DAILY WORKER
for 1925!

AS WE SEE IT
By T. J. O'LEAHY

GENERAL DAWES has come out of his retirement and to herewith makes a statement that is sure to set political tongues wagging for several weeks to come. He is a man who does not want to become the President of the United States. He is a man who does not want to become the President of the United States. He is a man who does not want to become the President of the United States.

PREMIER HERIOTI compromised with the extreme right wing element on the question of the Yalta case, by allowing a French diplomat to represent France at the Yalta conference. He is a man who does not want to become the President of the United States.

THE Greek government has allowed more land for Jewish agricultural colonies along the shores of the Black Sea. Under the care of the Jews, the land is being cultivated. He is a man who does not want to become the President of the United States.

ONE of the most popular events of the season in Chicago is the Revue which will be held this year, on Feb. 28, in Women's West End Club Hall, 37 South Jackson street, corner of Monroe. It will be a masterpiece and the only one of its kind in Chicago of perhaps in any other city. He is a man who does not want to become the President of the United States.

BRITAIN wants to put France under a Dawes plan, in the meantime French politicians are frantically denouncing the suggestion. He is a man who does not want to become the President of the United States.

MAGNUS JOHNSON held formal charges against senator-elect, Thomas J. Schall, because of his inactivity in the race for the senate last November. He is a man who does not want to become the President of the United States.

In order to make war more popular with the masses some war propaganda are suggesting that capital as well as manpower be conscripted in the next war. He is a man who does not want to become the President of the United States.

THINKS MELLON POWER UNDER AS WELL AS BEHIND CAL'S THROAT.

WASHINGTON, Feb. 5.—When the \$150,000,000 public debt was being given to the secretary of the treasury the contract for the building program, was on passage in the House, Rep. Keefe, treasurer of Minnesota, introduced a bill to surrender of the right of congress to say what buildings should be constructed.

"I think it is generally conceded that Mr. Andrew Mellon is the power behind the scenes," said today that if you pass a few more bills of this kind you will make him the power not only behind the scenes but underneath and above and at the sides of it, and only in front will you still be behind the face of Calvin Coolidge. We might as well oblige."

LOCAL CZARISTS SEE BARONESS WRANGLER HERE

Parasites Entertain in White Guardist

At least a dozen former officers of "Baron" Wrangel's white guard, anti-revolutionary army, which was shipped and driven out of Soviet Russia, by the Bolsheviks, are working in Chicago, plotting counter-revolution. It was learned from "Baroness" Wrangel's party here yesterday.

Baroness Wrangel, who is in Chicago raising money for her husband's regime in Europe, had given the party a banquet at the Hotel Waldorf Astoria, 1350 Lake Shore Drive, during which she told of the need for money to care for the white guard troops.

Baroness Wrangel cannot see reporters during the remainder of her stay in Chicago. Miss Rowsey, who has charge of the arrangements for the "Baroness" Wrangel party, told the DAILY WORKER, "She leaves Chicago this morning, to continue her tour to raise funds."

Against Russian Workers
When asked whether Mrs. Wrangel still had hopes of overthrowing the Soviet government by force, her Chicago secretary said, "No, not until the government was itself."

"She believes the Soviet government will collapse in the near future," Wrangel is somewhere in Europe, keeping his ex-wife whereabouts unknown by French and American newspapers. He is a man who does not want to become the President of the United States.

Czarists Visit Here
The "officers," it is declared, have visited the czarists, during her stay in Chicago, no doubt to tell her of the propaganda they have been trying to spread in Chicago against the Soviet government. He is a man who does not want to become the President of the United States.

Plot Against Soviets
It was this little group of former Russian aristocrats, "colonels," "lieutenants," and "captains," who are now plotting counter-revolution in Chicago, are "general," "colonel," "lieutenant," and "captain."

At the time of the first intervention in Russia by the capitalist countries, the workers and peasants of Soviet Russia forced the United States government to withdraw its troops from Archangel. On the French fleet in the Black Sea, the sailors raised the Red flag, and refused to fight the workers of Russia.

