#### Company Union Men Bolt to CIO; Auto Union Challenges GM

While leaders of the American Federation of Labor are concocting new schemes to frustrate the efforts of the Committee for Industrial Organization to organize the mass production industries, the CIO is proceeding with vigor and energy to accomplish the latter.

The flat glass workers continue their strike with active CIO support and in close cooperation with the auto workers union which is affected by the shortage of glass for auto manufacture. The auto union also has made detailed plans for a concerted drive especially rainst General Motors.

the same time the steel drive is not being allowed to lag. Phil Murray announced that his Steel Workers Organizing Committee has already recruited about 130,000 members and that they have just begun to organize. At the same time the CIO has done remarkable work in undermining the system of company unionism.

Addressing a session of company union representatives in Pittsburgh Phil Murray said "The system is created, controlled and dominated by the steel companies to prevent the healthy development of trade unionism in the steel plants.'

## Business Groups To Work In "Harmony" With F.D.R.

#### Manufacturers Association Drops Fight Against New Deal; Unemployed Census For "Scientific" Relief Asked; Berry's Meet Boycotted

ized the experience of the recent presidential elections, and made a sharp turn in "social" policy, both at the convention of the National Association of Manufacturers and at Berry's Council of Industrial Progress. Of course, the first, held in New York, was far more important since it was attended by big industry, and was not as artificial as the government sponsored confab run by the intensely disliked Major.

All newspapers have already noted the great difference between this year's conference of the N. A. of M., where harmony was the keynote, and those previous conferences where the anti-New Deal elements of big capital were given a rostrum. Stressed by every speaker, especially the keynoter, Colby Chester, president of the association and head of General Foods, was industry's responsibility towards the unemployed, towards the "consumer", and in its relationship with government and labor. The clearest indication of the cause for this new concern for human welfare, was given by Wright: "There should be no per- ago, perhaps as recently as just manent unemployed class in this before the Presidential election. country, altho such a class with some of the expressions applauded vested rights and interests (sic), is from the convention floor would assuming definite shape. Such a have been deemed socialistic. Now class of unemployed is a menace they were recognized as accurate to any state." The gentlemen who and appreciative adjustments of

American capitalism summar- own the industries of this country are beginning to realize that Roosevelt's program is their surest salvation. The Democratic sweep in the elections signified the triumph of new policies for the ruling class. And the National Association curbed, limited, and "conservatized" these policies—but realized that these principles were the only effective ones in the present situation.

Towards this end, the meeting proposed a national census of the unemployed, in order to put unemployment relief on a scientific "pay as you go" basis. Encouragement dustries would attend. The queswas given to the steps taken by tion of prestige, of inner-politics steel, rubber and other industries in playing ball with Berry as the to begin propaganda for the wonders they had created, to win public sympathy in the face of the corthcoming unionization drives. General statements, approving certain social policies of the Administration, including the Federal Social Security Act, but always with certain criticisms and reservations. As the Herald Tribune (December 13) remarked: "The speakers' roll of the convention was a roster of the Almanach De Gotha of business-big this time in its conception of social and national responsibilities as well as the volume of its products and vast sums of invested capital. Not so long

#### LABOR FORCES **MAYOR'S RETREAT**

BOWING to protests from organized laborate ganized labor, Mayor La Guardia was forced to rescind an order for office equipment given to the strike-bound Remington-Rand Company. Charles Zimmerman, head of Local 22 of the I.L.G.W.U. was the first to raise the question sharply, sending a telegram to the May-Julius Hochman also protested in the name of the I.L. G.W.U. Joint Board.

views required by a changing world."

Meeting at the same time, in Washington, was the Council for Industrial Progress, long doomed to failure. It is quite likely that the administration knew that it would be a failure, that none of the really important inhead of the Labor Non-Partisan League, and perhaps of using this council as the medium to push industry along the lines laid down by the administration, played a role in going ahead with the meet-

Its major achievement seems to been the shedding of a few (Continued on Page 6)

# Ryan Splits

Joseph P. Ryan's answer to Harry Bridges' arrival on the East Coast and plea for strike solidarity was to discharge him as organizer of the ILA for the Pacific Coast. Bridges replied that "if to break strikes was the way to stay on the payroll, I'm glad to be off. I was elected and not appointed to my position in the Maritime Federation, and the workers there will say what happens to me, not Ryan."

