

THE REBEL -- 50c a year.
In Clubs of four or more -- 40 weeks, 25c each.

Entered as second-class matter July 1,
1911, at the postoffice at Halletts-
ville, Tex., under act of Mar. 3, 1879.

**The Campaign
Master Move.**

According to all regular readers of this paper what is written here should not occupy the first column of the first page, it has never happened before and may never happen again. We invariably have a valuable column type in the inside page our call for a campaign edition that will number tens of thousands of copies more than the regular edition. The reason we do not get it in the first column is that we are speaking through the front page rivet the attention of every reader of this paper on the important question of how to reach the greatest number of people. We have a campaign edition, where we have the bulk of our circulation, before the election day. Now that I have your attention let me point out some things that you should know and profit

First the Socialist party, the second political party in the state of Texas, has had only one paper with a large general circulation to fight its battles in the campaign. The reason is that the Donks have so framed politics in Texas that the psychological effect is produced upon the masses of the people that the campaign ends with the July primary whereas as a matter of fact the second party keeps battling until election day in November for the cause of the wealth producer. As a result it is imperatively necessary to reach the greatest number of people that this paper can reach before the workers

Second: The campaign edition of October 10th that has been circulated in tens of thousands over the states of Texas and Oklahoma, has, from positive knowledge I secured from letters received at this desk, resulted in pulling the wool from the eyes of thousands of Democrats that would have otherwise abstained from voting or would have gone to the polls and voted the Donk ticket. Hence we believe that we should wind up the campaign with a still greater edition one that will shock into consciousness of their conditions those still held in the thrall of old party ideas.

For this reason we wish to see every active, red blooded Socialist in Texas fill his pockets with next week's Rebel. Mention, Noble, Debs, Bell, Hunt, Hiesey and others in your conversation. Let it be the last great smash on the face of the Donk before election day. It will be examined full of philosophical and scientific descriptions of conditions as they are. It will go to press on Tuesday, and it will be the farthest point in the cotton kingdom by Saturday, October 31. Because of the fact that election day is the day of the year when we cannot hold our farms open any later than Friday, October 30th as we want every copy to go to the hands of the voters before election morning dawn. For this reason you should order at once for a copy of the Rebel. It will be a thousand and remember the cost covers but little more than ink and paper. The price, 1-2 cent per copy. A thousand for \$20.00, a dollar, a thousand for fifty cents, ten thousand for fifty dollars. See that your order is for the Rebel and tell the trust, come ~~into~~ ^{and} tell the people and then war shall be

If President Wilson refuses to allow the Morgan house of New York to send gold to France, why does he and his congress allow wheat and corn to be shipped to Europe? Is it because the wheat and corn and horses will keep the war going? The Rebel would like to know.

The Socialist party is the second largest party in the state, it has beaten the Republicans, the Bull Mossers and the Prohibitionists in the last election. What will it do when the cream of the State march to the polls on the 3rd of next month?

This issue of the *Rebel* will appear ten days before election. The *Rebel* would like to give its readers some fundamental reasons why they should vote for E. R. Meitzen, the Socialist party's nominee for governor. In doing so we wish to suggest that this applies to all who entered the Democratic primaries last July as well as those who

not to enter that primary.

Now let me review the situation as it exists in the Lone Star State. I am not making a pledge, as we shall pledge ourselves to strain every effort to make the election of 1908 the most honest and the strict line of truth but shall speak according to the written record of events that have been thrown upon the canvass of history and the Democratic party has been in power. With this record before us we will be able to do what the wise men of the east and west have always recommended and that is to judge the future by the experience we have made in the past. To begin: For fully 40 years the Democrats have ruled the roost in the affairs of state in Texas. When Davis administration was ousted, and the Ku Klux Klan put into the carpet baggers and negro domination, the white man of Texas had no support to rely upon. The negroes were in the state, poverty and ignorance were the only resources of the negro. Texas was not so fortunate as the fact that Texas is according to population the most American state in the Union.

Our empire was larger than France or Germany by more than 5,000 miles; our school fund was the largest known to the civilized world. And this school fund was not earned for posterity by the banks but was given to us by mother nature and the fortunes of war! Our population made up of the best blood of the United States because it was pioneer blood and with the spirit of the people shot through with the glorious history of the San Jacinto battlefield and the Alamo, then surely it must be expected that after more than 20 years of sovereignty that Texas would be in the forefront of civilization not only in the United States of America but in the world. The Texas people were the best people on the earth for they were the best land, the best men and the best women that the world has ever seen gathered together within one topographical division.

