

BITTMAN SCORES ABRAMOVICH AS ENEMY OF SOVIET RUSSIA AND MURDERER OF EUROPEAN WORKERS

(Special to the Daily Worker)
NEW YORK, Jan. 22.—Alexander Bittman, speaking for the central executive committee of the Communist Party before a conference of active party workers here tonight, exposed the counter-revolutionary mission of R. Abramovich, Russian menshevik, who is in the United States organizing against the revolutionary workers everywhere and against the Soviet government of Russia in particular.

Full of facts and information disclosing the true role of Abramovich, Bittman's speech was also a rallying cry to the revolutionary workers to resist and overcome the propaganda of the workers of America with the true facts of Soviet Russia, Georgia, Armenia and the struggle for world unity of the trade unions. Comrade Bittman said:

AS WE SEE IT

BY T. J. O'FLAHERTY.

JAPAN is much more enthusiastic about its treaty with Russia than the American capitalist papers who come to our attention. They do not understand how Japan, a rather weak nation, could allow itself to be bullied by the "unscrupulous trouble-maker of Moscow." But they groan disconsolately. The fact of the matter is that they feel more than ever sure of their similar action on the part of England and France.

As the capitalist papers predict, the movement for recognition will take new form. It is more likely that a Soviet ambassador will be in Washington before next Christmas. It is reported in the capitalist

ABRAMOVICH IS REPUDIATED BY AMALGAMATED CLOTHING WORKERS

(Special to the Daily Worker)
PHILADELPHIA, Jan. 23.—Philadelphia joint board of the Amalgamated Clothing Workers of America repudiated Raphael Abramovich tonight. The request of the socialist party delegates to welcome Abramovich was defeated by a vote of fourteen to ten.

The Hubert policy which wanted the United Soviet Russia and gave aid and comfort to her enemies will be modified radically. The new organization of the Amalgamated is completed for a complete about-face. Owing to the fact that the Russian revolution in the United States is treated, compared to other countries, as the Russian revolution, which is a mere success and while the Russian revolution may win sympathy in some quarters, they cannot live on it.

The labor leaders of Minneapolis have repudiated the Russian revolution. They have repudiated the Russian revolution. They have repudiated the Russian revolution. They have repudiated the Russian revolution.

As you know, the European imperialists have been doing all in their power to bring about the Russian revolution. They have been doing all in their power to bring about the Russian revolution. They have been doing all in their power to bring about the Russian revolution.

EAST PITTSBURGH CHALLENGES BRANCHES TO BET ITS MARK

Can any Workers Party branch beat our record—without having to sell their coats and hats; that's what John Kaspar of the East Pittsburgh, Pa. English branch wants to know. He writes Saturday to the DAILY WORKER enclosing \$5 for insurance policies, bringing the branch's total remittance to \$125, which is over \$10 a member.

"You remember," he asks Morris J. Loeb, business manager, "that in the Pittsburgh general membership meeting I pledged \$100 for our branch and got \$125 more. I will sell my coat and hat. Now that I have all my remittance in, I will send \$125 more. I want you to know that I will sell my old hat and coat!"

"Thanks to the Communist movement, it has given me a little knowledge and plenty of courage with which to carry on party activity. We will bet," he decided that the DAILY WORKER must live, and believe me, it will.

"I claim that the 12 members of the East Pittsburgh, Pa. English branch who are selling the coats and hats are in proportion to their number," writes Caspar Kaspar, "branch in the Pittsburgh, Pa. English branch who are selling the coats and hats are in proportion to their number."

PENNA MINERS TRADE STRIKE FOR PROMISES

To Get "a Conference" with Lewis' Gang.
(Special to the Daily Worker)
WILKESBARRE, Pa., Jan. 23.—The Pennsylvania Miners' Union, 11 U. M. of A., are only beginning to become aware of what happened, or what is continued to have happened, when the general grievance committee and framed a report which is being sent to the district to spread the strike throughout the district at Wednesday's meeting and instead, made some very weak "demands" on the "special commission" sent by John L. Lewis—practically amounting to a surrender.

