In the event of any other com-panies start operation the union will take the same action. It is a firm rule of the union that where any shipents of coal are made during the spension no union men are peritted to remain at work.

Some feeling was shown by the miners of Luzerne today against the Temple Iron Coal Company. An air-maft of the company caved in and Only engineers and pumpmen and fremen are at work at this colliery, but they were not allowed to make the repairs. The company's of-ficials appealed to the local union and sked for men. The request was turned

Recognition of Union Forced

At a meeting of the union an apcal was made to the district offic when it was explained that the local union was instructed to lend a band. The miners obeyed the order of their officers, but called a meeting of the local union and practically forced recognition of the union. The number of men needed to make the repairs was selected from the body and sent to the colliery. The com-many was willing to accept, because a at to work and when the air shaft again opened they left the col-

Open Letter to Governor Wilson,

The Socialists of Bergen County have put the question of the high-handed action of Sheriff Conklin up to Governor Wilson in the following

open letter:

"Hackensack, N. J., April 7, 1912.

"Hon. Woodrow Wilson, Governor of
New Jersey, Trenton:

"Dear Sir—Local Bergen County,
Socialist party, wishes to direct your
attention to the highhanded and
lliegal actions of the Sheriff of Bergen County in regard to the strike in
the textile mills at Garfeld, Sheriff textile mills at Garfield. Sheriff Conklin has gone further in suppress-ing the constitutional rights of citizens than any other public officer has ever dared to go in this State, with the possible exception of the incidents in Franklin Furnace. 'He has placarded the town with

notices, alleged to be authorized by an ancient statute, absolutely forbid-ding citizens to assemble, no matter how peacefully.

"He has forbidden public meetings on the streets and has caused citizens to be arrested and brutally clubbed for attempting to address such meet

ings.
He has, furthermore, forbidden the owners of every hall in Garfield to rent the same to the members of a certain labor organization, and has thereby made it impossible for strik-ers to hold any kind of a public meeting in that town.
"He has not only taken it upon him-

self to prohibit peaceful picketing of struck shops, but he has forbidden even the wearing of cardboard badges, bearing the words: 'We strike for bread and liberty,' and in a number of cases such badges have been torn from the coats of their wearers by the Sheriff's deputies. Sheriff's deputies.

"He has appointed notoriously unfit ersons as Deputy Sheriffs, as is coven by the fact that one of them proven by the fact that one of them had to be arrested for drunkenness by his own colleagues, and was sentenced to thirty days in Jail.

Furthermore, these deputies, although sworn in as peace officers of Bergen County, are in the pay of the mili owners, who are reported to be paying them from \$5 to \$15 a day for their services. Under such circum-stances, and as the terms of their jobs depend on the amount of dis-order that exists there is a direct inorder that exists, there is a direct in-centive for these deputies to stir up all the trouble they can, and thus pro-voke reprisal from the strikers. We

course, and that whatever trouble has existed in Garfield has been the direct result of the violent and provocative conduct of these so-called guardians of law and order. "In the name of the working men

and when alme of the working men and women of Bergen County we pro-test against such highhanded tyranny, and call upon you to make a full in-vestigation of the facts.

Socialist Talks for Miners.

POTTSVILLE. Pa.. April 9.—"The longer the suspension at the authracite mines continues the firmer do the miners become in their demand for an eighthour workday, and the more persistent do they grow for a recognition of the United Mine Workers of America by the coal barons.

"With these two demands won." said C. F. Foley, the Socialist candidate for Congress, in this district, "the other demands by the mine workers upon the operators will take care of themselves."

Commenting upon the demand for an eight-hour workday, Foley cited some statistics to sustain the righteousness of the demand of the miners for a shorter workday. He referred to the production of coal at the authraclte mines in 1903, which amounted to over \$0,000,000 tous. This was the product of 205 workdays, at nine hours a day, or 1,825 working hours.

"This," continued Foley, "is equivalent to six hours a day for 300 days, about the number of working days in each year, with the Sundays and church holidays and legal holidays eliminated."

Continuing, the Socialist leader said: "At \$3 a day for six hours, or 50 cents an hour, the average earnings would have been \$900 a year for each workingman in and about the mines. This sum is \$200 less than \$1,100, which the younger Rockefeller declared was the minimum sum a father should earn to maintain and educate his family."