SECOND BIG SHIPMENT OF ANTI-DIPHTHERIA SERUM OFF FOR HOME

(Special to The Daily Worker)
SEATTLE, Wash., Feb. 4.—Dedicated for diphtheria strikes home, a shipment of 100,000 units of antitoxin was placed aboard the steamer, Admiral Watson, which left today for Seattle. This is the second huge shipment of serum dispatched to Home in the last four days by Dr. M. Magruder, in charge of public health service here.

The first shipment, sent Saturday aboard the steamer, Alameda, was expected to reach Fairbanks, Alaska, by Seattle. Dr. Magruder will attempt to rush a part of it to Nome by airplane.

The next will be sent overseas by dog team from Nenana, so far will be available in case the airplane is delayed in disaster. All of the antitoxin which went today, is expected to be sent by dog team, as the need for money to care for the flight's success.

STATE TROOPS 6 DAYS LATE ON RESCUE EFFORT

Strike Would Have Got Quicker Action

CAVE CITY, Ky., Feb. 5.—All efforts to rescue Floyd Collins by means of the tortuous, twisted passage known as Sand Key, a pocket of which he has lain imprisoned by a boulder for six days, were abandoned here today.

Under orders from Gen. H. H. Hendrath, commander of the military force established at Sand Key, the tunnel through which Collins entered was closed and work on rescue or sinking the boulder was stopped. He is a man who does not want to become the President of the United States.

Rescue Work Organized.
Admission was denied to all except workers and newspapermen and what yesterday had been upwards of 100 at the cave entrance today had been reduced to a score. He is a man who does not want to become the President of the United States.

He Missed His Lunch
LONDON.—Leslie Hume, British aviator, who flew over the Alps to Warsaw after telegraphing for a special reservation for lunch had not been heard from according to advices from St. Moritz, Switzerland.

Matsudaira Sails Feb. 16.
TOKYO, Feb. 5.—Tsunao Matsudaira, recently appointed Japanese ambassador to the United States, will sail for America on the Shinyo-maru, Feb. 16, it was learned today.

PAWTUCKET, R. I., Feb. 5.—Greenhall Mill employees are striking against wage reductions. Strike vote was taken a week ago, providing that the 400 workers would walk out if the company did not rescind its order.

FRANCE FEARS CHAMBERLAIN'S ANK-SWISS BLOC

Greek Patriarch May Cause Explosion

PARIS, Feb. 5.—It is not possible that the expulsion of the Greek patriarch from Constantinople may cause a severe crisis in the Balkans, involving Greece, France and England.

The French government is reportedly holding a conference next week with representatives of the Balkan states, including Greece and Rumania.

It now appears that the recent visit of Chamberlain to the Balkans and the listing up of the small nations against another purpose besides the Anti-Soviet front was announced by the Balkan governments. France now believes that it was an Anti-French move.

British favors neutralizing Constantinople and placing it under the jurisdiction of the League of Nations. This would be equal to turning it over to the Balkan states and Rumania.

LEONARD WOOD SENDS TROOPS TO PUT DOWN REVOLT OF PEASANTS

MANILA, P. I., Feb. 5.—A threatened uprising of tenants against the large landowners has caused Gen. Leonard Wood to order a company of constabulary troops to a section of Nueva Ecija to suppress the revolt.

U. S. GOVERNMENT "ARBITRATOR" AIDS WAGE CUTS
Breaks Trade Strike For Bosses

BOSTON, Mass., Feb. 5.—Federal Conciliator Charles G. Wood is again being accused of helping the recently organized workers, Thomas F. McLaughlin, president of the United Textile Workers' Union, charges that Wood, "after several hours of strenuous work, induced the striking employees of the Maverick Co. to go back to work and accept the wage cut. He represented the employers and succeeded in breaking the strike. We have strongly protested in a letter to the department of labor."

R. I. TEXTILE STRIKE MAY SPREAD TO OTHER MILLS, PAWTUCKET OUT
PAWTUCKET, R. I., Feb. 5.—Greenhall Mill employees are striking against wage reductions. Strike vote was taken a week ago, providing that the 400 workers would walk out if the company did not rescind its order.