The weakness of the general grievance committee and framed a report which is being sent to the district to spread the strike throughout the district at Wednesday's meeting and instead, made some very weak "demands" on the "special commission" sent by John L. It was even before the meeting gathered that John L. Lewis' "special commission" had "seen" the leaders of the general grievance committee and framed a report which is being sent to the district to spread the strike throughout the district at Wednesday's meeting and instead, made some very weak "demands" on the "special commission" sent by John L. One unusual tactic worked by the factories at Vienna have gone on strike because they were denied a ballot. In the meeting of the national committee, Minister Fedorov reported that in the Balkan states for a long time wide spread battles between workers and fascists, that in many places based on mass revolts of the workers.

The senate, dominated by Mussolini, ratified treaties with the white guard government of Finland and Czechoslovakia, regarding commerce and navigation. Mussolini is negotiating with the Italian states for a treaty which includes measures for fighting the communists.

The fascist grand council has announced its plans of making a great military force out of the army on the birthday of fascism which takes place today.

WORKERS FIGHT ENSLAVEMENT OF YOUTH

Extract Millions from Toil Worn Bodies

(Special to the Daily Worker)
SPRINGFIELD, Jan. 23.—The most bitter conflict of the Illinois general assembly is looking over the amendment of the proposed twentieth amendment to the constitution of the United States, which empowers congress to regulate child labor. The Illinois manufacturers' association, led by the Young Workers League, is fighting for ratification. The anti-child labor committee favoring ratification of the amendment is "an exorbitant act only." It proposes a particular kind of child labor law which has been widely circulated in Illinois by this committee, "except to fix an unjust and limit beyond which congress may not legislate."

Communist Lead Fight.
The Young Workers League is leading the fight to compel congress to enact laws for the full minimum age of youth in every industry securing an education. The Young Workers League will soon be in a program, and call upon all militant workers to fight for the abolition of child labor and control of industry by the workers to prohibit the exploitation of the youth of the country for all time.

Western Electric Enslaves Youth.
The Young Workers League points out that there are thousands of young workers in Chicago and throughout Illinois who should be maintained by the government so that they may secure an education. The Western Electric company employs thousands of young workers of school age, who are given much less pay for doing the same work than the older men. They are being used for long hours starting their growing bodies with arduous toil. The Young Workers League demands that the government should prohibit the exploitation of the youth of the country for all time.

POOR FISH DUKE BORIS PREDICTS RETURN OF CZAR

He'd Better Stay Away from Madison Sq. Feb. 1

NEW YORK, Jan. 23.—Grand Duke Boris Vladimirovich, second of the late czar, in an interview given recently, predicted the fall of the Soviet regime and the reestablishment of a monarchy in Russia.

It is also reported that Boris is returning to the United States to claim the \$10,000,000 trust which he inherited from the banks of this country and which was evaded from the sweat and blood of the workers and peasants in Russia.

Czarism vs. Leninism. There is but one issue in the war of the bourgeoisie and the proletariat. There is but one factor which Boris does not consider when he makes his predictions...

He is also reported that Boris is returning to the United States to claim the \$10,000,000 trust which he inherited from the banks of this country and which was evaded from the sweat and blood of the workers and peasants in Russia.

America Not a Safe Refuge. Boris and his gang, with their blood-stained loots, have fled to America, which stands today as the center of the reactionaries of the world.

German Communists in Bitter Struggle With "Henchmen of Morgan"

By J. LOUIS ENGDHAL

"TODAY it is not a question of the republic or the monarchy, it is the republic or chaos." These are the words of Deputy Van Kardoff, of Stresemann's party, in the Reichstag. They are the familiar words of fascism. Mussolini uses them in Italy to bulwark his dictatorship. The German republic today is a most energetic defender of capitalism. It is in the hands of the Luthar cabinet that even discusses the return of the monarchy. Every power that strikes a blow at these monarchist ambitions, parading under the mask of a capitalist republic, is attacked as the herald of "chaos."

