DEEP RESENTMENT IN TEXTILE SELL-OUT

Paterson Protests

Paterson, textile storm center for decades, conducted its sector of the battlefront in exemplary fashion. Thirteen thousand deserted the mills on the first day of the general strike. Ihroughout the duration of the strike every at-tempt was made to involve every silk worker in the city and vicinity. Mass picketing, flying squadrons demands upon national leadership for more aggressive strike tactics, were of everyday occurence. Under the leadership of Eli Keller, flying squadrons struck several times at the mills in Passaic. Information on the strike developments throughout the nation and strike instructions were given every morning at the strikers mass meeting.

Dyers Out Keller Dimanded

From the very first day of the strike, efforts were made by the Paterson Strike Committee, headed by Eli Keller, to bring the dyers, who numbered over 15,000, out on strike. National Strike Headquarters in Washington was been strike the dead, by telegraphy of the dead, by telegraphy the strike the strik grams from Keller demanding the immediate calling out of every dyer. The persistent battle by Keller for involving the dyers kept the wires to Washington hot.

Attitude To Winant Report

No sooner had the presses spew-ed forth the report of the Winant Board, when Eli Keller exposed the entire report in a stirring speech to the strikers on September 21st. Keller's attack on the report was followed by his proposal to the strikers that a telegram be sent to Gorman and the National Strike Committee rejecting the Winant proposals. Unanimously adopted, the following wire was dispatched to Washing-

Eli Keller

Keller, Against Strike's Termination

When orders arrived from Gorman to terminate the strike the matter was taken up at a meeting of the Executive Board in Paterson on Sunday. Once again Keller made his fighting position clear: "I am against calling off the strike: I am for a fight to the finish." Again he made a slashing attack on the Winant Report characterizing it as "the greatest run-around" given workers under the New Deal He scored Gorman & Co. for their strike tactics and ending of the struggle. In reply, Schweitzer glorified the Report as a "complete victory" for the union and demanded the immediate return to work of a'l strikers. The Executive Committee determined to carry out instructions to end the strike, over

Keller's v gorous opposition. Paterson Situation Today

most bitter strife, official representatives of the Communist Party of Germany (CPG) entered into a conference with official represen-tatives of the Communist Party of

Germany (Opposition), (CPGO).

The conference, held under instructions of the Executive Committee of the Communist International, (ECCI), and the Buro of the International Communist Opposition (ICO) marks the first serious break in the violent hostility of the Comintern to the ICO and its various sections.

While not bringing about world Communist unity, the conference is of tremendous significance in that it sort of breaks the ice, and paves the way for more comradely relations between the two tendencies of the international Communst movement.

Two questions were taken up and acted upon by the representatives of the CPG and the CPGO.

New York Textile Workers

Score Strike Leaders

The Joint Silk Strike Commit-1 the workers, including those in the

After more than six years of These were: (1) the problem of ICO, which endorsed the recent apunity of the revolutionary forces above proposais. in Germany. In substance the following agreemnt was arrived at and decisions made:

> (1) The CPG and the CPGO are to issue appeals to their respective memberships emphasizing that hereafter the two organizations are agreed "to cooperate in the preparation of mass actions and to form organs of joint struggle all over the country for this purpose.'

> (2) "To begin jointly the building of illegal class trade unions.' Agreement on this point is of particularly vital import, because, until recently the CPG had rejected this proposed policy for broad non-partisan trade unions and, instead, had clung to its policy of Red Unions.

This agreement is haded by the

united proletarian action against peal of the CPGO (August 20), to Fascism and (2) the question of the CPG embodying precisely the

During the negotiations one of the representatives of the party brought up for discussion the question of the re-unification of the revolutionary torces. The ICO and CPGO had constantly kept in the foreground the problem of Communist unity. The party delegates rejected the idea expressed in the letter of the CPGO that the Party "nas now corrected its false tacues along our (ICO) line.' They maintained that democratic centralism prevailed in the party, that the former trade union and united front tactics of the ECCI and CPG were fundamentally cor-rect and that "the present changes in the tactics of the Party are a result of the changes in the objective situation." The party representatives finally demanded a statement from the CrGO, particularly on the ground of "having tought against the Party for

In reply the spokesmen for the CPGO declared:

(1) "The differences (between

Sweeping Victory Claim a Fraud

by Saul Held

"Stabbed in the back!" This is the unanimous verdict of every enlightened textile worker and member of the labor movement, as onehalf million human appendages of spindle and loom trudge back to the mills in defeat. Sold out by their union leadership. Not a single demand won, above all no union recognition! Not a single crumb was wrested from the greedy and bloody clutch of the textile barons. Textile's greatest battle culminates in the most brazen betrayal perpetrated by the labor lieutenants of capitalism. Green, Gorman & Co., failing to strangle the surprising and unsur-passed militancy and response of the textile workers from within, sold out completely as the mill owners through President Roose-

velt cracked the whip

The rumor being spread amongst
the textile workers that, the strike was receding and that the national leadership of the United Textile Workers had no choice but to end the strike, is a patent fraud. For even in the South, where a few thousand returned to the mills, new recruits in additional thousands poured out of the mills and joined the strike. Mills were being closed on the very last day day of the strike. Such falsehoods cannot exonerate the national leadership's betrayal.