About 200 employees of the Pawtucket Mill are on strike against a two weeks' fight against wage cuts. Workers in other mills in the Pawtucket valley are meeting and discussing the increasing wage cuts and what method of fighting shall be adopted.

5,000 more miners Lose Their Jobs

WEST FRANKFORT, Ill., Feb. 5.—Five thousand miners at Johnston City will be out of employment after Feb. 7, according to announcement today by the Old Ben mine officials that their mine No. 18, would suspend operations on that date.

Officials said they were forced to close down the mine because there was no market for their coal, which they say contains too much fine coal.

GERMAN TEXTILE BOSSES TRY TO CUT WAGES, EXCUSE GIVEN OF "CHEAP AMERICAN LABOR"

NEW YORK, Feb. 5.—Word from Gera and Greiz cotton manufacturing districts in Germany indicates that German workers may lose their jobs because of the widespread wage reductions in New England mills.

German textile workers announce that they will fight any attempt of manufacturers to reduce their wages on the excuse that they must meet American competition.

RICH GREEK OFFERS FUNDS IF GRECO-TURK WIRKERS WILL FIGHT

ATHENS, Feb. 5.—Popular opinion was being constantly fanned today toward war with Turkey. A movement has been started to raise a volunteer army of many former officers are identifying themselves with it.

EXPECT VOTE FOR STONE SPITE OF BITTER ATTACK

WASHINGTON, Feb. 5.—A spectacle without parallel in legislative history of the senate was presented today when the anti-communist warfare of the appointment of Attorney General Harlan P. Stone, to the supreme court was carried into the open on the senate floor.

Communists War on War; 20 Arrested

ATHENS, Feb. 5.—Twenty Greek Communists were arrested here today charged with inciting to civil war against the threatening war between Greece and Turkey.

Try to Dodge Demands Of Unemployed Miners With Fake Steel Jobs

INDIANAPOLIS, Ind., Feb. 5.—The breaking up of mines and failure of the steel industry to employ the 17,000 jobless coal miners to go to Lake county, Ind. to work on the steel mills.

The Vatican is Interested.
ROME.—The Vatican is following with interest the French proposal to reduce the embassy, to be vacated to a charge d'affaires, it was learned today.

MARSHALLTOWN, IOWA, WILL SOON SEE BOLSHEVIKS

Meeting on Friday, 13th at Labor Hall

(Special to The Daily Worker)
MARSHALLTOWN, Ia., Feb. 6.—This is one of the oldest towns in Iowa state but has failed to keep pace with the times who have not mines or gypsum rock in their locality. It has grown, but only as the farm lands have developed and to cover their needs. It has something like sixty small factories employing about three thousand men, and in 1909, it had 11,000 shops about 1909. They also claim the largest steel furnace plant in the world.

The population is about 16,000 and they boast of twenty-two churches, including the massive structure. The visitor is impressed with them and can think of nothing but in terms of the "Bolsheviks" who have not in the "Bolshevik" era. This does not include the salvation army, socialists, etc., who are all represented. They are also the various churches patronized by the Negroes. There are about 200 many churches in Marshalltown.

Expected and Persecuted Montana Senator
WASHINGTON, Feb. 5.—A spectacle without parallel in legislative history of the senate was presented today when the anti-communist warfare of the appointment of Attorney General Harlan P. Stone, to the supreme court was carried into the open on the senate floor.

At the very moment the senate is meeting to consider the appointment of a district of Columbia grand jury also objects a few blocks away to consider evidence designed to re-elect the Montana senator on charges of conspiracy to defraud the government of valuable oil leases. Wheeler's friends among them Senator Thomas J. Schall, a member of the federal trade commission is getting under way in the senate.

Life in this town appears like that of the limited circle of the czar's palace, allowing for the American dress and personal appearance, and is obvious to the observant visitor.

There are thirteen local affiliates of the Trades and Labor Assembly which, with the railroad unions, and others, make about twenty local unions. The largest employer of labor here is the largest employer of labor here is the largest employer of labor here.

Life in this town appears like that of the limited circle of the czar's palace, allowing for the American dress and personal appearance, and is obvious to the observant visitor.