BORIS BRASLOV ST. L. WAGING HIS BATTLES Plays Don Quixote at Detroit Open Forum

By CYRIL LAMBKIN (Special to The Daily Worker) DETROIT, Mich., Jan. 23.—Boris Braslov, the recognized leader of the Russian monarchists in this country, was the speaker at a meeting of the Open Forum here, an established institution of Detroit, conducted this afternoon, performed a manufacturer and a single laborer. The subject was Revolution and the date of the report. Himself an officer of the czar's army who lost his position and privilege, he urged the workers and peasants government of Russia. Every bit and misfortune of the Russian masses, he said, is the result of the bourgeoisie which inevitable fall predicted. Not a single misfortune did he see in the future of the Russian people, he said, to the world war, to count revolution and the invasion, to the situation of Detroit, conducted this afternoon, performed a manufacturer and a single laborer.

'NONPARTISAN' LEAGUE REACTION OPPOSES MILLER

Help Private Banks by Futile Measures

(Special to The Daily Worker)

BIRMINGHAM, N. D., Jan. 23.—The suggestion made in the league leaflet recently issued by A. Miller, Communist member of the state legislature, that the Bank of North Dakota be made a depositary for all public funds and authorized and empowered to establish branch banks and perform a general banking business in the state, has started a new discussion among League of Private Interests.

Ever since the Bank of North Dakota was started the private interests in the state have been on the alert, taking care that this state bank did not injure their business. For this reason they were scared stiff that the so-called "non-partisan" leaguers might go "too far" with their "experiment" in state ownership and sound the death knell for private banking in the state. However, nothing serious happened in the private banks when the league was in full control of the state government for the simple reason that it did not go "too far" with such experiments. Since that time the league has become still more conservative and even reactionary there is, therefore, still less likelihood now that an attempt will be made to go "too far" in the way of eliminating the private banks.

The Communist Position.

State Senator Ralph Ingerson, league chairman of the house banking committee, thinks that the bill that will "solve" several of the problems connected with the Bank of North Dakota and also opposes the proposal made by Miller. Ingerson says his measure is "practical" and "diplomatic" and tells us that in the banking bill that is introduced in the legislature ought not to bear the name of a Communist because then "it will not get very far."

When informed of Ingerson's statement Miller said he would go through with his plans of introducing his bank measure until a better one showed up. "I'll support any other bank bill that is clearly in favor of the interests of the farmers and the workers, but I am against camouflage and diplomatic tricks that merely fool the masses," Miller said. "We must be frank with the farmers and the workers," he added.

WORKERS SOLIDARITY IS THE ONLY ALTERNATIVE TO THE PERSECUTIONS OF REVOLUTIONISTS EVERYWHERE

(Special to The Daily Worker)

NEW YORK, Jan. 23.—After having murdered the best leaders of the Estonian workers in cold blood and after having arrested more than 1,000 Communists in connection with the revolt that took place after the conviction of some 130 more, the capitalist government of Estonia began a campaign of suppression and persecution. All workers' organizations were closed; trade unions known for their militancy were dissolved. The Communists were hounded from one place to another.

Lithuania did not allow Estonia to get ahead of her. Almost simultaneously with the outbreak in Rethonia, the Lithuanian government started a campaign of terror against the revolutionary movement. Men and women and even children were shot down in the streets.

In both Estonia and Lithuania the capitalist government refused to carry out their deadly plans of cause they had the support of the social democrats. More than that, the social democrats acted as the denouncers to the police of the Communist workers. Men and women were cowardly, treacherous acts by stating that they were compelled to support the capitalist reaction.

Not to be outdone by such little states as Lithuania and Estonia, Romania and Bulgaria.

On the night of Jan. 23, Communist homes and headquarters were raided in Romania. The police of the Bulgarian workers and peasants have not forgotten the slaughter of their best leaders in the uprising of June and September of 1923, and that the conditions within the country have steadily become worse, the capitalist governments have again started to attack the revolutionary labor movement.

