

LABOR DAY AND CAPITAL DAY.

(By John M. Work.)

Labor Day comes on the first Monday of September. Capital Day occurs on the Tuesday following the first Monday in September.

On Labor Day, we working men put on new shoes back and tell ourselves we are the people.

On Capital Day, millions of honest workmen vote for capitalists and we are the people.

While the capitalist laughs gleefully, and says, "What an honor to me and my kind to have a day set aside for me, and my kind, to exploit the clean food labor is, anyway."

It is in the interest of the capitalist to keep on exploiting the workers out of the most of the value of their labor.

It is in the interest of the workers to put an end to exploitation.

Exploitation of the workers by the capitalist is the core and essence of capitalism. It must continue so long as capitalist control.

The capitalist are numerically weak. Their own votes are not sufficient number to continue exploitation one hour.

Exploitation is continued by the votes of the workers and the votes of the workers vote to the ballot box on election day and vote to keep the labor leader.

Therefore the capitalists have control of all the public power. When they use this public power to oppress labor, why should labor complain? Labor voted for oppression.

When they use this public power to oppress labor, why should labor complain? Labor voted for oppression.

When a capitalist organizes or president orders out the troops to strike the workers and to assist the capitalists to win a strike, why do you swear at him? You tell him that you are the people.

When the president hires time comes and your wife and babies are in the hands of the capitalist, you voted to have the capitalist.

The United States is a popular government. All statements to the contrary notwithstanding, the people rule. Their will, as expressed at the ballot box, is approximately intact effect.

You get what you vote for.

So long as the workers continue to vote for exploitation, but lack injunctions, blacklists and hard times, they will surely get them.

When they quit voting for their enemies' interests and begin to vote for their own, all these outlaws will disappear like the mist before the morning sun, and Socialism will begin.

There is no other way.

The Republican, Democratic and Bull Moose parties get their funds from the capitalist.

They are run in the interest of the capitalists.

The Republican party gets its campaign fund from the working class. It is run in the interest of the working class.

The Republican, Democratic and Bull Moose parties stand for the continuation of exploitation, military oppression, injunctions, blacklists, poverty and all the miserable results of capitalism.

The Socialist party stands for the abolition of exploitation, poverty, and all the miserable results of the wretched regime of capitalism.

The howl which we hear in favor of the annihilation of the trust is the doleful wail of the middle class. The capitalist class want to smash the trusts so that they can exploit labor themselves, instead of letting the big capitalists exploit the lion's share of the swag as at present.

Is there any difference to you whether the hand who you carry a rifle or a pistol?

Well then, it doesn't make any difference to you whether the Republican or Democratic or Bull Moose party wins. No matter which of them wins, you have to hold up your hands and be stripped of the bulk of the value of your labor.

HE GRIMACER REAPING HARVEST.

While farmers are pious for the fertility of their rulers and for the commercial expansion of their nation, the grimacer reaps the bulk of the harvest. He is the harvest. From the blood of the workers he coals millions.

He is used to warty legs he should set within range of one of the guns himself.

POWERS MAKING FOR SOCIALISM.

(By Martin Luther Weaver.)

Of the modern forces making for the Socialism, the two most potent are the present time and the military.

No modern nation could exist without an army and navy and civil and military. Every nation is a military. Every nation is a military. Every nation is a military.

The object of arms is to protect the state. The object of arms is to protect the state. The object of arms is to protect the state.

It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

No state was ever satisfied with its present armaments. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

There is a limit, however, to the increase of armaments. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force. It is in the interest of the state to have an armed force.

Memoirs of Napoleon

In Three Volumes

The personal reminiscences of Baron de Ménéville, for thirteen years private secretary to Napoleon, reveal the inner life of the great emperor, many enlightening and interesting side lights on the character of that great leader.

Dr. McDevall's descriptions have the frequency and interest possibly because he was an actual eyewitness of the scenes and incidents of which he writes. Their reliability and historical value are indeed proved by the fact that the very conservative French Academy publicly recommends them.