Speaking of the high cost of living, Foley commented thus: "In 1902, the year that the Anthracite Strike Commission settled the long miners' strike, seventeen given articles together cost \$10,60, nearly double the amount. mers in New York owing to the that Governor Dix has not yet ed the fifty-four-hour bill for N en and minors, which was passed the Assembly and Senate just bethe Legislature adjourned.

The bill is a thirty-day measure and If it is not signed within that time it des automatically.

The fifty-four-bill was introduced Assemblyman Jackson, who is one the Democratic "labor" members of the Legislature, It is a typical speci-men of a reform measure. It de-mends a fifty-four-hour week for facworkers only. The thousands of gris slaving in department stores are excluded from the bill because, had by been included, the department were owners would have had the bill illed in the committee rooms.

But even in its protection of factors rkers the bill is limited. Thus there a clause in the measure exempting n the canneries from the provisions of the bill. From June 15 to October 15 women and children can be emjoyed more than fifty-four hours a seek.

The exemption was made by the

pformers in response to the protests of the owners of the cannery fac-teries, in which Vice President sheran's family is interested, who feared that their profits would be slightly di-missished if women and children were allowed to slave during the hot summonths only fifty-four hours a

The reformers in their eagerness to any sort of a bill reducing the lours of labor, even for a limited number of workers, permitted the measure until it suited them. But was after the measure had been so fitmed and emasurate there is not fitted to the source of the measure of the measure had been so fitted and emasure lates there is not fitted to the source of the measure that there is not the measure that the m d emasculated there is now prery indication that it will be killed by Governor Dix unless pressure is brought upon him to sign it.

CHILD LABOR BUREAU BILL SIGNED BY TAFT

WASHINGTON, April 0.—The set of Congress creating a bureau of child labor in the Department or Commerce and Lebor was signed today by President Tatt.

The hill was fought bitterly by Senators Bailey, Heyburn and others of the reactionary clique in the Senate.

The act, while it can have no direct bearing on child labor immediately, will help get data showing the extent to which it is prevalent in the United States and evils resulting from it.

Belford, who gave utterance to the sentiment quoted above, and discovered that it wouldn't work, though it is the law.

But the law said in this particular case that it wasn't the law. This was an exceptional case.

Through the mouth of Magistrate McGuire, the Socialists were informed that the application for a warrant was ill-advised, for an awarrant was ill-advised, for

John L. Belford has been virtually invested with the monopoly of inciting to murder and warning all and sundry not to infringe his prerogative in that respect.

In the meantime, let "Messieurs l'assassins commence." the name of love and religion, Johnny Belford, get your gun. The law privileges you, knowing that you don't mean it. It's improper to issue a warrant for you, but it's quite proper for you to incite others to murder us. And we shall do what in us lies to explain just why you are accorded this unique privilege.

EXPLANATIONS THAT DON'T EXPLAIN

Whether Socialism wins or loses in any given locality, the ediorial writers of the capitalist press, not being permitted, or not knowing how to present the actual reasons for such occurrence, are forced to fall back upon the usual explanations that do everything but explain.

When Milwaukee passed under a Socialist phinistration two years ago, every capitalist organ in the land as pained the happening by the statement that the vote that brought Seidel to the Mayor's chair was in no sense a Socialist vote, but one of protest mainly from non-Socialists, who were tired of "machine rule" and the usual corruption and graft associated with it. To this statement the Socialist had no positive answer. He could deny it, of course, and he generally did, but it was largely a matter of opinion on either

And now that the tide has turned and political victory goes to the combined capitalist parties, the same explanation is pressed into service by practically every editorial writer who discusses the mat-ter. The impression is left that the protest having done its work, the protesters of two years ago have returned to their old Democratic-Republican faith. And this in face of the absolute fact that in Milwaukee the twenty-seven thousand "protesters" of 1910 not only appear again as Socialists in the recent electoral conflict, but have actually added nearly three thousand to their number.

This "vote of protest" explanation they cannot see, if accepted. leads straight to the conclusion that the thirty thousand odd votes cast for Seidel on April 2 must be genuine Socialist votes, as, according to their own showing, the "votes of protest" cast for Seidel in 1910 have gone over to the other side. Had the Socialist vote decreased, say, by ten thousand or so, the "protest" view would have een corroborated, but, on the contrary, as it has increased instead,

it simply makes that explanation idiotic.