Government Strike-Breaker

Upsetting all early calculations, the general strike in textile brought a mass outpouring of workers over the half million mark on the longest single strike battle-front in recent times. The apple of the New Deal's eye, the highly touted textile code and the political capital of Roosevelt's politicians reached a disastrous low, as the strike spread and militancy of the strikers assumed victorious magnitude. Confronted by Unionism in the South, a national strike heading for victory, the mill owners intensified their demand on Washington to intervene. Roosevelt's claim of "non-intervention," in the early days of the strike, was only nectar for the gullible. As commander-in-chief of the armed forces of the nation he sanctified the brutal murder of over a score of strikers by the National Guard. Under the cloak of "nonintervention" plans were speedily in execution for open action.

Came the Winant Board and its complete vindication of the textile barons. The Report rejected every one of the union demands and promised nothing but more investigation-more run-around. Roosevelt had delivered the goods to the Textile Institute; the Green & Gorman machine feverishly grasped at the opportunity of a sell-out; Peter Van Horn found no further necessity for exhorting the mill owners to stand firm until "the strike is broken.'

'Little Napoleons" Betray Days before the strike ended,

the trade paper, the Daily News Record, reported behind-the-scenes negotiations between the union leadership and the mill owners. It was reported that the great problem was that of finding a way for face-saving. This fact rips the pretense from the Greens and Gormans: they were ready to betray (Continued on Page 2)

are discriminated against and are still on strike. **ROOSEVELT TALKS**

tee of New York, including the Broadsilk, Silk Ribbon and Label Weavers Locals of the U.T.W. voted unanimously to reject the Winant Board's report as more runaround for the textile workers and demanded of the National Strike Committee that the strike be continued until the basic demands of the workers were won and that other trades such as the dyers, be called out on strike.

After the betrayel and desertion of the strikers by the National Executive Council, the N. Y. Strike Committee protested against the action of the U.T.W. leaders and decided to arrange the return to the shops in an organized manner. The decisions of the strike committee were unanimously endorsed by the strike mass meeting.

The entire class-collaboration policy of the Gorman-McMahon-Rieve leadership, with its reliance appropriate and impressive." on arbitration, on the NRA and man, the reporter for the strike committee.

Workers in several shops have returned to work, but fully half

ploying about 300 workers, all workers were reemployed. These small shops, however, attempted to reabsorb its employees on the condition that the wage-scale be lowered. Keller instructed these workers to stay out of the shops declaring them on strike, while arrange ments were made to strike until conditions were granted. Strikers are furnished with relief and other aid by the Union. The Union is negotiating with silk employers to retain intact the pre-strike agreement.

Mallinson Silk Co., the Culvers Silk Corp., and the Ratner shop

INDUSTRIAL PEACE

New schemes to tie labor hand and foot are in the making. In a radio address on Sunday September 30, President Roosevelt proposes the "ending of industrial warfare". Conferences with employers and with labor are soon to be begun for the purpose of establishing "a specific period of indus-

ON THE NEW LINE OF THE COMINTERN

Profound changes are taking place in the line of the Communist International. These changes affect some of the most fundamental issues that have separated the official Communist Party and the Communist Opposition: the united front; attitude towards the Socialist Party; the trade union question.

UNITED FRONT IN FRANCE

In France, there is a united front of Socialist and Communist Parties such as we have been advocating for years and which we were denounced for advocating. The united front, despite serious opportunist errors (the nonaggression pact), has strengthened the fighting forces of the proletariat.

LIQUIDATION OF RED UNIONS IN GERMANY

In Germany, the central committee of the Communist Party has instructed its members to drop the ill-fated theory of social-fascism. It has entered into a bloc with the Communist Opposition and a united front with the Social Democratic underground groups, for the joint building of class trade unions. It has declared itself ready to liquidate the Red trade unions and the R. G. O. (corresponding to the T.U.U.L. in America) and pledged itself not to try to split the class unions to form new "Red Unions." In short, it has adopted the main outlines of the tactical views of the Communist Opposition in Germany on the United Front and Trade Union questions.

More important still, having adopted the trade union line of the Communist Opposition, the official party in Germany found it necessary to confer with the Communist Opposition which has not only advocated but taken the lead in building underground non-partisan, class trade unions in Germany!