In an attempt to further split he maritime workers moves for a solid front against the shipping owners, Ryan announced that he would set up his own federation, as approved by the A. F. of L.

A sharp fight took place in the Labor Council over the issue of the seamen's strike. The progressive forces led by Charles Zimmer man of Local 22 strongly opposed Ryan's stand on the strike, and Ryan's forces nearly provoked a fist-fight. Ryan railroaded his motion thru and declared the meeting adjourned, as usual. Zimmerman had previously spoken at a Madison Square Garden rally with Bridges and Curran, contributing \$500 to the strike.

## **OUR NEW HEADQUARTERS**

At last we have moved to larger, more centrally located, steam-heated headquarters located at

131 West 33rd Street **New York City** 

At this address are now located the Rivera Murals, New Workers School, Communist Party (Opposition) and Workers Age.

#### Blum Begs Support Of Big Capital; Pledges No "Radicalism'

The Workers Party of Marxist Unity (POUM) was ousted from the Catalonian government, because of its insistence upon a revolutionary policy. This move is the culmination of weeks of provocative actions against the POUM, carried out by the United Socialist Party affiliated with the Communist International The POUM quickly issued a statement attacking the Communist Party for "this disloyal maneuver." It found strength in the fact that now it was the only source of a real revolutionary policy, of an independent proletarian line.

"Altho it is eliminated (from the gov't), its militiamen cannot be eliminated from the front of battle. In a word our party cannot be removed from the political life of Catalonia and Spain, where it now represents the revolutionary vanguard—so much so indeed that it has become converted into a real revolutionary party," the statement

Nothing else motivates communist policy but the belief that its defense of the Soviet Union and the successful struggle against fascism can best be conducted thru the people's front. However high this motivation may be, it reaches corresponding depths of falseness. In its present form of activity, it Dock Union In its present form of accounting is positively dangerous to the prosecution of the Spanish revolution.

Whether this forced split in the defense council is merely a prelude to the suppression of the POUM remains to be seen.

While Franco still batters hopelessly against the proud defenses of Madrid, growing rumours of an Anglo-Italian pact complicate the tricky maneuvers of neutrality. The pact is supposed to constitute a mutual guarantee for the maintenance of the status quo in the Mediterranean. Western means that Italy would not take over the Balearic Islands, and would join Britain in preventing

### Coal Operators Ask New York City Central Trades and Forty-Hour Week

Soft coal operators have notified John L. Lewis that when negotiations for renewal of a contract begin they will insist on a return to the 40 hour week without any increases in the wages of the miners. The present agreement calls for a 35 hour week.

The agreement with the bituminous operators expires on March 31 and negotiations between the United Mine Workers and the coal operators starts on February 17.

The possibilities for the employers securing this concession are extremely slim. The issue is probably raised for bargaining purposes since the miners will undoubtedly demand improvements in present conditions.

Announcement of a two dollar per capita assessment was made by the Union Mine Workers to prepare a million dollar "war chest" to prepare for a possible coal strike and to aid the C.I.O.

#### Vatican and Capitalism

Superficial, indeed, is the participant in the labor movement who concludes that because of the early experiences of Cathologism in Italy and Germany, or even present frictions in the first, and stormy battles in the latter, Catholicism is an uncompromising enemy of fascism, an ally of the labor movement. Such deluded persons know nothing of the incredible adaptability of the "crack regiments of Christ"; they are unaware of the Vatican's very re- sharp relief the new political role against the Catholic Church, but cent triumph in forcing Hitler to of Catholicism. compromise in his war on their institutions; or of their several years of active partnership with Mussolini. Muddled laborites tend to forget what the Mother Church never forgets for a split second: its existence is dependent upon the survival of capitalism.

As idiotic as it is untruthful is the attempt of the official Commu-Spain as an ally or neutral in the fascist categorical imperative of a Spanish class war. Super-efficient to Mgr. Even conservative charlatans have not dared to impute love of free speech to Catholicism!

