Problems of the Reorganization of Our Party

By H. PURO, Editor of the Etappen.

Reorganization of Our Party along the lines of shop nuclei and international branches is one of the biggest tasks that our Party has at present.

Undoubtedly we will face many difficulties before this work is accomplished. But we must not be discouraged by these difficulties.

We can no longer tolerate the present situation and geographical basis of our Party. This very fact of organization offers fertile soil for different views and different kinds of actions in the Party matters.

Our Party is in the present organization form, too far away from functioning as an effective apparatus. In order that we may be able to carry out the class struggle, it must be centralized to the point that the membership may be quickly mobilized for every occasion.

Now then, the question arises: How can we solve these difficulties? In the language of our Party, we must be able to speak English. Especially in some of our branches, the English language is not understood.

Therefore, we must be able to speak English. Especially in some of our branches, the English language is not understood.

DEFENDERS OF SOVIET GOVERNMENT

A Call Addressed to All Lowers and Supporters of the First Workers' Republic

For eight years the workers and peasants of Russia have defended their government and their right to abolish exploitation and oppression of the capitalists.

They have fought the armies of the czarist general, who sought to re-establish the rule of robbery and authority in Russia.

They have fought the armies of the imperialist governments, including England, France, the United States, which sought to destroy their government because of the heroic struggle in Russia.

The Locarno Conference

The eyes of the capitalist world are focused on Locarno, the little Swiss city where the foreign ministers of France, Great Britain and Germany will try to reach an agreement which will still, for the time being at least, the conflict arising out of the Versailles treaty and cannot crush German capitalism and life themselves.

The victorious imperialist nations, France and Great Britain, have been humbled somewhat by the cold and obvious fact that they cannot crush German capitalism and life themselves.

The Daves plan represents the attempt of American imperialism to renege the European agreement and prevent the return of the revolutionary tide. To the amount of some \$100,000,000 in actual loans to governments and a still larger amount in the form of commercial obligations, American imperialism is compelled to force some measure of stabilization.

Just as the victorious nations cannot stabilize their national economies without German participation so it is impossible for European capitalism as a whole to stabilize the return of the Socialist Soviet Republics remains to challenge capitalism and to inspire millions of workers and peasants through the world with the actual accomplishment of their own liberation.

The "security pact" which France, Great Britain and Germany will try to establish in Locarno is directed at the Soviet Union. Germany wants the revision of the Versailles treaty and the return of the central fields of Europe. Liquidation of the Danubian countries measures that will restore the possibility of her economic supremacy in central Europe.

But the alienation of the little Eastern states of Poland, Rumania, Yugoslavia and Czechoslovakia while it weakens France, strengthens not only Germany but Soviet Russia. Great Britain was forced to allow the use of these states by France.

Nevertheless some agreement that will bring Germany into the League of Nations probably will be reached and this agreement will mark one more step in the imperialist alliance against the workers and peasants' government of Russia. Great Britain and France, faced with the rising proletarian power Soviet Russia are unable longer to pick and choose. Germany will therefore receive substantial concessions.

The result will be a trend in the border states to more friendly relations with the Soviet Union caused by the increasing difficulty in view of the double crossing by their former protectors, which the governments will have in arousing warlike sentiment among the masses against the Soviet Union.

Parcell's Visit A. A. Purcell, left wing British trade union leader, who is chairman of the International Federation of Trade Unions and organizer of the Anglo-Russian World Trade Union Committee, has arrived at Atlantic City in his capacity of fraternal delegate to the A. F. of L. convention.

Purcell will be the target of abuse by the traitorous officialdom of the A. F. of L. and their masters, the capitalist class, while he is in this country. The traitorous American workers, however, have been so debauched as yet that Purcell will be left to fight his own battles.

Great Britain is reported as "puzzled by the French debt settlement." There is no mystery about it. The settlement means simply that Wall Street is going to collect the German reparations payments.