C.P.G. CONFERS WITH "BRANDLERITES"

Yes, comrades, two representatives of the German Central Committee have had official discussions with the two outstanding leaders of the German Communist Opposition, with those two leaders whom you have been taught to hate (without knowing anything about them), with those two leaders who were denounced as "renegades," as "counter-revolutionists," as "paid agents of Hitler"—and the conferences have resulted in an agree-The Communist Party of Germany and the Communist

Party of Germany (Opposition) have agreed to work

BERS OF THE COMMUNIST PARTY OF THE

together in the building of underground class trade unions. to work together in developing a united front with the Social Democracy. The Communist Party and Communist Opposition have further agreed "to cooperate in the preparation of mass actions and to form organs of joint struggle all over the country for this purpose.'

A STEP TOWARDS COMMUNIST UNITY.

Comrades, this will be gladdening news to all who value the unity of the working class and the unity of the Communist movement. This agreement on such important tactical questions, and this comradely collaboration in struggle, are important steps which should lead to the elimination of further differences and to the eventual reuniting of the Communist movement.

CHANGES IN MANY LANDS.

There are many other signs of a correction of the fatal sectarian line which has been handicapping the growth and effectiveness of the Communist International and its

In England the party is proposing a united front to the Labor Party and is taking steps to lead the Scottish "Red" Miners Union back into the general miners' union.

In Austria the united front policy the Communist Opposition has been fighting for, has been adopted, and the Party and the fighting force of the workers are growing leaps and bounds.

There are important changes in the tactical line in Belgium, Italy, Spain, Denmark, Czechoslovokia, and a number of other countries.

WHAT OF THE UNITED STATES?

Even in the United States there are faint beginnings of the abandonment of the sectarian tactics of the socalled "united front from below" and of dual unionism. In the past, the party leaders worked overtime to convince the party membership that our proposals in that direction were "opportunist," "left social-fascist," even 'counter-revolutionary." Now they are trying to make a few little changes in accordance with the changing line of the Comintern—half-hearted, reluctant, piecemeal changes. The changes are not a result of discussion by

LETTER TO THE CENTRAL COMMITTEE AND MEM- the party membership. There is no frank acknowledgment of error. No explanation is offered as to why the old sectarian line is being abandoned. No pledge is given to the working class that it will be abandoned for good. There is no honest, thoroughgoing correction of the line. A party of democratic centralism changing its basic tactical line without discussion or decision by and re-education of the membership! A party of the masses trying to change its line for mass work in the dark, by diplomacy, behind the back of the masses! This was not Lenin's way of correcting an error, of re-educating the Party, of regaining the confidence of the masses. No real change can be made in such fashion. No guarantee can be given by such methods against new errors.

Is it not high time that the Party tackled not only the errors, but the roots from which the errors sprangthe lack of inner party democracy; the expulsion of those who tried to criticize the sectarian line within the framework of democratic centralism; the handing down of all decisions from above, with discussion only as to how to carry them out; the mechanical transference of tactics and "left" and "right" turns appropriate to the Soviet Union to all other countries without consideration of differing objective conditions?

THE SEVENTH WORLD CONGRESS

The Seventh World Congress, four years overdue, has just been postponed again. It has been postponed, no doubt, to make room for further changes in the line of the various parties. Comrades, this should give an opportunity for a real discussion in the various sections so that the decision of the Congress may come as a result of genuine collective discussion and decision by the various

Comrades, ask for, demand (it is your right and duty as Communists) that a discussion of the sectarian line and errors of the past five years precede the Seventh World Congress. Discuss the "new" line (we put "new" in quotation marks because it is really a return to the old Leninist line that was abandoned at the time of our

You will be told by party leaders who approach these changes factionally, that: (1) There is no change of line, and (2) that the sectarian line was correct up to now (Continued on Page 7)

New Policies or Old Fallacies?

During the last five years of un-paralleled opportunity for Com-munist growth, the C.P. of the U.S. was steeped in insane, if not infantile, leftist sectarianism, in bluff and bombast, in grandiose self-delusion. Recently, new winds began to blow in the Communist International. The suicidal theory Austria some weeks before the internment of Dolfuss. A short while after the rise of the Doumergue government in France, the Comintern under the pressure of objective conditions and under the lash of the constructive criticism of the ICO, made a complete rightabout face and turned to united front action. Finally, even in Germany, which can rightly be called the graveyard of ultra-leftism in Communist ranks (graveyard i the sense that here we paid the highest price for the false sectarian line and in the sense that here the whole course of the Comintern met its Waterloo), there came a fairly complete break with the present game of bluff, a serious diagnosis of the ailments of the Communist sterile tactical course and a return to the Leninist strategical line ad-

These the T. U. U. L. and other indedent, shall have authority to administer the labor provisions of again, better organized and under ence." Here we find the Central

ganize the unorganized." (William Z. Foster, the Communist. January, 1929.) Incidentally, would Comrade rowder to-day agree with Foster's

lowing boast? "The develpoment of this struggle (the miners' strike) under the leadership of the National Miners Union, fully supports the program of building the new unions. It is a blow in the face to such people as the Lovestoneites. All the croakings that the NMU is isolated from the masses, has been dealt a deadly smash. . . It would be interesting indeed to see Lovestone come here and tell the workers to go back into the strikebreaking UMWA." (From the Communist of July, 1931, William Z. Foster.)