On September 1, 1936 the New Masses carried an editorial panygeric exalting Michael Williams editor of the catholic Commonweal, as an anti-fascist. This is the same Williams who wrote in his book The Catholic Church In Action: "The leaders of the new religion of revolutionary materialism, popularly known as Marxun Communism, of which the dominating center is in Moscow, and which is organized almost as strictly and logically as Catholicism itself, recognizes in the reawakened and militant energies of the worldquerable, enemy of its own equal. and West against Germany, as the ly extensive program of world uni- heart of Europe. . . . #### Swastika and Cross

In Nazi Germany there is an irreconciliable conflict between Catholicsm and Fascism. In the present situation however, three factors must be constantly borne in mind: first, the Church has proven itself too powerful to be crushed, at least as far as the immediate funists to picture the Church in ture is concerned; secondly, the united nation for war on Commusuicide was Earl Browder's plea nism, internally and externally, was an historically progressive force against Hitler's onslaughts enragcrease production. Hitler was Spanish Inquisition, the drenching forced to publicly call a halt to further aggressions. There will be no cessation of conflict, but willy-nily Hitler will be forced by his war juggernaut, trembling on foundaions of sand, to compromise with this unwelcome ally.\*

> The recent eulogistic editorials in he New York Times, Post, and in the Jewish and liberal press on the defiance of Hitler by Catholicism deliberately distorted the meaning of the recent pastoral letters issued in Germany, thereby creating a totally false picture. What was eliminated by judicious quotation and commentary was the ollowing (I quote two sections of he pastoral letter of August 30th read in all Catholic churches):

"Communism and Bolshevism eek, with satanic drive and tendarity, therefore, ought not to be Since this was written in 1935 weakened by religious division and mains a prisoner of Marshal by the foremost "liberal" lay strugg'e. The 1936 Elections

## Break of Negroes With GOP Is Factor in F.D.R. Victory

By JAY LOVESTONE

IN the last election we witnessed a breaking down of the bases of previous party alignments. It is true, the forces operating for political realignment have been at work for some years. Yet, this process had not reached so significantly high a point until the Roosevelt-

Forcefully indicative of this breaking down of old bases of voting support is the marked shift of the Negro vote from the G.O.P.--"the party of Lincoln"-to the party of Roosevelt, but yesterday only the party of slavery to millions of Negroes. This switch of allocionary millions of Negroes. This switch of allegiance was manifested in the North and in the South. In the latter tier of states, the turn was comparatively feebly registered because of specific Southern rea-

#### Bourbons Needed Negro Vote

In general the new Negro voting position was occasioned both in the North and in the South by the fear of these poor masses that a victory for Landon would spell the end of even meagre relief possibili-

ties. However, it is my opinion that in the South there are additiona reasons to be noted. At the Philadelphia convention, the Democratic Party decided to drop the two-thirds rule for nomination and to apportion state delegates to future quadrennial conclaves not on the basis of total populatior but rather on the basis of total party strength ty. Here we have a rude shak-

secured at the polls. Given this idecision the Southern Bourbons great President that I love (white, of course) find themselves dearly the largest vote that any in a new position. They can no Negro group has ever given a longer dominate the conventions thru virtual veto power in the choice of Democratic Party stand-

At the same time, they desire and plan to wield maximum inand lower ranks. Therefore, there sults. In the December 1936 is cratic vote to the highest levels. and, perforce of circumstances and we are told: self-interest, even encourage the Negroes to vote-for the Democratic Party.

With the Lincoln myth evermore threadbare, this is an in creasingly less difficult task. Here we must also not disregard the fact that in the twelve Southern states -the great "historic stronghold of states' rights" the federal government supplied 91.8% of the direct relief and "the states themselves furnished only 8.2% of the relief funds from their own re-

Farley and his bosses approached the Negro vote possibilities with wide open eyes. Months before the elections, Congressman Arthur House-delivered an address which "was greeted with prolonged applause, with all Democrats standing" (my emphasis). What did Mitchell say that brought the Southern Congressmen to their feet he declared:

declared:

"For more than fifty years my ple urged some Negroes to vote.

"Left of the continue of the continu tv. It is only during the past four whites. . . or five years that Negroes have found that the Democratic Party is tents are discernible in the South, a safe place to live and vote. .

foundation, thanks in no small measure, to some consequences (not always sought or welcomed) of the New Deal. Anticipating a bitterly fought election and preparing for a smashing victory, Farley saw to it that the Negro press with a circulation of 298,000 was lined up for Roosevelt. Supporting Landon were papers with circulation of but 81,000. Here was a New Deal in more ways than one—for some editors.

Of course, there are tremendous potentialities involved in this new frend amongst the Negro masses. In our present discussion, however, we are concerned only with the facts of the phenomenon, its why and wherefore rather than its probable consequences and possible mport-socially and politically.

