

## CHAIRMAN MAO IS THE RED SUN IN THE HEARTS OF THE PEOPLE OF THE WORLD

[Following is a translation of an unsigned article in the Chinese-language newspaper, Tung-fang-hung--Jen-ta San-hung (East Is Red--People's University Three Red), Peking, Special Edition, 1 May 67, page 4. The newspaper is published jointly by the Peking Mining College's East Is Red and the Chinese People's University Three Red.]

The great truth, the light of dawn, the saviour of mankind and the hope of the world. Our great leader Chairman Mao is the reddest, reddest red sun in the hearts of the people of the world! Every main road leads to Peking and every sunflower faces the sun; people in the whole world think of Chairman Mao day and night and they worship without limit the endless radiant Mao Tse-tung thought.

Not long ago when a group of our contry's students returned to the Fatherland from abroad to take part in the Great Cultural Revolution, they brought back with them the profound feeling and bountiful greetings from the revolutionary people of the five continents and four seas to Chairman Mao and the common voice of the world's revolutionary people: "Let us wish the contemporary Lenin---Chairman Mao live forever and forever!"

### I. People of the world love Chairman Mao ardently

"Chairman Mao is not only your great leader but also our great leader and the great leader of the people of the entire world. Chairman Mao is the contemporary Lenin!" This expression of boundless love of Chairman Mao was frequently given by our close comrades-at-arm, the people of Albania, the Land of the Eagle, to the Chinese comrades.

In the heroic Albania, men and women, old and young, leaders and masses have filled their hearts with profound feeling about Chairman Mao.

Comrade Shehu said at a meeting after his return from China last year: "We, the Albanian people, have boundless love of Chairman Mao and every Albanian is willing to take out few years of their lives and give them to Chairman Mao and wishes Chairman Mao to live forever!"

Comrade Shehu had also expressed with pride this way: "If someone asks me about the population of our Albania, I will tell him we have seven

hundred and two million people, because the seven hundred million great Chinese people and us stand together very closely!"

Last November when Comrade Kang Sheng was leaving for home after attending the Fifth Congress of the Albanian Labor Party, Comrade Hoxha was unwilling to see him leave and hugged Uncle Kang tightly time after time and said with great feeling: "When you return, embrace Chairman Mao many times for me, and please tell Chairman Mao that our Albanian people give him ardent love forever!"

Chairman Mao enjoys very high prestige not only in Albania, but also in Cuba, Vietnam and even in the whole world. "Mao Tse-tung" has become the world's most resounding name.

Chinese students returned from Cuba have told the following story with feeling: On 2 January 1966 (Cuban National Day), revisionist ~~xxxxxx~~ attacked China openly by name at the National Day celebration rally. But when he in his speech mentioned for the first time the name of "The Chinese People's Republic," he was surprised to hear thunderous applause and shoutings of "long live China" and "long live Mao Tse-tung" which interrupted his speech, embarrassed him and made him mad. After he had made his nonsensical talks hysterically, the very indignant Cuban people unanimously condemned ~~xxxxxx~~ by saying that "Anti-China will certainly lead to no good end!" and that "Anti-Mao Tse-tung is doomed to failure!" A comrade worker said with feeling: "Don't worry, Chinese comrades! We Cuban people will forever continue our friendship with the Chinese people. They (he made a gesture indicating they are ~~xxxxxx~~ revisionist group) have never been able to represent us!"

The Vietnamese people who are fighting at the first line of anti-imperialist struggle have shown same boundless love to Chairman Mao. When the Chinese delegation arrived in Vietnam, its members saw Chairman Mao's pictures were always hung in the Vietnamese conference halls and that many of the conference halls also put Chairman Mao's poems on the walls. One day, when several Vietnamese high school students of sixth and seventh grades talked with the Chinese delegation, they said: "Uncle Mao is nice, Uncle Mao supports us. The Soviet revisionists told us to make peace. How can we make peace with the Yankees when they bombard us this way?" See! The heroic Vietnamese people's love and hate are so clear-cut!