Yet not a single writer among them has failed to insist upon by use it, and not a single one has contented himself with the true explanation. t, and not a single one has contented himself with the true explana-tion that Socialism is growing in Milwaukee, but has not yet reached the point where it can outvote Republicans and Democrats com-

Just why this should be is perhaps capable of explanation on ment necessarily had to be publicly one of three hypotheses.

Either these editorial writers are hopeless idiots, incapable of the most rudimentary process of reasoning, or-

They assume that their readers are. or

They proceed on the assumption that their editorial work is mere formality, expected by their readers, but not read by them. Which latter is perhaps the most probable explanation of the three.

The old theologian, Bishop Butler, once declared that the study of the Bible prophecies, either found a man an imbecile or made sim so. The worthy bishop lived long before capitalist journalism had attained anything like its present status or he might have discovered that in the development of lunacy, the habit of capitalist socialists are manifesting an exeditorial writing had the Bible prophecies tied to the post from traordinary interest in this particular traordinary inte the start.

We can imagine no more hideous torture for a really intellectual man than to be confined in one of these sanctums and con-defined to grind out this kind of stuff and keep up the pretense that it is the work of a reasoning being. That such a one might be driven to seek oblivion in the use of intoxicating liquors might seem ighly probable were it not for the well known fact that such jouralists are, as every one knows, most remarkable for sobriety and batinence from alcoholic stimulants. How they manage to keep this sort of thing up year after year without getting drunk at leas three times a week is one of the those mysteries we have never yet been able to fathom. Possibly they find sustenance and help in the precepts and practice of the Christian religion, of which the vast majority are devout adherents.

And a woman equally provided can do likewise. Money knows as sex distinctions. It may not always bring happiness, but its possession brings perhaps the next best thing, security—that is, as eng as you can hold on to it.

And that explains largely why Miss Floretta Whaley, of Hemphad, L. I., who eloped five years ago with the married clergyman the parish, and just recently returned from California to visit har relatives in the East, is decidedly unavailable as a "horrible mample" for the use of Sunday School and other pious literature. Floretta is seemingly unrepentant. She is still living in illicit

Socialism and the Men and Religion Forward Movement

As very many of our members display considerable interest in the "Mon and Religion Forward Movement" regarding its aims and objects, we have on several occasions not only referred them to the executive heads of the movement itself, but have given considerable space to recording our own impression of the movement and its object and purpose. To further help the good work along, we are reproducing a copy of a news letter regarding its aims and objects. We are not in the table to "How about the revolt of the miners he says.

Second, to bring back into the fold the great mass of the people, who of late years have been steadily drifting away from the influence of the churches.

The first condition being considered the direct result of the second, the sponsors of the Morgan movement propose to get to its primary chuse. Religion is to be made popular as well as attractive by being made sympathetic. The complaint of the masses that the churches are cold and repelleut in their attitude to the poor and lowly is to be remedied. Patrician and proletariat are to be made equally welcome. The warm hand of fellowship will go out in gladness and joy to all alike. Caste, cliques and the various divisions and subdivisions in which congregations are wont to array themselves in friendship and hostility to one another will be discouraged. Love and cheerfulness will be the order of the day every.

Thus will the great body of people be the fact and and political order.

Readers of The Call will remember explanation given above is substantially the same as that given cities, where Socialism and militant denied or concealed as far as possi-ble by its spokesmen, but it is no doubt calculated that in the smaller cities such caution is superfluous, hence the appearance of this article in the provincial papers. Curiously enough some Socialists seem to have reached the conclusion that it will either check or arrest the growth of Socialism, and therefore to some extent deprecate the publicity we have given it. A sample letter seeming to convey the above idea, is here reproduced, with comment:

Editor of The Call:

"I believe an explanation is due The Call readers for the recent advertise-ments inserted by the Religion and Forward Movement.

"It has been shown-through variou articles in The Call that the reason for this attempt to inject the religious spirit in the masses was to turn their attention from matters political and economic, from the great questions of vital matters of the day, to a field where contention is conspicuously absent and where econe contentment and submissiveness are sung and

preached.
"It has been shown that there is, more than a strong suspicion that Wall Street 'dough' is paying for this educational enterprise. The lambo and sheep are to be asked to send their Wigh Priest' to the chair for another term, and every little trick helps.