But Alas! We have been the result after 40 years of unlimited control of affairs in which the United States Government has not played any particular hand except where her faithless sons, like-ably, have betrayed her. Texas is in the most abject position today of any state in the Union. Texas has lost her position as the great state of the West. In the year 1910 the 13th decennial census showed that 219,000 heads of families were tenants on the great domain and 65,000 heads of families were groaning under a mortgage upon which they had but little chance from ever getting down under. Together with their wives and children they totalled more than 35 per cent of the population of the state! This is had enough but, aside with this tenantry there grew the awful spectre of illiteracy and the figures showed that 90 per cent of the population from year to year were illiterate. 98 per cent in education among the 48 states and the only reason that we are not last is because the mountain states of the South, in which reside an English speaking population who have never developed, that at least 1,000,000 of them have never had their eyes on the American flag. That retarded development of the mountains of the South, aided by moonshine whiskey, generation after generation, has kept the people of the South in a state of ignorance and lack of railroad and telephone service in all the world has been the galaxy that makes up our flag so that we are the last and the least of all the nations.

The intellect of Texas is dwarfed. The administration of our county and city affairs is a living breathing denial of everything that is understood by the term JUSTICE. and to crown this

BREAKS INTO THE DAL-GAL.

There is nothing in this political world like persistence. We who hold down the Rebel desk have called upon all the resources of the English language to help us flag the MUZZLED dailies of Texas for refusing to publish one great big news item that possibly interested the European war was the biggest of the year so far as Texas news goes. This news was the victory of the Socialist Party's platform and letter of acceptance of the gubernatorial candidate. Accompanying the platform was the acceptance of the nomination by our governor was a cabinet photo.

ph of our nominee. Eleven days out of twelve waste baskets in this big story and they did not even have the excuse of the war because it was mailed out long before the crowned prince of Austria was shot. Wherefore we howled, denounced, roared and generally stigmatized the muzzled press until at last our pen got under their sides when the letters came into the business managers of the muzzled ones from every portion of the state threatening a boycott unless they published this extremely important news story. Result: Last week we were invited by the Gal-Gal news to send photographs and news columns for tomorrow. And

GAIN 7,000 VOTES
The Socialist party of Norway gained 7,000 members during the past year, according to the annual report, increasing from 43,000 to 50,000. There are 22 newspapers in the country, of which nine are dailies. Twenty-four of these are owned by the party. There are 1,803 Socialists in municipal councils, 45 of whom are women.

The Socialist party never compromises with error to make a friend and never refrains from striking a blow for the fear of making an enemy. That is the reason that E. R. Meitzen is running so strong in this campaign.

frightful history of 40 years mal-administration of state affairs her legislature has sunk so low that for ten years the ship of state has found its crew in warfare, in civil warfare, over the question of whether an appetite for liquor is good or bad or whether said appetite shall be controlled by legal enactment!

The seat of government in the counties of the state is controlled by kings made up of petty officials, who in private walks of life would be lucky if they received \$50.00 per month, but do receive through their control of affairs annual sums that average at least five times as much. They, in collusion with the profit mongers, usually control the county papers while the masses of the people that live outside of the county squares toll in the rain and snow, blizzard in the torrid summer's heat and produce the wealth that make the wheels go around. Such are their sins of commission but what of the sins of omission? This can be best understood by the question the Rebel asked some months ago when they received more answers than any question ever asked by any paper. How, it was asked,

"Germany has an area of 209,000 square miles, Texas has an area of 268,000 square miles; in other words Texas is 57,000 mile larger than Germany. Germany has 70,000,000 people, Texas has 2,000,000. Germany has such an advanced measure of civilization that she is threatening the fortunes of all the other nations of the earth because she has so many inhabitants finds 2,000,000 on the ragged edge of poverty all the time. The population of our country is on the ragged edge of illiteracy side by side with poverty." "If

Of all the answers that came to our desk the one that won the prize said, "The reason that Texas has 2,000,000 people on the ragged edge of starvation with 4,000,000 people within our borders is this: The banker, the landlord and the profit monger of all descriptions has controlled the legislature and all other administrations of this state since its creation. He has made the people too ignorant of cowardly and mean minded to throw off the burden that he knows will have placed on their backs."

The conclusion that we may draw from the rough from this whole situation is simply this: that capitalism is wrong, it must be overthrown, co-operation must displace competition, the beneficiaries of competition must be ousted from the state legislature, the Socialist standard for co-operation must steer the ship of state in the future. Capitalism has broken down even in the present war shows an capitalism has broken down in Texas as the record revealed above shows. A new spirit must be developed among our people. Competition is war, war is hell and hell is war, it means 5 cent cotton and 10 cent sugar, it means illiteracy, it means a subsidized press, corrupt election, a demagogue people. Against this condition which is carved in the record of the life of the Lone Star state, the Socialist party rebellion. That party made up of the home and brain and the brain and the people of this state has a vision as broad as that of a Houston

Naturally these Texans come together to destroy the party that has proven itself unfaithful after a 10 years trial. A new note in the music of the life of the people must be struck, a note of encouragement, a note of progress, a note of liberalism, and this has happened that there has grown up within the past decade a party that has framed a platform that is in line with modern progress and that will in the nature of things be responsive to the overwhelming need for genuine democracy. The party that can supply that need is the Socialist party, it has been tried and tested, it is now the second political party in this state, it is up to the masses of the people to make it the first party on the 3rd of next November.