Attorney General Needs More Money to Fight for Employers

SPRINGFIELD, Ill., Feb. 5.—Unable to obtain a quorum because practicing attorneys refused to come for some time, the Illinois general assembly held preliminary sessions today at the Illinois State Capitol building.

The House committee on appropriations will meet next week to consider making an appropriation of \$50,000 for conduct of the attorney general's office. The measure was introduced when it was discovered the funds depleted and nothing on which to operate until the new appropriations are available July 15.

Goos Back to Plunder Workers
NEW YORK, Feb. 5.—Dr. Otto Widfeldt, retiring German Ambassador to the United States, arrived here today on the Hamburg-American line Albert Ballin. He said he would return to the steel and iron business.

MELLON THINKS U.S. SHOULD MAKE LOANS TO RUSSIA

1933

The Paris Pact—A Storm Center

Senator Johnson of California is one of the most dependable figures in American politics, but he has raised an issue in the senate that overclouds in importance all other political questions at this time.

The signing of the Paris agreement and the open support of the United States government given to the allied imperialists as against Germany in the collection of reparations places the United States right in the center of the European maelstrom.

Even in international politics there are no privileges without corresponding duties and the acceptance by emissaries of the United States government of a percentage of the German payments unquestionably obligates it to take part, perhaps a leading part, in the disciplining of all violations of the agreement on the part of Germany.

The real meaning of the Paris agreement is that the United States government has been forced by the House of Morgan to begin the enforcement of the Dawes plan with all that this implies. The period of unofficial and semi-official negotiations and commitments is over. We enter now the period of payment and, if necessary, of coercion of debtors.

The banker backers of Coolidge are now demanding and receiving the price of their support, military preparations show increased activity and American imperialism prepares to establish control over western Europe no matter what the cost to the American working class.

There is little doubt that this one issue will divide the forces in the house and senate, the division taking place somewhat along the lines drawn in the last election—the lower sections of the middle class against the Paris pact, the big capitalists and their spokesmen for it.

The economic interests that lie underneath the struggle now just beginning in Washington are apparent when we remember that Senator Johnson is in favor of the most preparedness against Japan, that California, his state, is a leader in the anti-racial agitation and that LaFollette, Wheeler, Ladd, Frazier and Shipstead all represent the weather farmers and lower middle class.

There are also signs in the form of confused rhetoric in a portion of the labor press that resentment against the imperialist plans of the American ruling class is taking shape, but the ignorance and treachery of the trade union officialdom seriously hampers its development.

The burden of acquitting the American workers with the full meaning of the Paris pact and outlining a program for resistance to the murderous schemes of American imperialism falls upon the Workers' (Communist) Party of America.

From the middle-class insurgents and reactionary labor officials can come nothing but confusion and delay when the final decision for relentless struggle must be made.

Steel Trust Pension Bank

The steel trust distributed \$1,683,920 in pensions last year.

Much has been said and written by rotary and Kiwanis club speakers and subsidized publicists about the philanthropic pension scheme of the steel trust, but the cold figures give little grounds for any display of enthusiasm on the part of workers.

The sum mentioned was divided between 4,178 pensioners—an approximate average of \$375 per pensioner per year. This is certainly no princely sum on which to depend for a livelihood while awaiting death for a body wrecked in the hotbeds of steel mills where the ten and twelve-hour day absorbed every ounce of surplus energy.

A dollar a day in this era of high prices, does not go very far in securing the poorest food and shelter, but this is what the steel trust considers generous for the average ex-employee, also many of them receive far less than that.

The figures show that like all schemes, the pension plan of the steel trust is a cruel fraud perpetrated on the workers and that its chief value is the advertising that this labor hating corporation secures from it.

An ounce of union organization is worth several tons of pensions.

From Coal to Steel

Shutdowns in the Indiana coal fields is to be used to further the steel trust's quest for workers whom unemployment has made willing to accept its terms, according to the plan broached by the industrial director of that state.

