No Rain, Four Seasons in the Class War Being Fought In American Industry

By J. LOUIS ENGDALH

TODAY, the American slogan phrase, "It never rains, but it pours," applies to the American situation for labor.

If the increasing armies, directed from Paris and London, to make any progress worthy of mention against the Rifis in France, that they should do any better, now that the rainy season has set in.

Reports from the Rif indicate that when it rains, it pours. In North Africa, making it impossible for tanks, big guns and other military equipment, the only advantage in addition to their airplane fleets that the imperialist allies have had over the native defenders.

The last gap of French propaganda proudly paraded the fact that the Rifian army had been defeated. The Rifian farmers would put aside their guns, and go home to do the plowing and the planting, making it possible for the imperialist armies to overrun the country. But this is only a pious wish.

Exactly where had it been when it came to the greatest damage to French plans in Morocco? The Rifian army had been defeated. The Rifian farmers would put aside their guns, and go home to do the plowing and the planting, making it possible for the imperialist allies have had over the native defenders.

Since this has happened to be a war of "Christian civilization" against the "African barbarians," who need the uplifting influence of Christian capitalism, it would seem that lifting off high has made a mistake and thrown his influence into the hands of the enemy. The French invaders thus the fact that the heaviest rains are falling in usually the driest stratum.

Some heathen people usually had special gods to take care of their weather. The so-called "Christian" religion, never provided for weather gods, which the propaganda expects to be a heathen religion. The so-called "Christian" religion, never provided for weather gods, which the propaganda expects to be a heathen religion.

But what matter if they may have in Allah, the Rifis also believe in keeping their powder dry, and speed each bullet with their hatred and opposition to the imperialist powers of Europe. The airplane casualties, for instance, in the Rifian struggle, are the result of the forces harder than were the casualties in the world war.

The quick succession with which powder magazines of discontent are exploding among oppressed peoples—in Morocco, Syria, and in China, with rumblings from India—merely foreshadow the coming of the day when the world, not only the Rif, will be a scene of a new season.

Every American worker must critically eye the seasons of the world. The American worker must critically eye the seasons of the world. The American worker must critically eye the seasons of the world.

When that argument begins at such time in your show tomorrow—show them that the DAILY WORKER says about it.

Revolt!

For the first time in the history of international class solidarity, the workers of the world are revolting against their oppressors, feeling the breath of freedom that is blowing from the East. The workers of the world are revolting against their oppressors, feeling the breath of freedom that is blowing from the East.

THEY ARE AWAKENING! In all the principal cities of China today, the workers are rising to revolt against their oppressors, feeling the breath of freedom that is blowing from the East. The workers of the world are revolting against their oppressors, feeling the breath of freedom that is blowing from the East.

MUST THEY STARVE? THE CHINESE WORKERS ARE WAGING A BATTLE FOR LIFE AND DEATH. THEIR VICTORY WILL BE OUR VICTORY. WORKER EVERYWHERE, JOIN THE BATTLE. WE MUST RALLY TO THEIR SUPPORT AND TO THE SUPPORT OF THE WORKERS OF CHINA.

SO WILL WE. SEND YOUR CONTRIBUTION TODAY, BIG OR LITTLE, TO THE INTERNATIONAL WORKERS' AID SOCIETY, 1553 W. Madison St., London 3, England. D. O. I.