ITS NOMINEES ARE: E. R. MEITZEN, OF LAVACA CO
W. S. NOBLE, OF MILAM COUNTY.

**TREMENDOUS DRIFT TO-
WARD SOCIALISM**

Citizens of Oklahoma are just awakening to the fact that there is a revolution in progress in this state. Politically the entire Commonwealth has cut loose from its old time moorings. Among the immediate causes for this tremendous change are the following: The cotton situation, the continuous robbery of the tenant farmers by bankers and landlords, the continual rise in cost of the necessities of life, the school boards' exorbitant use of valuations, the outrageous, the parrelling out of valuable oil lands to politicians, the excessive use of the anti-trust laws by the state and the general inefficiency and corruption of the democratic machine now in control of the state.

The greatest factor however has been the steady, thorough dissemination of the propaganda of socialism by hundreds of speakers in Oklahoma for the past seven years and particularly within the past six months. These speakers have clearly demonstrated the exploitation of the workers in this state and no hope of anything better in the future under the present system. They have just as clearly shown that cooperation instead of robbery and competition is the only remedy. All this teaching had profound effect.

administration of state affairs here for ten years the ship of state has been in civil warfare, over the question of good or bad or whether said appetitive!

The counties of the state are controlled by officials, who in private walks of life receive \$50.00 per month, but do receive annual sums that average at least one million with the profit monies which while the masses of the people take no part in the rain and snow, blizzards or droughts produce the wealth that make their firms of commission but what they can best understood by the question "What did we receive more answers than ever? Here it is:

"In 209,000,000 Texas has 7,000,000 other words, Texas is 57,000 miles square has 70,000,000 people; Texas has advanced measure of civilization, all of the other nations of the earth have inhabitants 2,000,000 on the range in the vast bulk of its population of the side with poverty. Why?"

"We owe our debt the one that won't pay. We have 2,000,000 people on the ranges of the world within our borders this profit money from all descriptions of business and all other administrations of this country."

party that can supply that need. It was tried and tested, it is now the second time it was tried to the masses of the people to elect it at the next November.

E. R. MEITZEN, OF LAVACA COUNTY, TEXAS

... socialist agitators, the state office of the Socialist party has distributed... over the state, over two million pieces of literature within the past few months. Never in the history of the state has there been such a steady output of propaganda matter. One of the bulletins thus distributed, "The Interlock—Parasites," written by the socialist nominee for United States Senator, contains a profound refutation of the "class lines" in Oklahoma. Never has the worker so clearly realized who has been profiting from the toil of himself and his

Children
New socialist locals have been organized by students within each past year. The party membership has leaped from 3,000 to nearly 15,000. Whole townships and counties have swung into the socialist column. A recent decision of the Supreme court makes a fair count of the ballots of the workers possible for the first time in the state. Victory for the political party of the working class is within sight in Oklahoma. Every worker owes it to his wife and children to do his full duty by his class on November 3rd.

Did Wilson wash his hands immediately after he shook hands with Ferguson, or did Ferguson wash his hands after shaking

The Gubernatorial Tour.

[illegible]

The first step was for Brownlee to begin a "roar" with the result that the other three trustees reversed their former permit with the remarkable statement that they could not permit the use of the building "unless all four of the trustees agreed."¹⁸

The next move of Brownlee was to get Sheriff Longbottom to deny the Socialists the use of the court house. Their final trick was to spread the report on the street the previous day that the Socialists' nominees would not be permitted to speak in Madisonville at all, in doubt with the hope of keeping the local Socialists and speakers from not trying to arrange another meeting.

But the hamburger scented gesture did not properly gauge the spirit of our comrades. The speakers on being told of the conditions immediately announced that they would talk to the people from the courthouse door with or without permission regardless of consequences.