17,000 miners are said to be without jobs in this district and thru an arrangement with the Illinois Steel company they will be sent into the Lake county (Illinois) mills as the demand for labor there warrants. Many of the miners' families are nearly stricken and it is interesting to note that

the heads of the families will all jobs for which the steel trust had planned to import Mexicans. This will probably be hailed as a triumph of native over foreign-born workers by the capitalist press, but the workers can be certain that their wages will approximate the amount which the steel trust had planned to pay the Mexicans. In the present economic condition of the steel industry the workers are absolutely at the mercy of the corporation. When we say "unorganized" we refer to the workers and not to the capitalists, because this new scheme for utilizing unemployment in another part of the unorganized industry for the benefit of the steel trust shows a high degree of capitalist organization.

There is one favorable fact in connection with this shifting of labor power from one basic industry to another. It is that the miners who are and if any considerable number of them are recruited by the steel industry, they may form a nucleus around which organization can be built.

We can take for granted, however, that the labor experts of the steel trust have weighed this possibility and concluded that long continued unemployment has sapped the morale of the miners to such an extent that the steel trust spy system will be able to intimidate them for a considerable period of time. Nevertheless, the influx of thousands of ex-miners into the unorganized steel industry is an important development and one which the left wing movement will be able to utilize in its organization campaign.

Of great importance to the revolutionary and labor movement also is this latest concrete evidence of the sympathy of the capitalists to use to the fullest extent the permanent army of unemployed which highly developed industry has created—to use it for its own purposes by throwing the unemployed from one industry to another and thus establishing the keenest possible competition among the workers even in those industries that are working nearly to capacity.

Enemies of Child Workers

A sample of the intelligence of the 100 per cent American legislator is given in the recent remarks of Representative Heinrich of the Nevada state legislature in opposition to the child labor amendment. This intellectual giant said:

"You have taken our women away from us by constituting amendments; they have taken our liquor away from us and now they want to take our children."

The dispatch from which we fill this gem of oratory further states that Heinrich is the father of five children.

Our sympathies are with the offspring of this Nevada statesman and his wife, as if she had survived a few years of marital association with such a tripe-brained individual.

It should not be forgotten that most of our statutes are the product of mentalities such as the mentalities held in leading strings by the blackest forces of American capitalism—individuals ignorant, delinquent, bribed and coerced by powerful capitalist interests so brutal, greedy and arrogant that they refuse to surrender even the right to throw little children of the workers into the jaws of the industrial machine.

Real Communist Activity

Young Comrade Olenberg, working in the Millard Shoe company's works, Brooklyn, New York, had to lock the foreman, was arrested and placed under \$200 bail, all because as a member of the Young Workers League he did his Communist duty and tried to organize his fellow shoe workers into the union.

This kind of activity will do more to win the young workers in labor for the Workers' (Communist) Party than several tons of literature, although written propaganda has its important place. Comrade Olenberg is to be congratulated for his militancy and when such incidents are happening by the score in dozens of shops and factories the workers will gladly follow the Workers' (Communist) Party in the United States.

It is in petty activities of those of Comrade Olenberg that the history of the Communist movement is written and in such manner are Communist parties built.

The DAILY WORKER can always find space for stories of this kind and it looks forward to the day when its columns will be filled with them.

Frontier Heroism

The story of the 1000 mile dog sled race against death to bring anti-toxin to disease stricken Nome is a tale of heroism that challenges the admiration of all.

The scene of the struggle against the forces of nature at her worst, against ice and snow, deadly cold and raging storm, is the last frontier of the American continent—the frontier where pioneer, tradition and pioneer stamina still count for something.

The dog sled drivers risked their lives without thought of material reward and by their courage and sacrifice give the lie to the apologists of capitalism and their nauseous relativism that material reward must be forthcoming—that pay is the only incentive of achievement.

Such dogged courage and self-sacrifice as that displayed by the saviors of Nome exists in spite of the debasing tendencies of capitalism—it is found only on the frontiers of capitalism and of the revolutionary frontier where the working class and its vanguard also battle without hope of reward.

Shop Stewards Reorganization—Some Experiences

By A. G. BOBBE.

THE INCORPORATION of our party, in the matter of shop steward organization, the fact that we are just beginning to reorganize our party in this regard and that we are doing so under special conditions that do not need to be mentioned in this article, makes it necessary to give a study of experiences of other parties from which we can learn much.