And, of course, we would espe-cially appreciate if Comrade Stachel, that venerable leader of the American trade union movement, would to-day express his judicious opinion of the following evaluation made by us as against Lozovsky's, which he then denounced

"There could be nothing more fatal to the American labor movement in general and to the revolutionary movement in particular than the illusion that the A. F. of L. can no longer grow and has no future. It is silly to look at the existing American Trade union movement with its 3 000,000 members as stationary, unchangeable. . . The outlook clearly for an ingress into the trade unions, for sharpened class conflicts involving millions of workers in trade unions as well as millions of sorely pressed unorganized. In the course of these struggles the unorganized are likely to pour into the unions a decisive force, the leaven germinating a new spirit of struggle, militancy, and power in these organizations." (Work ers Age, May 14, 1932.)

What Kind of Work In The A. F. of L.?

Feebly and desperately the Central Committee strives to become were to tell the membership of inside to smash them? To do what the Party what he now thinks of Lozovsky proposed? The Central the following statement made by Committee of the Party must im-Comrade Foster in January, 1929: mediately make clear to the "What is the future of the membership and to all workers A. F. of L. and the craft unions whether it still accepts the following instruction of Lozovsky, the head of the Red Trade Union In-

> "There is no need to shout from the housetops 'destroy the unions' as was done in Germany. But that we want to break up the reformist trade unions, that we want to explode their discipline, that we want to wrest from them the workers, that we want to explode the trade union apparatus and to destroy it-of that there can not be the slightest doubt." (Lozovsky in the RILU Plenum, February 15,

Is this what the resolution means when it speaks of "the tremend ous importance of developing "It is no part of the business work in the unions?" Fortunately, of any industry to support any we need not wait for another vernumber of employees, or to pay hose document. In the wooded footany rate of wages."

hills of this resolution we can see what's at the bottom of it all by lifting the camouflaging fol age. The great textile strike is over Here we find the Central Comthe cotton, silk and wool code. Such a board would be illegal."
Hunger and misery may stalk

The Resignation of General Johnson

The news has just come, in the polite language of the press that General Johnson has resigned from Richberg and Swope - Heirs Apparent writer this was in the offing for a long time. The general is too out-spoken in his anti-labor policies quasi-public unionism. Roosevelt's the NRA. In the opinion of the for the administration's comfort game is to say nothing and ap-His diatribes against labor, in the pear impartial. And, at the same form of condemning strikes in general and the Textile and San Francisco strikes in particular, correspond in essence to the antilabor nature of the NRA. The general's bluntness however does not fit in with the administration's diplomacy and subtlety in softsoaping its policies against labor. It isn't good politics, according to arouse the suspicion of workers policies, to the administration. If

Here a number of embarassing questions appear on the scene. What is this "United Front" that the resolution speaks of? Is it the united front between the UTW with its 300.000 members and the NTWU, with its incalculable membership? Is it the united front between the non-existent miners' unions of the TUUL (NMU) and the hundreds of thousands in the ral Committee strives to become U.M.W. of A. affiliated to the a little more practical thru a new A.F.L.? Furthermore, how can the note, somewhat less jarring to the Central Committee explain away ear. In capital letters we find its its present position of recognizing resolution calling on the members: (against its will, it is true) the growth of the A. F. of L. when but a few years ago it denounced us the reformist unions." What kind from Moscow to Hollywood for of work? Constructive or destruct-resisting the theory that the A. F. ive? Green's Statement **Demoralized Strikers**

But the criticism I have of you utterances in connection with the San Francisco strike goes deeper than mere disagreement with your contentions. By implication, you reproach me for having issued my criticism of your statement of July 18 to the capitalistic press. May fact that your statement attacking not merely an individual labor leader but the whole labor movement of San Francisco had been issued by you to this very same capitalistic press a few days be-

