender consideration as if they had ordered services costing thousands of theilars.

At the same time families of greater means found great reductions in their bills, and at the same time greater elegance, dignity and beauty of service.

All this superintive sreeklence of services consulting new to Chicago, together with the extremely low prices charged, brought forth such a public response that the Western Casket and Undersaking company today handiss more funeral services than all the trust undersaking company to day handiss more funeral services than all the trust undersaking of the western Casket company, at 50th styses and Center averses, Chicago, is one of the inrgest factories of the sort in the world.

Every employe is a minou man of good atanding, and it has been the policy of the company to encourage workmen in their union affiliations, knowing that enlightened unionism stands for the good of the employed and the employer allke.

Wages are fair, hours are reasonable, the working conditions are maintained

alike.

Wages are fair, hours are resconable, the working conditions are maintained at a high standard, and sanitary conditions are excellent.

As a result of this policy it would be hard to find a more loyed, contented and better satisfied let of workman than the employes of this company.

Union workings my be have patrentised the Western Casket and Undertaking Company have been loud in its praises, and through the recommandations of its clients the "Western" has found its clients the "Western" has found its circle of friends in Chicago, already large, growing rapidly and constantly."

WAITRESSES IN DENVER TO ASK **EIGHT-HOUR DAY**

Waiters Promise to Aid in Strike, but Cooks Are Reticent.

Denver, Aug. 12 .- Next Tuesday union waitresses here will ask an answe to their concerted demand for an eighthour day.

Waiters Promise Aid

They have been considering such a move for a month, but have been afraid that if they made such demands they would find their places filled by men, as restaurant keepers would pre-der to pay a slightly higher wage rath-er than grant the eight-hour day.

The men waiters have now agreed to take no place vacated by a woman. As to whether a strike will be called if the demands of the girls are refused there is some uncertainty.

There are a few small restaurants where the help is entirely union, and these places could be shut down en-tirely with little difficulty.

The cooks are opposed to a strike at this time and have recommended that the waitresses defer action for a time. They will not support any strike by the waitresses unless so ordered by the joint board of bartenders, cooks and waitress.

Peter Power's

The alleged news item that was printed in some American papers in effect that Tom Mann, the well known British labor agitator, had lost his standing among the organized workers because he came out uncompromisingly for industrial unionism is absolutely untrue.

Grand Rapids, Mich., Aug. 12.—What may be the beginning of the end of the big furniture strike, came when 200 former employes of the Gunn Furniture having worked out the plans and discompany, who have been out since April 18, returned to work.

The men will receive sixty hours' pay for fifty-five hours' work, and later, it is said, the straight nine-hour day plan will be adopted.

Inasmuch as the Gunn company is a member of the Manufacturers' association and is the first of the big corter porations to break away, other settle
Manufacture.

Today in England Tom Mann is credited, with J. Havelock Wilson, with a complete victory for the marine workers and the almost total demoralization of the Shipping Federation in the recent great strike.

Man's policy was not to call the seamen on strike and permit the dockers and other workers to remain in the demanded that all marine workers walk out or none, that there should be received the campaign that resulted in a complete victory for the marine.

Mann's policy was not to call the seamen on strike and permit the dock-

craft lines.

Mann's bitter attacks upon the old-GETS UNIONISTS' DISFAVOE line union officials were, of course, not relished, and this difference of policy perhaps started the talk that he had lost his prestige—with certain so-called leaders, yes. But while officials of craft unions

But while officials of craft unions furned and fretted at the idea of losing place and power and salaries by an industrial merger, the rank and file listened and grew enthusiastic the more they studied the real principle of "all for one and one for all."

The clash came and the shipping business was paralyzed by an industrial army that moved almost like clock-work, rather than in the old-fashioned way of everybody for himself and the dayli take the hindmost, and Mann was preparing to carry the general strike further when the massiers became triphtened and conceded virtually overything that the men wanted.

We fall to see how the British marine strike can be, in the slightest degree, regarded as a vindication of the out-of-date methods of craft unionism or the effete theories of no-called leaders in Europe or America.

It is difficult enough to win a general industrial strike nowadays with the capital and police power in the hands of plutocratic masters without making claims of the efficiency of little craft and police power in the hands of plutocratic masters without making claims of the efficiency of little craft and police power in the hands of plutocratic masters without making claims of the efficiency of little craft the contests that may have proved advantageous years ago, before modern civilization was possible.

Those who enthuse at the success of the marine workers ought to practice to missing the marine workers ought to practice consistency and advocate industrial unionism to meet the new conditions that lebor must face.

Burden of Taxation Though the heads of the provisions government maintained from the first that it would probably be a long time before the burden of taxation upon the people could be materially lightened, considerable progress has nevertheless been made in the direction of relieving

the appalling poverty of the masses.

The most important of these steps took the form of a correction of the system of paying rents, which were formerly collected six months in advance, in addition to which the government levied a tax upon the tenants in proportion to the amount of rent paid.

SUNSHINE EXPECTED FOR GRANT FARK AIR MEET

Despite a hard rain and thunder storm all night and early today, the weather bureau today prophesied that clearing skies and moderate winds inte this afternoon would permit the open-ing of the great aviation meet, the largest ever held in America.