#### Farmers Shift to FDR

Another indication of the break down of old bases for party alignments is the steadying and hardening of support amongst the farmers for the Democratic Parrooted in the changed position of ca to the "white" world leads him agriculture in American economy. #### G.O.P. Blunders

Finally, a primary factor making for the Roosevelt sweep was the very strategy, the very leadership of the Republican Party. Republican mistakes made very many Democratic votes. Only the most politically purblind could fail to see that the Republican strategy should have been to utilize the 1936 elections as a sort of organization campaign to prepare the ground for a 1940 victory. Operating on the illusion that there was a real chance of winning in 1936, Hamilton played a desperate game, flirting with the scum of American politics and thus insured a major debacle instantly as well as going a long way to ruin the chances of the Republican Party in 1940.

It is the total failure of the open (Continued on Page 6)

THE LAND OF PLENTY

# "Black Chauvinism"

BY STEPHEN CUNNINGHAM | group in the direct reverse of the Carter Godwin Woodson is an able writer on the Negro question. His latest volume\* is most effective in its assemblage of French, English, and American authorities. The index is shop-made; many of the pages carry incorrect cita-

That Africa is a land without istory is the common belief of American school children. The pecific drive to retard the Negro eaches into every school and colege. The American system does not want the Negro freed. Pride n ancestry would go far in arousing the Negro from his lethargy. Meanwhile American churches and schools are sending missionarie o Africa. With the exception of few Negro missionaries like Max Yergan, most of these Biblepackers are salesmen. In Liberia, the American protectorate, the entire church and diplomatic service is in the employ of the Firestone rubber interests.

#### Black Chauvinism

Dr. Woodson, however, is an idealist who leans heavily towards Black Chauvinism, "Chauvinism" has been strained in our commu nist lingo, but for descriptive pur poses, no other word is better. Dr ing up of erstwhile Republican Woodson's tendency to attribute fortresses. Basically, this shift is every backward movement in Afrito disregard that period in Afrinents, wars, and pestilences that ampered the development further f advanced groups.

To understand Dr. Woodson's chauvinism is not difficult. A life marred by oppression and social solation breeds an excessive development of race pride and preson expresses for white Americans who defame Negro character is understandable. Those who are familiar with the cheap Negro-baiting now emanating from the pens of the ancient Mark Sullivan and the over-rated Dorothy Thompson will grasp more quickly the similarity between anti-Negro tactics and

those kept in motion against the Jews by Hitler and his henchmen. Dr. Woodson's work redounds in many unnecessary errors. In matters of history and education, he inclined to rank himself above all others in a sort of prima-donna fashion. For example, Dr. Woodson draws heavily on W. E. B. DuBois' writings on similar questions, but gives the better-known author a series of backhand slaps. In matters of the color of the African primitive races, he is inclined

The African Backgrounds Outlined Negro. By Carter Woodson. Association for the Study of Negro Life and History, 1936.

White chauvinism rates "white' at the top, and "black" at the bottom. Dr. Woodson fairly stands on his head to view the scale in the opposite alignment. The author puts his black at the top in every instance, leaving the far more numerous mixed-races scuffling around for a place in the sun. His

Dr. Woodson very frequently ac cuses white writers of racial bias -there is little doubt of it in this field. "If they (the whites) do not find 'white' men on the ground they search for some tradition or legend to give that race credit for all progress in Africa". (Page 47, footnote). But he proceeds to dig up his own non-essential narrowness: ". . . The Negro is a born worker . . . The Africans brought to America did not have to be made to work as did the unprofitable white indentured servants and untractable Indians who could not live up to the tempo set by the exploiters of the New World. . (Page 171).