Chairman Mao is the red sun in the hearts of the people of the world. Today badges with Chairman Mao's pictures have become the world's most, most valuable treasure.

A Bolivian schoolmate at a reception stared with boundless feeling at the Chairman Mao badge worn by a Chinese student and said excitedly to his Chinese comrade: "It is indeed not easy! I have been looking for this Chairman Mao badge for three full years. Today..." While he was saying, his hand had already touched the badge on the Chinese schoolmate's chest. "You must let me have it today!" When his request was satisfied, he held his Chinese comrade's hand and thanked profusely. With uncontrollable great happiness and excited feeling, his two moist eyes fixed on that

glittering badge on his own chest.

When a Cuban worker received a Chairman Mao badge, he said to his Chinese comrades with pride "I know only Chairman Mao's people are worthy to wear it. Now that you have given one to me, I am also one of Chairman Mao's people!" How deeply touching are the words "Chairman Mao's people!" How fortunate and how proud to be one of "Chairman Mao's people!"

## II. Chairman Mao's voice shakes the whole earth

"The making of revolution depends on Mao Tse-tung thought." These are the words expressed by a Latin American student at a meeting on application of Chairman Mao's writings and he has also revealed the common voice of the revolutionary people of the entire world.

The Cuban friends, under the revisionist rule, are risking their lives by insisting on study of Chairman Mao's writings. One day, several Chinese students in Cuba went to a hospital for treatment. A medical worker ignored ~~xxxxxx~~ revisionist group's maniacal anti-Chinese white terror at that time and shook hands with every Chinese student. He said loudly: "I like to read Chairman Mao's books the most. I have bought all Selected Works of Mao Tse-tung on the market and I am studying them ." He then continued with discontent: "But it is difficult to buy Chairman Mao's writings lately!" In order to grasp Mao Tse-tung thought, the Cuban people are not afraid to lose their government posts, to be imprisoned or to lose their heads! How valuable is such spirit!

Chairman Mao's congratulatory cablegram to the "Fifth Congress" of the Albanian Labor Party has shaken the entire Albania. When Comrade Kang Sheng read this message at the Congress, he was interrupted time after time by the long thunderous applause and cheers and sometimes one sentence was interrupted several times. During the reading of this short message, the delegates stood up more than thirty times to give long cheers and applause and the cheers "Enver--Mao Tse-tung," "Enver--Mao Tse-tung," became louder and louder and several times lasted ten-odd minutes. Some delegates preferred not to sit down again. Many delegates were moved to tears and many shouted their voices hoarse. Today the poetic fiery words in the message have already been recited fluently even in reverse by many Albanian comrades-at-arm. Chairman Mao's voice echoed in the heroic Land of the Eagle and inspired and encouraged the close comrades-at-arm in Albania.

A Latin American student studying in Cuba vowed after receiving a copy of French-edition of "Quotations From Chairman Mao": "Every sentence of Chairman Mao's sayings is truth and I want to study and read it every day. I must follow Comrade Lin Piao's teaching by using these sayings as weapons." True, many revolutionary comrades-at-arm in the world today have already learned and applied with full vigor the Mao tse-tung thought like weapons.

A Chinese delegation arrived at war-torn Vietnam. The Vietnamese militia comrades said to it: "When the enemy sharpens his knife, we also sharpen ours." They also said: "Chairman Mao said imperialism is a paper tiger. these words have strengthened our Vietnamese people's courage and

we must learn Chairman Mao's writings well."

During a discussion by a group of Albanian students in the classroom, they argued unceasingly about the problem of appraising the youth and could not solve it at all. A student then stood up to recite a paragraph from the "Quotations From Chairman Mao": "The world is your and also ours, but in the end it will be yours. You young people are full of vigor and in the prime of life, like the sun at eight or nine o'clock in the morning. The hope is entrusted to you." He received enthusiastic applauses from the whole group of students immediately and all of them ended their arguments by finally unifying an understanding on the basis of Mao Tse-tung thought.