Comrade Meitzen was the first up, a good crowd being on hand which continued to grow every minute. He began with the statement that he had now been campaigning for a solid motion, speaking for two and a half hours, and that this was the worst instance of suppression of free speech that he had met with and continuing he said, "The reason for deaying us place to speak is plain. The element that has control of your country is afraid that we will perhaps a skeleton in the closet. They do not want you to learn the truth about Socialism for fear that you may break away from the political machine that now has a death grip on you and your county. They have put out themselves up as ears to hear, but they are not. They are all speeches you shall and shall not hear. In the late primary campaign they permitted both Ball

and Ferguson spell-binders to use the courthouse to their hearts content. *These are the people*—the *speeches of a party that is legally recognized*. If you the decent people of Madisonville permit such condition you might as well burn your constitutions and statutes and turn your government to these few ring politicians who come to do your thinking for you. That is the trouble with so many people. You let the other fellows do all our thinking while you do all the work. These fellows know that if we ever get you thinking they will have to do more work and less scheming hence they pull every wire to keep the truth of Socialism from getting to you."

This Sally was received by cheers of approval but at this

Correspondence

Muddled Dank Editor, Muddled Some More.

The Middleman Angus M. M. Stabery, Dallas and Fort Worth, Texas, Oct. 2, 1914. Mr. T. A. Hickey, Dallas, Texas.

Dear Sir:— We want to know here and we are going to know whether or not the party from Texas, democratic nominee for Congress, has been elected. We are waiting for the results of the election. We are waiting for the results of the election. We are waiting for the results of the election.

W. M. Starbary.

Here is our answer to above letter.

Mr. T. A. Hickey, Dallas, Texas, Oct. 4, 1914.

Dear Sir:— Your letter has the right ring to it. I just hope that it is not a case of the cotton mills in every county in the State would have the bag of suspicion as you mentioned. We are waiting for the results of the election. We are waiting for the results of the election. We are waiting for the results of the election.

T. A. Hickey.

To the Thinking People.

Will you put this question up to the readers in one of your big issues. It is a life and burning question that demands an answer from every reader. Readers think that they are capable of doing it. You have in your hand in motion. Then get their questions done. They don't dismiss them until they are disposed and have found them. Then give your readers a full and complete answer. You have in your hand in motion. Then get their questions done. They don't dismiss them until they are disposed and have found them. Then give your readers a full and complete answer.

Why can't they sit down, read the papers and laugh at the insensitivities of Europe? Think deeply and you will find the answer.

As those millions of workers and farmers miserable farmers who are being driven to the limit of their endurance by the greedy capitalists who are making them miserable.

Why can't they sit down, read the papers and laugh at the insensitivities of Europe? Think deeply and you will find the answer.

I hold that these millions of useful people are not failures. They are the backbone of the nation. They are the backbone of the nation. They are the backbone of the nation.

Watts Cotton Mills, Kitchikan, Tex., Oct. 5, 1914. Mr. T. A. Hickey, Dallas, Texas.

Dear Contractor:— Enclosed are 25 cotton mills for which we need 2500 tons of flour. This is a Socialist community. I live in it. I like this as I can give as I am very busy trying to get my farm work done and getting my cotton picked while the price is good so I can get a pair of shoes and a sack of flour when cotton is low. The buyers tell me that it is going to get still lower and getting my cotton picked while the price is good so I can get a pair of shoes and a sack of flour when cotton is low.

My advice to all suffering farmers, laborers and people who live by the physical effort of themselves is to tear away from these methods that have enslaved them and regardless of whether they voted in the Primary to vote with their class, for the reason that the government has broken their contract and even under the existing laws, a contract is not binding. It is to give the other party the same right, therefore there is nothing binding. The question of violation of law. That scoundrels have been paid by law, the government has broken their contract and even under the existing laws, a contract is not binding.

J. J. Campbell.

W. M. Starbary.

Here is our answer to above letter.

Mr. T. A. Hickey, Dallas, Texas, Oct. 4, 1914.

Dear Sir:— Your letter has the right ring to it. I just hope that it is not a case of the cotton mills in every county in the State would have the bag of suspicion as you mentioned. We are waiting for the results of the election. We are waiting for the results of the election. We are waiting for the results of the election.

T. A. Hickey.

To the Thinking People.

Will you put this question up to the readers in one of your big issues. It is a life and burning question that demands an answer from every reader. Readers think that they are capable of doing it. You have in your hand in motion. Then get their questions done. They don't dismiss them until they are disposed and have found them. Then give your readers a full and complete answer. You have in your hand in motion. Then get their questions done. They don't dismiss them until they are disposed and have found them. Then give your readers a full and complete answer.

Why can't they sit down, read the papers and laugh at the insensitivities of Europe? Think deeply and you will find the answer.

As those millions of workers and farmers miserable farmers who are being driven to the limit of their endurance by the greedy capitalists who are making them miserable.

Why can't they sit down, read the papers and laugh at the insensitivities of Europe? Think deeply and you will find the answer.

I hold that these millions of useful people are not failures. They are the backbone of the nation. They are the backbone of the nation. They are the backbone of the nation.