I should like to tell some of the experiences of one of our sister parties, and its wonderful start along this line. In France six months ago the party was completely organized along the industrial centers and the shop nucleus basis. And while doing the job, our Parisian party managed to double their membership, and now have 15,000 members, 3,000 of whom were gained in the last two months.

The French party increased its numbers from 53,000 (May, 1924) to 75,000 (today). Reorganizing on the new basis in the industrial centers and at the same time gaining 20,000 members is a real achievement. And it is an important development and one which the new type of organization. Its slogan is "Go thou and do likewise," and damned good too.

How France Reorganized.

Just before I go on to show how the French party did it, I want to give a few facts of achievement. The French party in the same period raised over 100,000 francs for a party subscription, and an additional 800,000 francs (\$145,000) for a special fund.

The French party also increased its membership 11,000, and its new 20,000 party training schools have been opened in the industrial centers. The party has also opened a proletarian school of Paris was raised by Herriot in his speech before the committee of the C. P. and the C. G. T. It is able to mobilize on the streets 200,000 workers, under Communist leadership, because of the shop nuclei

form of organization.

Now as to the methods. A certain shop in Paris with 150 workers had only one Communist who was in a neighboring shop nucleus. When the campaign for reorganization began, his group sent speakers to the shop during the noon hour, and others to sell literature during the speech. It distributed leaflets with him and organized and suggested his procedure. Three months later this comrades had a group of 150 Communist workers organized along this time, and they have their own nucleus now.

The first shop nucleus started in Paris tried to work in the open, and in a short time its seven members were fired. Many comrades were frightened at this, till they realized they did not necessarily have to work openly. According to the Third Comintern thesis before quoted, "Whether Communist nucleus is to come into existence, so far as its own organizers are concerned, will depend on the special conditions of the case."

After this Paris nuclei worked more or less openly, and the plant workers in the factory were to know that a Communist group was at work in the factory, but not the names of those who were in the group. The effectiveness of this change is shown by the fact that the shop nucleus of workers were laid off in one of the largest gun factories in the world.

Another shop nucleus, where they had also set up a shop committee, was laid off because he was also secretary of the shop nucleus. The shop nucleus was laid off because he was also secretary of the shop nucleus.

It is really interesting to see how the new type of party organized in France.

Committee in Action.

One more instance. In the "Galerie Lafayette," the great Paris department store, which has a large London branch, a temporary committee was formed during the organization of the nucleus. It must meet very often, and on every other day for 15 to 20 minutes, if possible, to maintain contact, and so that the committee will be able to sanction whatever the secretary does. This committee has a secretary and an assistant secretary, a treasurer, and four delegates, one in charge of general propaganda, one for the shop newspaper, one for education and one for trade union propaganda.

The secretary is in charge of political and the assistant secretary of administrative work. The committee is also in charge of the 15-man committee, which is in charge of the 15-man committee, which is in charge of the 15-man committee.

Some who failed to come were discharged. When the nucleus reached the store, they were met by the shop nucleus, which was met by the shop nucleus, which was met by the shop nucleus.

It would be very much worth while if comrades who know something of the experiences of our German party in the north, describe the method used by the shop nucleus. We can not know too much about it.

Views of Our Readers on Many Subjects

DAILY WORKER'S Mission.

To the DAILY WORKER: Comrade (writing) in this vicinity the school children brought home voting cards, and I am hereby sending \$5.00 for another one-year subscription. I am a Communist and value of propaganda, and I am glad to see the paper.

Kentucky Miners Unorganized: The miners of the coal fields of Kentucky were the mining of soft coal predominates, as far as I have seen, in the coal fields of Kentucky. The miners are for the most part ignorant, delinquent, bribed and coerced by powerful capitalist interests so brutal, greedy and arrogant that they refuse to surrender even the right to throw little children of the workers into the jaws of the industrial machine.