#### "Better Slaves"

There is no reason why forced labor should have appealed to the Indians. America was their land and all Indian civilization was no backward. The much maligned poor whites had probably been worn out before they were shipped here. English capitalism exploit not developed to the efficient Nor- ed white Englishmen in the same manner that America exploited the blacks. Marx cites the opinion of 19th Century English liberals . . . The system . . . is one o unmitigated slavery, socially, mor-

ally, physically, spiritually. . . We declaim against the Virginia and Carolina cotton planters. Is their black-market, their lash, and their barter of human flesh more de testable than this slow sacrifice of humanity which takes place in or der that veils and collars may be fabricated for the benefit of capi talists?" (Capital. Page 246, Vol I. E. & C. Paul, translation. Everyman's Library). The weakness of many Ameri

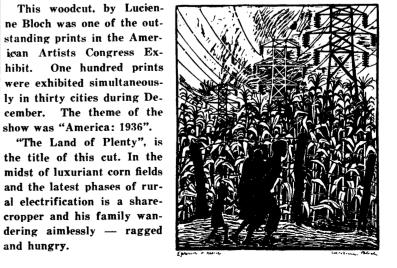

can Negro scholars is revealed in their tendency to deride exploited white slaves, instead of striving o make common cause with them The explanation of this basic class error among the present generation of Negro intellectuals can be explained by a casual perusal of Dr. Woodson's appended "Important Events and Dates in Negro History: November 26. Andrew C. Carnegie, Philanthropist, Born

The tendency to indulge in Black Chauvinism creeps out again, for o repaint every polyglot African Dr. Woodson is a Stark Young and Claude Bowers reversed in ebony. The dreaming white Southerners or Handbook for the Study of the have counted far too many glories in the old South, while Dr. Woodson rants rhapsodically over the transplanted Africans. . . "Brought

to a new country the Negroes

. . never developed toward vulcanism as have done the European settlers who have come in this country as a result of social and political upheavals in which they have participated. While the latter came seeking an asylum from wrongs which they have suffered they have readily afflicted others with the evils from which they tried to escape. The Negroes, on the other hand, have never resorted to force except in self-defense self-preservation from evils which their uprisings were intended to correct. In freedom the Negro has still lived up to this ideal f being a law-abiding citizen. He did not throw bombs; he did not start riots; he does not engage in lynchings; he has never assassinated a high public functionary or tried to overthrow the govern-

ment." (Page 168). (Continued on Page 6)

## U·S. Steel--Labor Lays Siege To the Fortress of Reaction Suspended last summer by the Executive Council of Council of

By JOSEPH BROWN TUNDREDS of thousands o steel workers throughout the great steel centers are beginning to sense, once again, their powers of organization. After years of mounting discontent and a bitter hatred toward the many betrayals, the steel labor giant is rearing its head in response to the campaign of the Committee for Industrial Organization. Twice betrayed and sabotaged by the craft unions and the Executive Council of the A. F. of L. in 1919 and in 1934, the steel workers are regaining their confidence of old under the healthy leadership of the progressive, in dustrial union forces. Rid of the shackles of craft unionism and having cast off the spineless leaders of the crafts, the land of steel reverberates with the slowly rising tide of organized labor. The steel workers are responding to a call heard so many times but never ye successful in its objective-the unionization of the steel industry. And, once again, the organization drive in steel is being met by the steady, powerful resistance of the

backbone of American capitalism-

the Steel Trust!

Bid For Sympathy The giant amongst giants has begun its insidious campaign of propaganda to win the "public" to its side. The first step in a deliberately planned strategy of warfare against the union forces smacks of the "velvet glove" policy to be followed in the later stages by the mailed fist. U. S. Steel's pen-prostitutes are being shot into the fray as the first line defenders of a vicious industrial set-up. The American Iron and Steel Institute, the dear little "union" of the steel owners and symbol of monopoly price-fixing, issued an appeal, many months ago, against those "alien" and "radical" organizers who were attempting to spoil the trust's own little show of exploitation. The statement appeared as a full page advertisement in over three hundred newspapers from coast to coast and cost exactly \$500 000. One-half a million dollars just to keep the public informed of the justice and righteousness of the true American industrialists, the steel poten-

Since that initial move, the steel industry has developed its campaign quite extensively and on many fronts. After having netted a profit of \$29,875,000 in the first nine months of 1936, U.S. Steel hit the front pages of the newsncrease with the added joker that future increases or decreases would be adjusted to the cost of living in-

## TRADE UNION NOTES

By George F. Miles

The Federation the action of the Council was ratified by the convention by a vote of 21,679 to 2043. The suspended unions were not represented at the convention. Suspension of the C.I.O. unions rather than expulsion leaves the Executive Council free to continue efforts to heal the breech."