Thirty-five licensed aviators, with more than 40 of the finest aeroplanes ever seen in the United States, are housed in Grant Park on the lake front where the meeting will be held. Seats have been arranged for 80,000 persons, with standing room for 200,000 more.

Facts About the Labor Situation in California

HE labor troubles on

the Pacific Coast and particularly at the stormcenter-Los Angeles-during the past three months have echoed around the world and have claimed the attention of all thinking men. The series of events leading up to the present time are of such importance to the working, reading and thinking public that they have been carefully collected and authentically described in a pamphlet just from the press. This pamphlet aims to dispel error and give the actual truth and should be of vital concern to every man interested in the cause of labor throughout the United States and the entire world. A Challenge

The very fact that the mercury in the subscription thermometer has been going down, then up and then down again, should serve as a tonic to stimulate you into more aggressive action. It shows, too,

that you haven't that August gain cinched, and you must take a firmer grip and dig into it with a few more pounds of determination.

In fact, this UNCERTAINTY is a CHALLENGE to you hustlers. Way down in you there is slumbering that "do or die" spirit, and when once you enliven that, you can just simply sweep things before you. There will be no limit to what you can do. The things before you. There will be no limit to what you can do. The limit will have the lid torn off and the bottom knocked out:

There are many workingmen, yes in YOUR section, who will not only be willing but glad to subscribe if you ask them. And there are other hustlers all over the country who will spruce up the minute they see that you have started. And, anyway, just because there may be others, that's no excuse for YOU. If there are others that are not just up to snuff, why then that is just when we need YOU the most. But even at that just now we need THEM and we need YOU,

So you see that you can't get out of it.

Well, then GET INTO IT! Stagger them with facts. Start their thinking apparatus working. Keep at it steadily—give them a jolt now and then and you are bound to jar 'em loose some time.

Give yourself a TEST. Say to yourself, "I am going out after subscriptions today and see just how many I can get." Say this to yourself SERIOUSLY and do it CONSCIENTIOUSLY.

Then send in the subscriptions and tell me all them.

Then send in the subscriptions and tell me all about it.

The London Strike

It Marks the Beginning of a New Era in the Labor Movement.

The London strike is won, according to this morning's dispatches. This victory is significant because it shows the POWER OF NUMBERS. In the earlier struggles of labor unions the chief weapon of the workers has been a monopoly of a trade. The strike has been based upon the skill of the workers and won because of the inability of the employers to supply skilled men to take their places. But the London strike was won solely because of numbers.

One hundred and twenty thousand men brought London to it. knees. It was impossible to replace that army of men and the largest city of the world was brought to the point of famine and the employers were compelled to grant demands of the strikers.

The economic wing of the labor movement uses every weapon upon which it can lay hold. It was not unnatural that it should have used the skill of its different trades to win its battles in the past. But the tendency of industrial development is to make all workers

Mechanical progress makes them all mere tenders of machines They are reduced to a common level.

But this in turn awakens a new consciousness among the workers, a class consciousness. Since they must all be alike they decide that they must fight alike, strike alike. It gives them the power of numbers as a new weapon in the place of the monopoly of skill.

But the new weapon is better than the old. NUMBERS have n a GREATER VICTORY than was ever gained by MONOP-OLY OF SKILL. The workers are forced closer and closer together.

All economic development makes them unite more and more, and the more of them there are united in the defense of common interests the more rapidly will they turn their attention to the ballot box and to the Socialist movement as their BEST AND FINAL WEAPON.

What the World Is Saying

With the Help of Our Readers We Talk Back to the Critics of Socialism.

Socialism is the topic of the hour. Almost every ragazine and sper has something bearing on the subject. It is not possible for a daily Socialist paper to discuss and comment on everything that

is said or done for or against Socialism, but today we are going to take up some things that have come to us through the kindness of comrades who have mailed us clippings.

Some time ago we requested that all readers of this paper act as associate editors and send pamphlets and clippings that might be useful to us. They have done well so far and we hope they will keep it us.

Harry M. Nimmo, editor of the Detroit Saturday Night, has taken a squint at the Socialist administration

in Flint, Mich, He says:
"The Socialists are building up a distinctly class spirit inspired by the un-

no lasting peace between capital and labor until all capital and all labor are one and inseparable."

That speaks well, for the Socialists of Filat. Or course we did not create classes, but we "saw them first" and pointed out the fact that one class has the other by the throat. Of course it is rude to arouse the class that is being throttled. It is decidedly unneighborly to suggest that it throw the other fellows out instead of giving up the wealth it produces.

enue of \$500 a month into the public treasury. The heating plant for downtown stores also is ewned by the people. It utilizes the waste steam from the power plant and cuts the merchants fuel bills in half.

A country physician's son, who in this little town is completing a \$50,000 hospital for general practice, has credit for the suggestion that the steam be connected with the water system, so that if the water pipes ever become infected they may be sterilized with live steam. To this municipal light, water and heating plant is attached a private ice factory, which sells pure ice made from sterilized water at 45 cents a hundred pounds. A wholesale ice cream factory—buying real country cream to sell again for 80 cents a gallon—uses the cold salt water from the ice plant.

At one end of town is a public playground, which in winter is flooded for a skating rink. For a city man who remembers the country town as it used to be, a visit to such a community as this is stimulating education. The place, by the way, is Sabatha, Kan.—Collier's Weekly.