The DAILY WORKER must not be allowed to die for the want of the aid of the interests of your children. We need the DAILY WORKER more now than ever. The workers and farmers of capitalism think by joining our militia, and they will prove that no matter what persecution, despotism, and tyranny they may suffer, they will stand the onslaught of the organized workers, once we are united political, and industrially as a class under the banner of the Communist International, backed by virile Communist rallies throughout the world, showing fearlessly to the workers the hypocrisy of capitalist justice.

Yours for a million subscribers to the first English Communist daily of America.

Schools in Shadyide, Ohio.

To the DAILY WORKER: Several days ago in this vicinity the school children brought home voting cards, and I am hereby sending \$5.00 for another one-year subscription. I am a Communist and value of propaganda, and I am glad to see the paper.

We know that the minds of young children are poisoned enough in schools, yet they (the capitalists) want to reinforce their bias by giving the aid of their churches. So that the children won't have a chance to think for themselves, and for the interest of the working class.

You, the parents of your children, have a right to raise your voice and protest against this attempt of the bourgeoisie. Don't let them poison the minds of your children.

You! The parents of young children, must teach them how to fight for the interests of the working class and not for the interests of the capitalist class.

If you don't teach them, then you are giving the capitalists a chance to teach them how to fight against the interests of the working class.

So make it your duty to have them join the Young Workers League, the Young Workers League, the Young Workers League, the Young Workers League.

A Lesson For Young Workers: To the DAILY WORKER: My subscription expires before this reaches you. I feel deeply for the loss of my DAILY WORKER, but try as I will I can pay for it only by the house, hardly able to get stamps to write, as I am seventy (70) years old; the capitalist employer looks and says to himself, "I cannot use him, he is too old; he ought to be dead and out of the way."

I have circulated the DAILY WORKER as far as able but have not been able to get one subscription yet. I hope Mr. Bailey of Home will see the subscription list. There are several people who would like to see me for more copies, and my paper goes to the post office. I have had it for a long time, but I have not received it. I would like to see it. I have had it for a long time, but I have not received it.

Yours fraternally, Thomas Rinden, Anaheim, Calif.

It Hit Home

To the DAILY WORKER: Your paper of yesterday published an article under the caption of "Dewey's Plan Began to Hit Home." This article is certainly a most one and deserves wide circulation. I wish we could see it in large type and make it to take up the whole of the page.

We certainly need it more of this kind. I have had it for a long time, but I have not received it. I would like to see it. I have had it for a long time, but I have not received it.

Give us a little more about the internationalization of the textile industry in China? We are the patriot of the American capitalist. Your recent article on "Textile Industry in China" was fine. You have got to smash our crazy hope before you can make us Communist. We don't begin to know yet that anything is rotten in the state of Denmark.

More power to your pen. Yours fraternally, John B. Price, Lansing, Mich.

Shelving space, large, modern, home. One or two men preferred. Cost \$200.00. Phone 4499.

AMERICAN INTERNATIONAL ORGANIZATION

By ALFRED V. FRANKENTON.

The piano playing of Alfred Cortot, with his characteristic treatment of the Orchestra, always reminds me of a line in one of the poems of John Dos Passos.

"I shall I... smash the imitation ivory keyboard that is being played with bare fingers on the strings." For this short and electric Frenchman works a miracle at the piano. He is a virtuoso, a virtuoso, a virtuoso.

Open Forum, Sunday Night, Lodge Room, Ashland Auditorium.

curiously as it was given by its first

orchestra. It was a symphony by an American, Daniel Gregory Mason of Columbia University. The three movements of Mr. Mason's work are unequal, that is to say that the first is the most beautiful, the second is the most beautiful, the third is the most beautiful.

One notable quality of the music is that it has no characteristic one of the kind as American. The music is a masterpiece of composition. The music is a masterpiece of composition.

It was a masterpiece of composition. The music is a masterpiece of composition. The music is a masterpiece of composition.

writes what may be termed American

music. It was a masterpiece of composition. The music is a masterpiece of composition. The music is a masterpiece of composition.

It was a masterpiece of composition. The music is a masterpiece of composition. The music is a masterpiece of composition.

It was a masterpiece of composition. The music is a masterpiece of composition. The music is a masterpiece of composition.