Suppose that you were right in your belief that this particular strike was uncalled for and utterly inadvisable. Suppose even that you were right in your belief that all general strikes are undesirable and futile. The fact remains nevertheless, that the strike was there anyway, authorized and participated in by the whole bonafide labor movement of San Francisco, by all A. F. of L. unions. The workers were fighting with their backs to the wall against the combined hosts of the employers. Great consequences for the whole labor movement hinged upon the issue of this struggle. Did not the most obvious considerations of union loyalty decree that, while the battle was on, the ranks of labor must stand solid in support of the struggle, reserving for a later occasion a discussion of such general controversial issues as to whether the fight was worth-while or timely or wise? But at the most critical point of the struggle, you issued a statement to the capitalistic press disavowing the strike in the name of the A. F. of L. that your statement, spread from coast to coast by all the publicity agencies at the command of the employers, helped materially to de-moralize and dishearten the strikers and to confuse labor generally, thus giving the San Francisco employers and the open shoppers and union-smashers everywhere a some suggestions for a program to enable the trade union movement to meet the very serious duty to let the labor movement situation facing it today. duty to let the labor movement and especially the San Francisco Strike Movement workers know that your attitude was not representative of the whole American Federation of Labor, last year and a half, I believe we led. The coming convention should that there were those in the A F

Firm Policy To Defeat Boss Attack

The issues raised in your letter and in this answer of mine are of the most vital consequence to of the most vital consequence to American labor. The trade union movement today stands at the cross it as a result of the situation created by the NRA. The policies of class of the situation of the situation created by the NRA the policies of class of the situation of the situati of class collaboration, of socalled power, the shortening of hours to forces high in the councils of the For An Independent peaceful partnership between employer and worker, which took such hold in the years before the crisis, are now admittedly bank-rupt. They have shown that they can lead labor to nothing but discontinuous control of the labor movement. can lead labor to nothing but disaster and defeat. Today a new Organize The spirit is spreading in the ranks of Basic Industries the labor movement, a new understanding of the necessity of aggressiveness, militancy and organ- basic, mass production industries schemes to undermine its indepenizational power. It is this new of this country. The opportunity spirit which holds the promise of to unionize these industries is here the future for the labor movement. The great need of the day, in my opinion, is for the official philosophy, methods and tactics of the labor movement it in the future. The coming consophy, methods and tactics of the labor movement. UNION PROTESTS GREEN'S RED DRIVE

At a regular meeting held Sept 7, 1934, the following resolution was introduced by Brother Meyer Kramer and approved by Local Union 306, and instructed its delegates to present this resolution to this conference called by the A. F. of L. Trade Union Committee for Unemployed Insurance and Relief WHEREAS: The Executive Council of A. F. of L. recently lecided to call on the Department of Labor to deport all foreign-born workers and have them expelled from their unions, simply because they are defending a mili tant policy for American labor. WHEREAS: Action like this

would only serve the interest of our bosses and do harm to our unions, because our unions, in order to be strong, must include all workers without regard to their race, religion, or political belief. WE RESOLVE: To voice our protest against the Executive Council of the American Federation of Labor for becoming a too in the hands of the Department of Labor which is a detriment to the best interest of the American Labor movement.

We request all other unions to joins us in our demand that the Executive Council rescind its ac-

WE FURTHER RESOLVE: A copy of this resolution be sent to tional Executive Council of A. F. of L., also, copies to the press.

cause I want you to know I resent what you stated therein. In this expression of your personal opinion you did not convey the true spirit and letter of the policies which govern the American Federation of Labor. On the contrary, your remarks

The American Federation of American Federation of Labor

gaining, in the making of contracts. It favors strikes when strikes are necessary on the them to enjoy the right to engage in the negotiation of wage agreements. If the Officers and

destruction. The facts are that serious consequences are involved in sympathetic strikes. Those who believe in the over-throw of government will favor sympathetic strikes. I say this because of the fact that no sympathetic strike can be won unless you succeed in defeating the Gov-

The general sympathetic strike which occurred in Great Britain a few years ago was launched under the most favorable circumstances. It was sponsored and ordered by the British Trade-Union Congress. It occurred in a nation where the workers were thoroughly organized. The strike was aunched in support of the miners who had been on strike for the redress of grievances. The strike failed and the British Trade-Union movement received a blow from which it has not yet recovered and the Miners' organization was almost destroyed.

Labor believes in collective bar-

On the New Line Of the Comintern

(Continued from Page 3) and is changing "because of changing objective condi-Comrades, is it not significant that as the situation becomes more and more acute, as fascism spreads and the

war danger increases, as the masses become more radicalized and mass resistance grows, that at this time the Communist Parties and the Communist International find it necessary to turn more and more seriously towards the tactics they denounced as "less radical?" These tactics (united fronts between organizations; trade union unity; building the mass unions and winning them for militant policies in place of splitting them) have been condemned as opportunist, as not appropriate to the "third period," and the "revolutionary upsurge" of the masses. But when a real sharpening of the situation begins, when the masses begin to move and show signs of radicalization on an unparalleled scale, the party leaderships are forced to drop the denunciation of these proposals and are compelled to adopt the tactics they have been condemning.

WHAT OF COMMUNIST UNITY?