Poland has handed over revolution ary members of the sejm (parliament) to the mercy of the capitalist courts. Immunity as members of parliament counts for nothing. The representatives of the workers have no rights in Poland. The result was that a member of the Polish sejm, who had not been a part of the Communist fraction, declared his solidarity with it and was sent to prison.

Why does the campaign take place at this time? Conditions in Europe are becoming worse, and the capitalist governments are looking for other means of breaking the rising revolt of the workers and poor peasants. Why is Mussolini looking for a pretext? The economic conditions do not permit the workers and peasants to live. Why is Horty's hold in Hungary weakening? Because the capitalists are trying to beat down the workers.

Why have the capitalists of the United States started a similar campaign against the workers? Why were two miners in Pennsylvania shot dead in cold blood—and nothing done to punish the murderers? Why are the workers being arrested and sent to court in Michigan? Why are Communist editors being arrested and imprisoned in New York? Why do the capitalists of this country declare that the workers must accept lower wages if they are to get work at all?

There are two reasons for this open campaign against the workers of all countries. First, the economic conditions are making the workers revolt. Second, the capitalists had hoped the Soviet Republic would eliminate the cause of economic conditions. They see that Soviet Russia cannot be beaten. They see that the American union delegation has only good words in praise of the conditions that they found upon their recent visit to Soviet Russia.

Soviet Russia is a menace to the capitalist world. The Communist parties are a menace to capitalist power. Hence everything is smashed. Revolutions must be put behind prison bars, their families must be persecuted, their children must be starved. Then perhaps the revolutionaries will become more "moderate." The revolutionists know no fear—and the high time has come.

But revolutionists must be supported and helped. It is the duty of the American workers to do their very utmost to assist them. The Internation al Workers' Aid and Labor Defense Council have that mission. The financial situation is very bad—and the calls made upon these two organizations are very great. Hence the two organizations arranged a Joint Bazaar, which will take place at the Lyceum, 40th St and 3rd Ave., New York City, from Feb. 11 to 14. The response that the bazaar is meeting with demonstrates that the workers of New York City are moving forward. The bazaar will be a huge success.

Michigan, New York, Pennsylvania, Lithuania, Bulgaria, Greece, Italy, Germany, Poland, Hungary, India, Java, the same perfect union. Workers solidarity is the only alternative.

USE NEGROES IN NEXT WAR, SAYS LONDON "EXPERT"

(Special to The Daily Worker)

LONDON, England, Jan. 23.—Military "experts" meeting here to plan how to fight the next war are studying the book of J. B. S. Haldane, called "The Defense in Chemical Warfare," in which Haldane declares that the next war will be fought largely by Negro troops directed by white officers.

The "experts" are recalling the number of French and English colonial troops slaughtered in the last war, and give much credence to Haldane's prediction. Haldane declares that "colored troops can stand poison gas better than whites."

It is expected that perhaps the colonial people who are to be led to slaughter by the imperialistic nations which exploit their labor at home will make vigorous protest against Haldane's book.

Mellon Interests Reaching Out for More Easy Millions

ALBANY, N. Y., Jan. 23.—The Andrew Mellon interests are making a bold bid for a huge part of about a billion dollars worth of water power in the St. Lawrence river. The New York water power commission, composed of five republicans, has the disposal of this power and the St. Lawrence Transmission company, wants half a billion dollars' worth of it.

According to its published statement in Moody's Manual, this company is controlled by the \$100,000,000 Aluminum company of America, from which Andrew W. Mellon resigned to become secretary of the treasury. His brother, Richard B. Mellon, is still a director and the company's vice-president; G. K. Gibbons is also vice-president of the St. Lawrence Transmission company.

The Aluminum company already has the use of about \$50,000,000 worth of St. Lawrence power on which no real bill has been paid to New York state since the plant began to operate in 1918. It was authorized then as a war measure, provided the assent of the state could be obtained. In consideration of the war emergency New York state waived its rights. Since the war it has unsuccessfully tried to fix a rental, which the St. Lawrence River Power company, said to be controlled by the Aluminum company of America, could be induced to pay.