This quotation is taken from the December issue of the Railway Clerk," official organ of the Brotherhood of Railway

on of Grand President George M. Harrison, a vice-president of the A. F. of L. and a member of the standing peace committee in the

Since there are quite a number of very well-meaning people who really believed that the action of the convention left the door open for peace it is not out of place to ask a very pertinent question now: achieve peace since the A. F. of do they dread the solid and almost done absolutely nothing! Not even the slightest effort has been made to contact the C.I.O. for the purpose of resuming conversations. We are not among those who beis needed is for all concerned to nut their feet under one table. But we are justified in addressing ourselves to all and sundry

Why don't we see them boil with indignation against a palpable peace fraud perpetrated upon them from 30 to 100% higher insurance by the die-hard leaders of the A. rates? Why is the mortality rate F. of L. It is difficult to believe that members of the executive the "Machinists Journal"—happy council, and important leaders of hunting ground of Arthur national organizations who have Wharton and John P. Frey of the been thru the mill in the labor Metal Trades Council. Here at movement, were so naive as to last we were to get the opinions at take seriously even for a moment, the A. Steel's war record would be less likely to have the in helping old Uncle Sam to vic- welfare of the employee at heart". helter-skelter standard of living Grace and the other fat boys of tory against the Kaiser boys. This Thus, the steel worker owns steel, but a respectable wage scale to steel remained at their skyscraper old tripe is still being served after the welter of committees of ization is a myth. To such blarney, investigation exposing the war the steel workers are answering 000 lately appealed to Governor profits of the steel companies as with organization and with a re- Chandler to pardon the prisoners Not content with passing off the reasons for U. S. entrance into newal of the spirit that saw over The joint board of the Internapany unions (where CIO forces humbug of high wages and em- the war. But the denouement of 365,000 steel workers answer the tional Ladies' Garment Workers'

Clerks. It assumes importance because it probably reflects the opinendum vote of all the members affiliated with the A. F. of L., including the suspended organizations, and let the voice of the majority rule."

The only trouble with this proposal is that no such broad democratic procedure is possible within the A. F. of L. If Green & Co. feared to admit into the conven tion the delegations of the suspended unions, how much more L. convention adjourned? It has unanimous vote of the million and a half workers lined up in the C.I.O. unions? They know only too well that their own craft unions cannot be trusted to hold craft lines in such a vote—ask Hutchelieve that to achieve peace all that son of the Carpenters who shows that he knows that by robbing 130,-000 members of his union of their legitimate voting rights.

The mistake at the very heart of this proposal is the belief that William Green wants peace in the resent situation.

#### Harmony Without Unity

We looked forward with interest

However, there was something of interest in President Wharton's message. "At no time in the history of the I. A. of M.", says he, "has there been greater harmony in our ranks. .

So long have these craft leaders bor movement but the pinnacle of arrogant indifference was reached within the last year. When William Green tried to head off the CIO drive in steel, he wrote to all nternational unions asking for funds to begin a "drive" in steel.

#### HARLAN MINERS' FREEDOM ASKED

New York City.—Forty-five of orty-seven living jurors in the amous Evarts battle cases in Kentucky have now petitioned Gov. A. B. Chandler to free before Christmas the four Harlan-county union miners serving life for alleged conspiracy to kill three coal company mine-guards.

Three labor organizations with total membership exceeding 175,-

## **Labor Forces** WPA Hiring

A series of conferences between Roosevelt and Congressional leaders, held this week, made it clear that the unemployed will be treated harshly as regards appropriations. The conferences resulted in a public declaration that "no new taxes would be levied, and the budget will be balanced".

In New York City, fifteen thousand workers will be dropped from WPA rolls (7% of the present total). Up to December 17th, 11,-500 had already been dropped, and the reinstatement of about 1,000 forced by pressure of unemployed and WPA labor organizations, will hardly compensate for the daily dismissal of 1,000 now going on.

The American Labor Party protested indignantly against the present layoffs in a telegram to Harry Hopkins, the WPA administra-"Any arbitrary axe-swingon the rolls was condemned as a "violation of the will of the people in the last election", and a "menace to recovery."

Five thousand WPA workers and unemployed, marching under the banners of their various organizations held a mass demonstration on December 12th, protesting the layoffs. When reinstatements were consequently made, a false statement was issued by Somervell, local WPA administrator, that the Workers Alliance, Teachers Union, and City Projects Council had agreed, to seal the bargain, that no further stay-in strikes would be held. All involved organizations immediately denied the importance. existence of such an agreement.

the Spanish civil war? Can the government rationally and seriously hope to win?