Comrades, we do not address this letter to you in any we-told-you-so tone. we call these facts to your attention in the spirit of comradeship, for the sake of the effective correction of the party line, for the sake of the improvement of party life, for the sake of bringing closer the day of unity of all Communist forces within the Communist Party and the Communist International.

We of the Communist Opposition have always been for Communist unity. Despite all the sharpness of the attacks of the Party leaders against us, despite all the shameful, incredible abuse, despite name-calling, physical attack, the breaking up of many of our meetings, and the unscrupulous misrepresentation of our views and

goal of reuniting our party. Now, the differences between the two tendencies begin to diminish and the day of Communist unity is thereby brought closer.

THE BURNING NEED FOR UNITY

Now more than ever is there a need for Communist Unity. The ever-present, ever-growing war danger, the threat of spreading fascism, the widespread mass misery, the leftward movement in the ranks of the Socialist Party, the great wave of strike struggles, all make Communist unity a burning necessity. No one who is loyal to the interests of the Communist movement can oppose efforts for reuniting the Party

WHAT STANDS IN THE WAY?

Comrades, what now stands in the way of party unity? Do you not see that the slanders against the German opposition as "agents of the bourgeoisie" must have been false if there can now be a bloc between the German Party and the Communist Party Opposition for joint mass struggles against German capitalism and fascism? Do you not see that the slander against our united front and trade union tactics must have been false if they can now be adopted?

For over five years the party and Comintern leadership have been predicting our degeneration, our going over to Social Democracy or the bourgeoisie. How much longer will this desperate uncommunist game of expulsion, name-calling, and factional abuse be kept up as a substitute for comradely discussion of differences? Does it not become more and more vile and unworthy, more and more unprincipled, now that the differences begin to diminish? Is it not clear that the Communist Opposition and the Official Party are bound together by the unbreakable bonds of common Communist principles? No differences on the tactical application of those principles, no amount of factional abuse, have been able to alter or conceal that fact.

WHAT IS NEEDED?

We do not wish to minimize our tactical differences.

activities, we have never for a moment abandoned our They are beginning to diminish, yet they are still great. But we are convinced that a genuine party discussion, an honest, thorough, comradely analysis of the errors of the last five years, will clear up the reasons for the party's failure to achieve substantial growth during such favorable years, will remove all differences, will correct our party's line, and guarantee its correctness, unity, and growth for the future.

Comrades, we call upon all party members to discuss the questions we have raised here. You have the right to know what is happening in the Communist Internachanged. It is your duty to discuss and evaluate and help to make the changes of line that are beginning. It is your duty to extend these changes to this country. This time they must be the result of a genuine collective discussion, in preparation for the Seventh World Congress. That Congress must complete the correction of the line. It must restore Communist unity. It must restore party democracy and collective leadership.

WE HAVE ELECTED DELEGATES

The International Communist Opposition has requested the right to send fraternal delegates from its various sections to the Seventh World Congress, to discuss joint work and lay the base for unity. See to it that the American Communist Party endorses the request to admit fraternal delegates from the American Communist Opposition to that Congress. It will hasten the day of unity and the forward march of our movement.

For a healthy tactical line!

For the end of sectarianism! For the restoration of party democracy!

For a united Communist Party!

For international Collective Leadership! For a united Communist International!

The 54th Convention of AFL

The have an urgent task for first line scholars. It is, however, a thankless task because it is impossible to fulfill. We would like to find that scholar who is able to produce, thru the most diligent research, a social movement which ever was cursed with a more incompetent and bankrupt leadership than is the A.F.L. today.

Millions of workers are astir. More millions are hungry. The richest employing class in the world arms itself for dealing deadly blows at the most vital rights and interests of the working people in the country. But here you have the capitalist world's biggest trade union movement not measuring up to a situation so full of dangers and opportunities.

The automobile workers show the first sign of organization. In comes President Green and the dirtiest double-crossing "friend of labor" the White House has ever seen, President Roosevelt, to cripple these efforts. Half million textile workers rebel against unbearable conditions, fight with inspiring determination and heroism against overwhelming odds. Here is a chance for a showdown where labor solidarity can prove decisive. President Green and strikeleader Gorman can see nothing else to do at the most critical hour than to stab the heroic strikers in the back. San Francisco labor closes its ranks and writes one of the most glorious pages in the history of the American working class—the recent general strike. Into the columns of the capitalist press rushes President Green to denounce the strikers precisely at the moment when every ounce of labor's energy and resources should have been mobilized for San Francisco's embattled strikers. One lone voice cries out in protest against these anti-labor actions of the dominant official labor leadership. President Green and international presidents hasten to band themselves together into a chorus of denunciation and slander against Charles Zimmerman for daring to protest against the sabotage of the San Francisco strike, for daring to propose a program of militant action for American labor in these decisive hours.

