NEW WORLD REVIEW

1953 INDEX

Material is indexed both under subject and under country to which it relates. Reviews or discussions of books are listed under "Book reviews" as well as under the author of the book. Reviews of individual movies are listed under "Moving picture reviews" as well as under the title of each.

A page standing alone indicates that the material appears only on that page. If the letter "f" follows the page number (as 14f) it means that the material referred to runs over onto the following page. If it covers more than two pages the inclusive paging (as 41-47) is given.

An alphabetical list of the titles of articles (exclusive of book and movie reviews) is given at the end of the index.

The June and November issues were not published.