What part of Spanish territory under rebel domination and how many inhabitants are included in these regions? The fascists possess 17 provinces, covering an area of 61,700 square miles and including six million inhabitants. The Government holds 15 provinces, with an area of 57,100 square miles and 7,500,000 inhabitants. The Government has a smaller extent of territory, but greater man power.

To form a complete idea of the situation, other factors of the greatest importance must be borne in mind, all of them in the government's favor.

In order to control a province, it is not sufficient to capture the capital by force of arms. There are fifteen other provinces besides the Balearic Islands where the fascists have established their rule in the capital, while fighting continued throughout the neighboring countryside. The greater part of the provinces of Madrid, Granada, Huesca, Teruel, Saragossa, and Oviedo are controlled by the government. Malaga also is almost entirely in our hands.

In the province of Oviedo the position of the territory in possession of the troops came from Gallicia to help Arando is of slight

The island of Menorca remains

These items are reprinted from the | loyal to the Government. The gov Generalidad of Catalonia, English ernmental columns in the Basque country are advancing on Aleva. In Paloncia the district north of What today is our position in the railway from La Robla to Calmaseda is in the Government's hands. The northern zone of the province of Burgos has remained loyal since the beginning of the rebellion, and some advances have been made in it. The eastern portion of the Toledo province is very strongly defended by popular troops.

From this examination it is evident that the victory of the rebels is far from being a certainty, even in the improbable case of the fall of Madrid. If Franco captured Madrid, the possession of it would be more in the nature of a serious obstacle than a blessing to him. The rebels would have to find food for a million more mouths.

The Government has transferred the Bank of Spain to Valencia. There is not an ounce of gold left in Madrid. The 70 million pounds sterling of gold which approximately make up the Bank of Spain gold reserves, are in the hands of the Government and constitute the most powerful weapon against which Franco has to fight.

The rebels occupy the poorest provinces of Spain; the Government owns the industrial centers and in general those parts which are agriculturally the richest. How can the economic system of the rebels function without gold and without the export of products? Their exportable products are limited to sherry, and fruits from the Canary Islands and part of Andalusia. The truly rich provinces-Catalonia, Lecante, the Basque country, Almeria, Malaga, Cuidad Real, etc.—are in the hands of the Government and we can affirm without fear of overstatement that 80% of Spanish exportation is controlled by the Government of the Republic.

Besides all this the Government had a considerably superior number of combattants. It must not be forgotten that the Spanish people are not fighting against the Spanish army, but against Moors and Legionaires — mercenary troops which have to be paid.

Where do the rebel generals get

uis convention. Altho at ing of the N. A. of M., a National Economic Council similar to the Berry group was proposed, these forces will not go into the Courcil for Industrial Progress. First Berry is disliked because of his labor connections. Apparently the association is too much reminded of "section 7a" by his presence More fundamental however is the fact that the proposals of "co-operation" tendered by industry, are on the basis of maintenance of business' independence from government "co-ordination." Thus, the traditions of business-controlled government as opposed to statecapitalism, are superficially continued, altho of course the reality

Finally, Berry's conference had aspects of a political gathering ballyhooing the New Deal and indulging in its demagogy, whereas the National Association of Manufacturers' were content to lay down the line of the "new capitalism." freedom. (Capital I, 235.)

the 16 million monthly pesatas which Spanish Morocco costs the Spanish state and from where do they get the 250 million pesatas which they need every month in order to keep up the war and the economic life in the regions under fascist domination?

Obviously, the gifts offered by the Spanish capitalists are not sufficient to cover these expenses. On the other hand, the Spanish Government has more than ample means for winning the war.

In this well founded hope the Spanish people will continue their struggle for liberty with a courage and enthusiasm even greater, if necessary, than that which they have shown heretofore.

#### LA BATALLA (P.O.U.M.)

"What we have now to see is if the big democratic powers of Europe will change their positions. We must watch to see if the revolutionary workers' movement in these countries will be able to force their respective governments and dominant classes to abandon the "neutrality" policy, the policy which is indirectly lending support to the Spanish counter-revolution.

"At the present moment, Europe is living on top of a volcano. The atmosphere is tense, with the feeling of war. The only way out which is left in this crucial moment is for the working class of the world to seize political power and thus prevent the bourgeoisie of all countries from dragging us headlong into an imperialist war. For the war would be imperialist even for those countries who would limit their activities to the defence of their colonial interests.