Last of all, equally shameful, is the effort by the Executive Committee of the A.F.L. to have Mayor Rossi, the scab herder-inchief of the west coast, address the A.F.L. convention sessions. This is the same Rossi who, at a recent meeting of Longshoremen at the Civic Auditorium in San Francisco, yelled at the workers: "You apparently are looking for bullets and you probably will get them." The reactionary labor leaders' only answer to this threat was to arrange for the mayor to participate in the Labor Day Parade.

The American trade union movement needs a much broader and far more progressive leadership. Nothing will be done by the convention to meet this problem fundamentally. The American trade unions must be reorganized on a genuine industrial basis, if they are to survive the onslaught of the giant corporations. Some shillyshallying agreement will be drawn up by topmost misleaders of the A.F.L. to sidetrack the issue of industrial unionism. Such sidetracking and detouring, arts in which the Greens and Wolls are past-masters, have led and kept American labor in a blind alley for decades. The government continually extends and intensifies its strike-breaking activities. The National Guard is openly transformed into the National Scab Guard. Hundreds of thousands of workers begin to see thru the frauds of the time-dishonored policies of the A.F.L. of reward your enemies and punish your friends. Over a million organized workers vote thru their union conventions for a Labor Party. Immediately an epic in bankruptcy is contributed by the misleaders of labor. All they have to offer to these aroused workers is: "So long as labor has such friends like Roosevelt and LaGuardia it does not need a labor party of its own."

Let no one minimize the significance of the A.F.L. convention and its decisions. Whether the battle for strengthening labor's front will be begun even in the faintest way at this convention is extremely doubtful. What is certain, however, is that the more than 30,000 local unions of the A.F.L. can change the situation very much for the better, if they begin to consider a constructive program of action. Teeth-gnashing a la Daily Worker and T.U.U.L. may be convenient ways of self-gratification, but they do not prepare the way for well-planned, class conscious mass strikes. A serious, realistic, militant program for American labor has been offered by Charles Zimmerman, Vice-President of the I.L.G.W.U., in his effective reply to President Green. Let every local union of the A.F.L. compare the decisions of the 54th convention with the program outlined by the vice-president of the third biggest international in the A.F.L.

Given even half an opportunity to explain and defend this constructive program, we are more than prepared to rest our case and rely on the workers' choice.

The City Lottery Bill

THE proposed city lottery bill, sponsored by Boro President James J. Lyons of the Bronx, involves far more than the moral froth of churchly indignation. New York, the world's wealthiest city, in the world's wealthiest country, is forced to resort to the much-denounced lottery in order to raise some funds to meet, in even the most inadequate manner, some pressing jobless relief costs.

What does it all mean? Is New York City bankrupt? Yes, in a way. The bankers have the city by the throat. The reform mayor LaGuardia, like his insatiable, itchy-palmed predecessor Walker, in the last resort can do nothing but the bidding of the Wall Street kingpins. And these big boys must have their interest paid. No

"Build for Unity!" - the Slogan of CPO Drive

CPO Girds for Further Advance

The CPO has entered upon a new stage in its struggle for Communist unity.

Recent developments and turns in the Comintern place us in a much more favorable position to fight for our tactical line and for correct methods of work in the Party and in the Comintern. The nappenings in Germany especially confirm the fact that we can make curselves such a force as must be dealt with in the achievement of Communist unity.

In America— Do We Do Our Part?

The American Communist Party has been and will be the last scrong-hold of ultra-leftism. There are straws in the wind here that show the faint beginnings of a return to a correct line but the "last mile" for America will be a long

We must not disregard the important developments in the American labor movement where our position on the trade union question will be the central point of discussion and controversy at the coming and most important convention of the AF of L. This has already been pointed out in the columns of the New York Times by Louis Stark, leading labor writer for that paper. Now more than ever must we redouble our efforts to build the group, build the Age, increase our activities and extend our influence.

We enter this campaign with six objectives. They are:
First: To make the CPO a stronger

national organization.

Second: To bring in 400 new

members.
Third: To secure 1000 new subscribers to the Age and thus help lay the basis for a weekly Age.

Fourth: To put the entire membership to work, especially in the mass organizations and thus multiply our effectiveness in the class struggle.

Fifth: To broaden our base in the trade unions and thus s'rengthen our position for the building of a progressive movement.

Sixth: To strengthen our fight for Communist unity.

Plans and Quotas Formulated for Units

Quotas for the drives are printed in another column. The membership must not consider this a mechanical routine campaign. Only to the extent to which we organize and get our fractions on the job, only to the degree to which we succeed in getting our units acting as political bodies with initiative, only to the extent to which the entire membership is involved in definite activity will we secure the maximum benefits from this campaign.

The period of the drive is from October 15 to December 15. It must be based upon our work in the unions and mass organizations,

upon our growing influence as a result of the New Workers School and other educational work, upon the work of the CPO in relation to the line and methods of the CPO in the ranks of leftward moving workers in the SP.

