NEW WORLD REVIEW

INDEX 1960

Material is indexed both under subject and under country to which it relates. Reviews or discussions of books are listed under "Book reviews" as well as under the author of the book. Reviews of individual movies are listed under "Moving picture reviews" as well as under the title of each.

A page standing alone indicates the material appears only on that page. If the letter "f" follows the page number (as 14f) it means that the material referred to runs over into the following page. If it covers more than two pages the inclusive paging (as 41-47) is given.

An alphabetical list of the titles of articles (exclusive of books and movie reviews) is given at the end of the index.