"Navigation on seas depends on helmsman and growth of ten thousand things depends on the sun." Many vivid stories as told in the various countries of the world have pointed out one glorious truth! Chairman Mao's books are the treasured wealth of the people of the entire world, and Mao Tse-tung thought is the brightest lighthouse of the world's revolutionary people. The world's revolutionary people are following the navigation course opened by Chairman Mao and riding the wind and breaking the waves to sail forward courageously!

### III. Five continents hail in unison the great Chinese cultural revolution

The unprecedented Great Proletarian Cultural Revolution carrying on in our country has inspired tremendously the revolutionary people of the world. During Albanian National Day last year, an Albanian cooperative director stood up to speak with feeling after hearing the Chinese comrades publicized the nature and meaning of our country's Great Proletarian Cultural Revolution: "Chairman Mao is simply great, and seven hundred million Chinese people are simply great. Standing together with the Chinese people, we fear of nothing! Comrade Mao Tse-tung can mobilize an army of seven hundred million to fight against imperialism and revisionism!" He shouted then to the top of his voice: "long live, Chairman Mao!" "long live, the Red Guards!" Before our country's students returned home from Albania, an Albanian military officer said to them: "When you return home, you must be the red guards. If there is any one against Chairman Mao and Mao Tse-tung thought, you will engage in resolute struggle against him!" He also reminded them sincerely: "If your parents stand at the bourgeois reactionary line, then you should struggle against them relentlessly!" Like us, the Albanian comrades-at-arm are filled with boundless profound feeling about Chairman Mao's revolutionary line, and we will stand together with the fraternal Albanian people forever.

Not long ago, an encouraging good news came from Albania that big-character posters have appeared on Albanian streets. Albania dares to make revolution and her young and very young people who dare to rebel had led the way to storm the churches with strongest imperialist and capitalist influence and smashed them into smithereens! Like our country in last August, today's Albanian society has launched a grand movement of smashing the old and establishing the new ones. Thousands of Albanian youths are taking after the Chinese Red Guards and developing the excellent tradition

Albania's veteran guerrilla members by marching to exchange experience and by crossing mountains and waters to visit every sacred places of the revolution....The fire of the great proletarian cultural revolution is burning furiously in Albania!

Our country's Great Proletarian Cultural Revolution has caused imperialism and revisionism to panic greatly, but at the same time brought hopes to all oppressed nationalities and people of the world who considered this movement in our country the most important event in the present-day world. A Cuban friend said to the Chinese comrades: "I know the Chinese situation as good as the back of my hand. The present Great Proletarian Cultural Revolution in China is the most important event in the contemporary world and another peak of the development of Marxism-Leninism. Therefore, I am concerned with its move all the time. Everyday I listen to Peking broadcasts on time so that I may increase my understanding and consciousness. I am firmly convinced now that in comparison with China, our Cuba simply has no revolution and is in extreme disorder! Our Cuba must have a great proletarian cultural revolution! How excellent has this Cuban friend expressed these words! They represented what the revolutionary people of all imperialist and revisionist countries wanted to say in their hearts. We believe that the raging fire of the Chinese revolution will one of these days reach the entire earth and burn all freaks and monsters into ashes for sure so that a new world of red Mao Tse-tung thought will definitely be born in this raging fire!

"Lights from Peking's golden mountain are beaming to four directions and Chairman Mao is that golden sun." The name "Mao Tse-tung" is vibrating the entire earth and the lighthouse of Mao Tse-tung thought is lightening the navigation course of the world revolution. The hearts of the people in the whole world are for the city of Peking and for Chairman Mao. The people in the entire world cheered in unison: "Respected and beloved Chairman Mao, you are the eternal unsetting red sun in our hearts!"