This year should be the biggest year in the history of our organization. It marks the fifth anniversary of the launching of our group. In November we will be celebrat-ing the fifth year of the Workers Age (formerly the Revolutionary Age). In the winter we will celebrate the fifth anniversary of the New Workers School. We are a significant factor in the trade unions. We have made many contributions to Marxism as applied to American problems. Our paper on the whole is the best Communist organ yet published. Our school and classes have done valuable work in defending Marxism-Leninism against revision and in spreading it among growing sections of the workers.

We can capitalize on our work, we must capitalize on our work. We must make this fifth year of our existence a turning point in our fight. Last year witnessed a big increase in our mass influence. This coming year must also witness a tremendous increase in our organizational strength. The coming membership and Age drive is the first shot in that direction. Let's make it a truly effective one.

1,000 Age Subs Set as Drive Goal

One thousand new subscribers! That's the mark set by the Workers Age as its goal in the fighting drive of the CPO. It's a high goal and a hard one, but a goal which the CPO with its everwidening influence among the mass of workers should and must not only reach but surpass.

In the struggle for Communist unity and Communist victory the Age is of unparalleled importance. Only through the Age can the opinion, the analyses, the victories of the CPO be spread throughout the great circle of the American labor movements. Every comrade, every friend and sympathizer of the CPO, realizing this, should bend utmost efforts to putting the Age over the top in the drive.

'Left-Wing Communism'

With Each Subscription. The old proverb says "Good wine needs no bush" and the Workers Age needs no premium beyond its own forceful, sane articles on the labor movement. But because we are interested not only in selling subs but in providing a Leninist education we offer with each new subscription a copy of "Left-Wing" Communism—An Infantile D.sorder, by Lenin, in a new edition, published by the CPO with an introduction by Bert Wolfe. Since the price of the Age has been reduced from \$1.25 to \$1.00 for the duration of the drive this offer means that the subscriber receives a dollar fifty value for only one dollar.

Lenin's volume, which is subtitled An Attempt at a Popular Presentation of Strategy and Tactics for Communists, is the clearest formulation ever written of the attitudes and purposes with which Communists must co-operate with other organizations. It may be described very aptly as the handbook of the CPO.

Prizes For Sub-Getters Too

That sluggisn comrades may be stirred and that energetic comrades may be rewarded we are offering prizes for sub-getters. Any comrade who gains twelve new yearly subs or their equivalent in half-year subs—these are priced at fifty-five cents for the drive—will receive a copy of "Portrait of America" by Bert Wolfe and Diego Rivera, containing sixty illustrations of murals done in this country by the greatest painter of our time. To those who secure six or more subs will be given a framed bas-relief portrait of Lenin together with a copy of "Left-Wing" Communism.

Drive Opens October 15

The dates set for the drive are from Oct. 15 to Dec. 15 nationally and from November 1 to December 15 in the New York District. During this period weekly bulletins on the progress of the drive will be issued to all units as well as stories in every issue of the Age.

The November 1st issue will be of vital importance not only to the drive but in the history of the CPO. It celebrates simultaneously the 18th Anniversary of the Russian Revolution and the 5th Anniversary of the Workers Age. It will contain special articles and illustrations on both of these events as well as birthday greetings to the Age. All organizations and units wishing to send in greetings should do so before Oct. 25.

Build The Age For Victory

We have a great responsibility and a great task before us. The CPO is redoubling its efforts in every direction in the drive for unity and victory. For a better Workers Age, for a more influential Age, tor a bigger Age—for these ends we must work as we have never worked before.

BUILD THE AGE FOR UNITY

unemployment for the coupon-clippers! It is they and not the Jesus-jazzers who set the tone for morality, the real morality that counts for itself and discounts all else. It is their code of morality, the basic ethics of capitalist relations, the unbroken flow of interest payment, that accounts in no small part for the "poverty" of the city government and the misery of the great mass of workers in the world's financial centre.

But what of the lottery proposal as a scheme for raising unemployment relief funds? No worker can utter a half a good syllable for it. It is a simply another one of those countless proposals which, in practice, takes something from each of the many and spares a lot for each of the few. It is a very "democratic" way of making those workers and lower middle class people, who still manage to keep off the relief lists, pay for saving from starvation their more unfortunate brethren already on the city poor lists. This is the way American democracy functions—spare the few and soak the many.

Incidentally, the very fact that the stronghold of world finance, New York City, has to resort to such fifth-rate schemes as lotteries in order to preserve the pretense of being a going concern only shows how much the germs of decay have gnawed at the vitals of the strongest section of the capitalist system. It is not the moral humbuggery of the clergymen and the rabbis that is significant in the controversy over the lottery bill. It is the economics and politics and the potential consequences involved therein that are of paramount import in this controversy now agitating New Yok City.