"The international working class movement must help our revolution, sending us arms and men and overthrowing the 'neutrality' attitude towards Spain of their governments, which has done nothing but allow underhand help to be sent to Franco and his fascists."

November 21, 1936.

## CIO Leads In Organization

(Continued from Page 1)
His challenge that "The company unions must be put out of business" was enthusiastically received by the company union delegates present. A resolution was adopted condemning the company union plan as a "farce" and establishing

new organization called the "CIO Representatives Council." The following declaration of principles was adopted:

1. A national industrial union for all steel workers.

2. Employee representatives to help sign up workers into the SWOC.

3. Employee representatives to enlighten the workers on the real nature of company unions.

4. CIO supporters among employee representatives to remain inside of company unions to continue their work for genuine unionism.

The conference also went on record for the following demands: 1) \$5 minimum for labor and an increase of \$1.24 a day for all getting more than \$5 now; 2) Five day, thirty hour week; 3) One or two weeks vacation with pay depending on length of service; 4) Time and a half for overtime, double tome for work on Sunday and holidays.

The meeting was attended by 250 employee representatives from 42 plants. Elmer J. Maloy was elected president of the CIO Representatives Council, Paul Fraser of Farrell, Pa. became secretary, John Kane of Dusquesne, assistant secretary and William Hart of Blawnox, treasurer.

In closing the conference Murray declared that the attitude of the steel companies made it almost a certainty that the workers would have to resort to strike action to win recognition and improvements.

## "Black Chauvinism"

(Continued from Page 3)

Shades of Nat Turner, Denmark Vesey, and Crispus Attucks! White "vulcanism" and black "vulcanism" develop from deep-seated causes.

"For several reasons the demands for Negroes especially greatly increased toward the end of the seventeenth century, leaving that of other laborers about normal. The Indian . . . was not an efficient laborer. The . . . convicts from European prisons. who were permitted to leave their confinement on the condition of serving . . . were not sufficient . . Negroes who were then being captured in large numbers in the tribal wars FOMENTED BY EURO-PEANS AND ASIATICS could be more easily obtained." (Page 258) (emphasis mine—S. C.)

Why try to rate black slaves Big Business refused to accept above or below white and red Why ignore the class basis of the English prison labor? (Is not the same think true of the South today? Are not Negro prisoners thrown in jail on petty charges and forced to "work out" their sentences with some plantation? Why does Dr. Woodson refuse to mention clearly that ancient Africa and present day Liberians and Ethiopians, until very recently, traded in slaves?

Dr. Woodson has not evaluated correctly, world slavery. Slavery has taken different forms, depending upon the economic situation to which slavery was joined. In certain situations, the Greek slaves led modest lives. The same is true at one point in American history of the lot of Negro slaves. Dr. Woodson is accurate in pointing out that free Negroes voted in Tennessee and North Carolina until 1834 (page 265). In 1835, Rumanian serfs advanced a degree in

Marx is advanced in his evaluation of the American situation. . . As soon, however, as peoples among which production still takes the lower form of slave labor, serf labor, and the like, are attracted within the domain of the world market which is dominated by the capitalist method of production . . . the civilized horrors of overwork are grafted on to the barbaric horrors of slavery, serfdom, etc. In the Southern States of the American Union, Negro slavery had a moderate and patriarchal character so long as production was mainly carried on for the satisfaction of the immediate needs of the slave owners. But in proportion as the export of cotton grew to be a vital interest of the slave states, overwork became a factor in calculated and calculating system, so that . . . it was considered 'good' siness' to use up the Negroes' lives in seven years. . . . The same thing has happened in the Danubian Principalities (Rumania) in the case of serf labor." (Capital I. 236.)

#### The Church

In spite of the improper alignment of economics with religion, Dr. Woodward has contributed a stern reflection on the church. However, he has not ventured closer to reality than to say in a footnote (page 391): "The most striking thing in the appeal of the Negro radical element is that Communism offers everything which the church does not offer. Communism is intended to save humanity. If humanity can be saved the churches will be unnecessary. There are some preachers who concede this is true, but nevertheless doubt that Communism will save humanity as it claims that it will." But the preachers are wrong!

ces so far traced in this series, it is not hard to understand the causes and significance of the re peaks of Roosevelt popularity, the cent presidential elections. Giving Xmas Presents this Year?
